Resistance Simon and Schuster

The first novel in an epic crossover trilogy uniting characters from every corner of the Star Trek universe, revealing the shocking origin and final fate of the Federation's most dangerous enemy—the Borg. Half a decade after the Dominion War and more than a year after the rise and fall of Praetor Shinzon, the galaxy's greatest scourge returns to wreak havoc upon the Federation—and this time its

goal is nothing less than total annihilation. Elsewhere, deep in the Gamma Quadrant, an ancient mystery is solved. One of Earth's first generation of starships, lost for centuries, has been found dead and empty on a desolate planet. But its discovery so far from home has raised disturbing questions, and the answers harken back to a struggle for survival that once tested a captain and her crew to the limits of their humanity. From that terrifying flashpoint begins an apocalyptic odyssey that will reach across time and space to reveal the past, define the future, and show three captains—Jean-Luc Picard

of the U.S.S. Enterprise, TM William Riker of the U.S.S. Titan, and Ezri Dax of the U.S.S. Aventine—that some destinies are inescapable.

The Immortals Star Trek: Destiny #1: Gods of Night

'A masterfully crafted, brutally compelling Norse-inspired epic' Anthony Ryan THE GREATEST SAGAS ARE WRITTEN IN BLOOD. A century has passed since the gods fought and drove themselves to extinction. Now only their bones remain, promising great power to those brave enough to seek them out. As whispers of war echo across the land of Vigrið, fate

follows in the footsteps of three warriors: a huntress on a dangerous quest, a noblewoman pursuing battle fame, and a thrall seeking vengeance among the mercenaries known as the Bloodsworn. All three will shape the fate of the world as it once more falls under the shadow of the gods. Set in a brand-new, Norse-inspired world, and packed with myth, magic and bloody vengeance, *The Shadow of the Gods* begins an epic new fantasy saga from bestselling author John Gwynne. Further praise for *The Shadow of the Gods* 'Visceral, heart-breaking and unputdownable' Jay Kristoff 'A satisfying and riveting read. The well-realised characters move against a backdrop of a world stunning in its immensity. It's everything I've come to expect from a John Gwynne book' Robin Hobb 'A masterclass in storytelling . . . epic, gritty fantasy with an uncompromising amount of heart' FanFiAddict 'Quintessential Gwynne honed to perfection . . . *The Shadow of the Gods* is absolutely stunning, one hell of an epic series opener and a spectacular dose of Viking-flavoured fantasy' The Tattooed Book Geek 'Reminds me of all that I love in the fantasy genre.

*The Shadow of the Gods* is an action-packed cinematic read' Fantasy Hive [Department of Temporal Investigations: Shield of the Gods](#) Simon and Schuster Features four bonus videos! Watch Rick discuss the events that have shaped his life; step inside his recording studio to hear him discuss his music, his acting career, coming to America, and his love of dogs; and watch Rick's "What's Victoria's Secret?" music video and his unplugged version of "I Get Excited." In a searingly candid memoir which he authored himself, Grammy Award-winning pop icon Rick Springfield pulls back the curtain on his image as a bright, shiny, happy performer to share the startling story of his rise and fall and rise in music, film, and television and his lifelong battle with depression. In the 1980s, singer-songwriter and actor Rick Springfield seemed to have it all: a megahit single in "Jessie's Girl," sold-out concert tours, follow-up hits that sold more than 17 million albums and became the pop soundtrack for an entire generation, and 12 million daily viewers who avidly tuned in to *General Hospital* to swoon over his portrayal of the handsome Dr. Noah Drake. Yet lurking behind his success as a

pop star and soap opera heartthrob and his unstoppable drive was a moody, somber, and dark soul, one filled with depression and insecurity. In *Late, Late at Night*, the memoir his millions of fans have been waiting for, Rick takes readers inside the highs and lows of his extraordinary life. By turns winningly funny and heartbreakingly sad, every page resonates with Rick's witty, wry, self-deprecating, brutally honest voice. On one level, he reveals the inside story of his ride to the top of the entertainment world. On a second, deeper level, he recounts with unsparing candor the forces that have driven his life, including his longtime battle with depression and thoughts of suicide, the shattering death of his father, and his decision to drop out at the absolute peak of fame. Having finally found a more stable equilibrium, Rick's story is ultimately a positive one, deeply informed by his passion for creative expression through his music, a deep love of his wife of twenty-six years and their two sons, and his life-long quest for spiritual peace.

Like a Deity Farrar, Straus and Giroux  
Sip sweet libations worthy of the Gods with these Greek myth-inspired concoctions based on all your favorite Gods and Goddesses. Care for Hestia's Old Fashioned? Want to fall in love with Eros on the Beach? How about the Bacchic Muddled Maenad sangria, topped with a blood orange; or maybe a Labooze of Heracles—made with plenty of strong whiskey? In Nectar of the Gods, you can sip Greek mythology-themed drinks while you enjoy your favorite ancient tales (or mythological retellings) with this collection of delicious and fun cocktails written by Liv Albert, host of the popular podcast Let's Talk About Myths, Baby!. Now you can discover new creations along with all your favorites and drink like the God or Goddess you know you are.

Late, Late at Night Simon and Schuster  
The biggest science fiction series of the decade comes to an incredible conclusion in the ninth and final novel in James S.A. Corey's Hugo-award winning space opera that inspired the Prime Original series. "An all-time genre classic." —Publishers Weekly (starred review) Hugo Award Winner for Best Series The Laconian Empire has

fallen, setting the thirteen hundred solar systems free from the rule of Winston Duarte. But the ancient enemy that killed the gate builders is awake, and the war against our universe has begun again. In the dead system of Adro, Elvi Okoye leads a desperate scientific mission to understand what the gate builders were and what destroyed them, even if it means compromising herself and the half-alien children who bear the weight of her investigation. Through the wide-flung systems of humanity, Colonel Aliana Tanaka hunts for Duarte's missing daughter. . . and the shattered emperor himself. And on the Rocinante, James Holden and his crew struggle to build a future for humanity out of the shards and ruins of all that has come before. As nearly unimaginable forces prepare to annihilate all human life, Holden and a group of unlikely allies discover a last, desperate chance to unite all of humanity, with the promise of a vast galactic civilization free from wars, factions, lies, and secrets if they win. But the price of victory may be worse than the cost of defeat. "Interplanetary adventure the way it ought to be written." —George R. R. Martin The

Few films have been so keenly awaited or the subject of so much internet debate as the twelfth Star Trek movie -- the first since 2002 -- which is scheduled to be released in May 2009. Directed by J.J. Abrams, creator of cutting-edge cult television shows *Lost* and *Alias*, the film is expected to launch the Star Trek franchise into a new stellar era. Going back to the very beginnings of the classic Star Trek, the film tells how James T. Kirk, the half-Vulcan Spock, Dr McCoy, engineer Montgomery Scott and crew members Chekov, Sulu and Uhura first came together as rookie Starfleet recruits, and how they embraced the destiny that would later send them out across the galaxy accompanied by the immortal words: 'These are the voyages of the Starship Enterprise...' A largely brand new cast

including Chris Pine as Kirk, Zachary Quinto (Heroes) as Spock, Simon Pegg as Scotty, Karl Urban as McCoy alongside Eric Bana, Winona Ryder and Leonard Nimoy will bring Star Trek to a whole new audience, while at the same time Alan Dean Foster's novelization will enthrall both existing fans and a new generation of readers.

*An Oral History as Told by Jon Stewart, the Correspondents, Staff and Guests* Simon and Schuster

An all new Star Trek e-novella featuring the fan-favorite Federation bureau the Department of Temporal Investigations! The stalwart agents of the Department of Temporal Investigations have tracked down many dangerous artifacts, but now they face a greater, more personal challenge: retrieving a time-travel device stolen from their own vault by a rogue agent of the Aegis, a powerful, secretive group that uses its mastery of time to prevent young civilizations from destroying themselves. Blaming the Aegis itself for a tragedy yet to come, this renegade plans to use the stolen artifact to sabotage its efforts in the past, no matter what the cost to the timeline. Now

the DTI's agents must convince the enigmatic Aegis to work alongside them in order to protect history—but they must also wrestle with the potential consequences of their actions, for preserving the past could doom countless lives in the future!

**film tie-in novelization** Simon and Schuster

'A rich and complex story of friendship and love' GUARDIAN 'It's a giant thought experiment that's also a cracking good read about gender' Neil Gaiman 'Love doesn't just sit there, like a stone, it has to be made, like bread; remade all the time, made new' Two people, until recently strangers, find themselves on a long, tortuous and dangerous journey across the ice. One is an outcast, forced to leave his beloved homeland; the other is fleeing from a different kind of persecution. What they have in common is curiosity, about others and themselves, and an almost unshakeable belief that the world can be a better place. As they journey for over 800 miles, across the harshest, most inhospitable landscape, they discover the true meaning of friendship, and of love. [How a Radio Station Defined Politics,](#)

[Counterculture, and Rock and Roll](#) Simon and Schuster

Arkady and Boris Strugatsky are widely known as the greatest Russian writers of science fiction, and their 1964 novel *Hard to Be a God* is considered one of the greatest of their works. It tells the story of Don Rumata, who is sent from Earth to the medieval kingdom of Arkanar with instructions to observe and to influence, but never to directly interfere. Masquerading as an arrogant nobleman, a dueler and a brawler, Don Rumata is never defeated but can never kill. With his doubt and compassion, and his deep love for a local girl named Kira, Rumata wants to save the kingdom from the machinations of Don Reba, the First Minister to the king. But given his orders, what role can he play? *Hard to Be a God* has inspired a computer role-playing game and two movies, including Aleksei German's long-awaited swan song. Yet until now the only English version (out of print for over thirty years) was based on a German translation, and was full of errors, infelicities, and misunderstandings. This new edition—translated by Olena Bormashenko, whose translation of the

authors' *Roadside Picnic* has received widespread acclaim, and supplemented with a new foreword by Hari Kunzru and an afterword by Boris Strugatsky, both of which supply much-needed context—reintroduces one of the most profound Soviet-era novels to an eager audience.

Luster Hachette UK

The Starship Rhea has discovered a cluster of carbon planets that seems to be the source of the quantum energies rippling through a section of space. A landing party finds unusual life-forms inhabiting one of the planets. One officer, Lieutenant T'Ryssa Chen -- a half-Vulcan -- makes a tenuous connection with them. But before any progress can be made, the Rhea comes under attack from the Einstein -- a Starfleet vessel now controlled by the Borg. The landing party can only listen in horror as their comrades are assimilated. The Borg descend to the planet, and just as Chen accepts that she will be assimilated, the lieutenant is whisked two thousand light-years away. A quantum slipstream -- instantaneous transportation -- is controlled by these beings in the cluster, and in the heart of

the cluster there is now a Borg ship. Cut off from the rest of the Borg collective, the Einstein cannot be allowed to rejoin it. For the sake of humanity, the Borg cannot gain access to quantum slipstream technology. Starfleet Command gives Captain Picard carte blanche: do whatever he must to help the beings in the cluster, and stop the Einstein no matter the cost.

**The Daily Show (The Book)** Simon and Schuster

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam.

In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of *The Daily Show*; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the "news dissector" Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary WBCN and the American Revolution is available as a DVD sold separately.

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

*Star Trek: Coda: Book 3: Oblivion's Gate*  
Simon and Schuster

Bestselling author and acclaimed physicist Lawrence Krauss offers a paradigm-shifting view of how everything that exists came to be in the first place. "Where did the universe come from? What was there before it? What will the future bring? And finally, why is there something rather than nothing?" One of the few prominent scientists today to have crossed the chasm between science and popular culture, Krauss describes the staggeringly beautiful experimental observations and mind-bending new theories that demonstrate not only can something arise from nothing, something will always arise from nothing. With a new preface about the significance of the discovery of the Higgs particle, *A Universe from Nothing*

uses Krauss's characteristic wry humor and wonderfully clear explanations to take us back to the beginning of the beginning, presenting the most recent evidence for how our universe evolved—and the implications for how it's going to end. Provocative, challenging, and delightfully readable, this is a game-changing look at the most basic underpinning of existence and a powerful antidote to outmoded philosophical, religious, and scientific thinking.

Orbit

The third original novel in the electrifying *The Next Generation/Deep Space Nine* crossover event! **THE NEEDS OF THE MANY** Despite heroic efforts by Thirishar ch'Thane, the Andorian species is headed for extinction. Its slow march toward oblivion has reached a tipping point, one from which there will be no hope of return. **THE NEEDS OF THE FEW** With countless lives at stake, the leaders of Andor, the Federation, and the Typhon Pact all scheme to twist the crisis to their political gain—at any price. **THE NEEDS OF THE ONE** Unwilling to be a mere bystander to tragedy, Doctor Julian Bashir risks everything to find a cure for the

Andorians. But his courage will come at a terrible cost: his career, his freedom . . . and maybe his life.

**Nectar of the Gods** Simon and Schuster Half a decade after the Dominion War and more than a year after the rise and fall of Praetor Shinzon, the galaxy's greatest scourge returns to wreak havoc upon the Federation -- and this time its goal is nothing less than total annihilation. Elsewhere, deep in the Gamma Quadrant, an ancient mystery is solved. One of Earth's first generation of starships, lost for centuries, has been found dead and empty on a desolate planet. But its discovery so far from home has raised disturbing questions, and the answers harken back to a struggle for survival that once tested a captain and her crew to the limits of their humanity. From that terrifying flashpoint begins an apocalyptic odyssey that will reach across time and space to reveal the past, define the future, and show three captains -- Jean-Luc Picard of the U.S.S. Enterprise, TM William Riker of the U.S.S. Titan, and Ezri Dax of the U.S.S. Aventine -- that some destinies are inescapable.

[Origins of the Gods](#) Simon and Schuster

Captain Mackenzie Calhoun has often been accused of playing God, but he has never faced off against real gods—until now. As Captain Kirk did before him, Calhoun has encountered beings of unnatural power and abilities verging on godhood, and who claim to be the very individuals who inspired the Greek, Roman, Norse, and, other pantheons from Earth culture. These beings say that all they want is our worship, and in return for it will provide us with a peaceful galaxy-wide paradise of perfect health and endless pleasure. When the Federation, in the person of Captain Calhoun and the crew of the U.S.S. Excalibur, refused their offer, the resulting battle left Morgan Primus dead and Lieutenant Mark McHenry, whose own powers over time and space had proved to be substantial, in a limbo beyond death. Now, with a

wounded ship and an injured crew, Captain Calhoun, along with Captain Shelby and the crew of the Trident, must face these god-like beings once again, with the fate of galactic civilization at stake.

*Star Trek: Destiny #2: Mere Mortals* Simon and Schuster

Years before they served together on board the U.S.S. Enterprise™, Commander William Riker and ship's counselor Deanna Troi had a tempestuous love affair on her home planet of Betazed. Now, their passions have cooled and they serve together as friends. Yet the memories of that time linger and Riker and Troi remain Imzadi- a powerful Betazoid term that describes the enduring bond they still share. During delicate negotiations with an aggressive race

called the Sindareen Deanna Troi mysteriously falls ill and dies. But her death is only the beginning of the adventure for Commander Riker, an adventure that will take him across time, pit him against one of his closest friends, and force him to choose between Starfleet's strictest rule and the one he calls Imzadi.

*Darkfall* Simon and Schuster

While searching the Beta Quadrant for an ancient civilization's long-lost quick-terraforming technology, Captain William T. Riker and the crew of the U.S.S. Titan face a difficult choice after discovering a terrible danger.

*Titan: Absent Enemies* Simon and Schuster

When the Borg launch a surprise campaign to exterminate the Federation, three Starfleet captains must work desperately avoid annihilation.
