Traditions & Encounters offers an inclusive vision of the global
 past—one that is meaningful and appropriate for the
 interdependent world of contemporary times. Given the diversity
 of human societies, gathering and organizing the sheer mass of
 information in a meaningful way is a daunting challenge for any
 world history survey course. The seven-part chronological
 organization enables students to understand the development of

the world through time, while also exploring broader, big-picture
 thematic issues in world history. Through new and revised
 chapter-level and part-level features, the hallmark twin themes of
 traditions and encounters emerge in greater clarity than ever
 before in this sixth edition. As a result, students have resources
 that enable them to move beyond the facts of history and
 examine the past critically, analyze causes and effects, and
 recognize similarities and differences across world regions and
 time periods. By digging deeper into the implications of world
 history's stories—not just the who, the what, and the where, but
 also the why and the how—students can make sense of the
 human past. Connect is the only integrated learning system that
 empowers students by continuously adapting to deliver precisely
 what they need, when they need it, and how they need it, so that
 your class time is more engaging and effective.
