DARIEN DEREK

International Journal of Applied Linguistics
 & English Literature John Benjamins
 Publishing

This book examines the concept of empathy as an essential aspect of the teacher training curriculum, and asks how it can be taught. While there has been a steady flow of teacher education reform books in recent years, there are comparatively few that have considered change from understandings and advances developed in human rights-based practices and theatrical traditions. The author presents unique and compelling approaches to teacher training and learning, developed in conjunction with experts in theatrical and educational fields and combining both research and

praxis. This pioneering book will appeal to students and scholars of education and empathy, as well as those interested in incorporating empathy into their teaching practice.

Some implications for language learning and dictionary making Anchor
 Literary Urban Studies and How to Practice
 It is the first textbook in literary urban studies (LUS). It illuminates and investigates this exciting field, which has grown since the humanities' 'spatial turn' of the 1990s and 2000s. The book introduces city literature, urban methods of reading, classics in LUS and new directions in the field. It outlines the located qualities of literary narratives, texts and events through three units. First, the concept of the city and the main

methods and terms needed as tools for investigating city literatures are introduced. A second section, ordered historically, shows how notions like pre-modern, realist, modernist, postcolonial and planetary actually work in nuanced explorations of actual writers, texts and places. The third unit covers literary urban modes: fictional and non-fictional prose in multiple genres; poetry and the idea of the city; dramatic city representation and the theatre as urban place. Multiple key categories of place are explored: the sacred spaces of religion; entry points such as railway stations and junctions; residential areas such as the 'slum', suburb and mass housing district; hubs of publishing and performance; categories of city such as the port and resort. In each chapter key terms, reflection questions and tasks labelled 'Research It' support reference and learning. Some Research It

tasks enable readers to enter new areas of LUS by engaging with neighbouring disciplines like human geography, cultural history, sociology and urban studies. Others equip users by sharpening particular skills of writing or documentation. A thorough glossary of key terms and concepts aids the reader. *Literary Urban Studies and How to Practice It* is designed for application to literatures and cities in any period and part of the world. Armed with it, humanities researchers at any career stage can develop their interdisciplinary skills and ability to participate in activism and public debates while becoming specialised in LUS. The book is a gateway to practicing LUS and spatial literary research. *Teaching Language, Literature and Creative Writing in Higher Education* Routledge

Today more and more linguists and language specialists the world over are acknowledging the vital role of ESP within the English language teaching and learning area. Consequently, teachers and learners alike are discovering that there is a wider scope available to them in the field. Hopefully, the joint effort that went into the publishing of this volume will serve to motivate others to continue working in this direction.

Phraseology in English Academic Writing Rodopi

A much-cited and highly influential text by Alastair Pennycook, one of the world authorities in sociolinguistics, *The Cultural Politics of English as an International Language* explores the globalization of English by examining its colonial origins, its connections to linguistics and applied linguistics, and its relationships to the global spread of teaching practices. Nine chapters cover a wide range of key topics including: international politics colonial history critical pedagogy postcolonial literature. The book provides a critical understanding of the concept of the 'worldliness of English', or the idea that English can never be removed from the social, cultural, economic or political contexts in which it is used. Reissued with a substantial preface, this Routledge Linguistics Classic remains a landmark text, which led a much-needed critical and ideologically-informed investigation into the burgeoning topic of World Englishes. Key reading for all those working in the areas of Applied Linguistics, Sociolinguistics and World Englishes.

Communities of Practice in the History of English Cambridge University Press

Over nine hundred entries provide information on literary terms, styles,

forms, and genres, historical periods and movements, and related philosophical concepts.

The House on Mango Street Taylor & Francis

Futures for English Studies brings together chapters by leading writers across the curriculum area of English to investigate how the component parts of English (literature, language, and creative writing) are located institutionally in higher education and to explore the interdisciplinary prospects of a subject which spans the humanities and social sciences. Through explorations of changing foci in a variety of contexts, the book examines the value and purpose of teaching and researching English language, literature and creative writing in the twenty-first century, both within Anglophone countries and the wider world. The contributors, all practicing educators and researchers in the field, bring a wide range of perspectives to the theme of the development of the discipline, and illustrate that the strengths of English Studies as an academic subject lie not only in its traditional breadth and depth, but also in a readiness to adapt, experiment, and engage with other subjects.

Model Rules of Professional Conduct American Bar Association

A highly original and well researched monograph covering Romanticism and philosophy, focusing particularly on aesthetics and reason, now available in paperback.

The first book of its kind, *Learner English on Computer* is intended to provide linguists, students of linguistics and modern languages, and ELT professionals with a highly accessible and comprehensive introduction to the new and rapidly-expanding field of corpus-based research into learner language. Edited by the founder and co-ordinator of the International Corpus of Learner English (ICLE), the book contains articles on all aspects of corpus compilation, design and analysis. The book is divided into three main sections; in Part I, the first chapter provides the reader with an overview of the field, explaining links with corpus and applied linguistics, second language acquisition and ELT. The second chapter reviews the software tools which are currently available for analysing learner language and contains useful examples of how they can be used. Part 2 contains eight case studies in which computer learner corpora are analysed for various lexical, discourse and grammatical features. The articles contain a wide range

of methodologies with broad general application. The chapters in Part 3 look at how Computer Learner Corpus (CLC) based studies can help improve pedagogical tools: EFL grammars, dictionaries, writing textbooks and electronic tools. Implications for classroom methodology are also discussed. The comprehensive scope of this volume should be invaluable to applied linguists and corpus linguists as well as to would-be learner corpus builders and analysts who wish to discover more about a new, exciting and fast-growing field of research. *Expressive Rationality in Rousseau, Kant, Wollstonecraft and Contemporary Theory* Rodopi

The English Teacher's Drama Handbook is a rich, thought-provoking introduction to teaching drama within the English classroom. Divided into two sections, the first part of the book explores deological influences that have shaped drama's relationship with English over the past 250 years and aims to help you locate your own practice within a theoretical and historical context. Starting with Rousseau's seminal text *Emile*, it considers the theories of key thinkers and practitioners and a range of complex issues including the construction of 'childhood', children's play, the teacher and student relationship, the implications of linking drama and English and the impact of national curricula on drama and English teaching. The second half of the book offers a collection of comprehensive, practical schemes of work to inspire and support you and your students to realise the power of drama in bringing English language and literature vividly to life. Suitable for a range of ages and abilities, each activity makes explicit links to the key thinkers and issues explored in the first part of the book and explores a particular aspect of work in English - from grammar and spelling to poetry and play texts. Together with guidance on how to begin and progress the activities, each sequence includes ideas for exploring issues further in the English classroom. Written for English teachers at any stage of their career, *The English Teacher's Drama Handbook* offers new ways of looking at drama and English that will ensure meaningful and enjoyable teaching and learning.

Ways of Analysing Text Routledge

A stunning novel of the present moment that takes us into the hearts and minds of those who use terrorism as an ideal and a way of life, and those who aspire to the frightening power of wealth. Abandoning a life he felt was not his own, Willie Chandran (the hero of *Half a Life*) moves

to Berlin where his sister's radical political awakening inspires him to join a liberation movement in India. There, in the jungles and dirt-poor small villages, through months of secrecy and night marches, Willie — a solitary, inward man — discovers both the idealism and brutality of guerilla warfare. When he finally escapes the movement, he is imprisoned for the murder of three policemen. Released unexpectedly on condition he return to England, he attempts to climb back into life in the West, but his experience of wealth, love and despair in London only bedevils him further. *Magic Seeds* is a moving tale of a man searching for his life and fearing he has wasted it, and a testing study of the conflicts between the rich and the poor, and the struggles within each. Its spare, elegant prose sizzles with devastating psychological analysis, bleak humour and astonishing characters. Only V. S. Naipaul could have written a novel so attuned to the world and so much a challenge to it. [The English Teacher's Drama Handbook](#) Vintage

"Rich and compelling. . .Lynskey's account of the reach of 1984 is revelatory." -- George Packer, *The Atlantic* An authoritative, wide-ranging, and incredibly timely history of 1984--its literary sources, its composition by Orwell, its deep and lasting effect on the Cold War, and its vast influence throughout world culture at every level, from high to pop. 1984 isn't just a novel; it's a key to understanding the modern world. George Orwell's final work is a treasure chest of ideas and memes--Big Brother, the Thought Police, Doublethink, Newspeak, 2+2=5--that gain potency with every year. Particularly in 2016, when the election of Donald Trump made it a bestseller ("Ministry of Alternative Facts," anyone?). Its influence has morphed endlessly into novels (*The Handmaid's Tale*), films (*Brazil*), television shows (*V for Vendetta*), rock albums (*Diamond Dogs*), commercials (Apple), even reality TV (*Big Brother*). *The Ministry of Truth* is the first book that fully examines the epochal and cultural event that is 1984 in all its aspects: its roots in the utopian and dystopian literature that preceded it; the personal experiences in wartime Great Britain that Orwell drew on as he struggled to finish his masterpiece in his dying days; and the political and cultural phenomena that the novel ignited at once upon publication and that far from subsiding, have only grown over the decades. It explains how fiction history informs fiction and how fiction explains history.

Using Theatrical Traditions to Teach

Vintage Canada

The bestselling coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. *The House on Mango Street* is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes—sometimes heartbreaking, sometimes deeply joyous—Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers.

[Magic Seeds](#) Springer

This study examines the use of prefabricated language (conventional lexical collocations) in the production of native and non-native writers of English. It first develops a framework for the description of restricted collocations and then reviews experimental research into the psycholinguistic processing of prefabricated language. Computer-based corpora of native and advanced non-native academic writing are analysed to discover to what extent and how such collocations are used in formal written English. Pedagogical implications are then considered, and the final part of the study examines the selection and presentation of restricted collocations in general and phraseological dictionaries for learners. The conclusion suggests that advanced learners need specialist collocational dictionaries, and the results of this research help to establish principles for the design of such dictionaries.

[The Cultural Politics of English as an International Language](#) Knopf

The experience of colonization and the challenges of a post-colonial world have produced an explosion of new writing in English. This diverse and powerful body of literature has established a specific practice of post-colonial writing in cultures as various as India, Australia, the West Indies and Canada, and has challenged both the traditional canon and dominant ideas of literature and culture. *The Empire Writes Back* was the first major theoretical account of a wide range of post-colonial texts and their relation to the larger issues of post-colonial culture, and remains one of the most significant works published in this field. The authors, three leading figures in post-colonial studies, open up debates about the interrelationships of post-colonial literatures, investigate the powerful forces acting on language in the post-colonial text, and show how these

texts constitute a radical critique of Eurocentric notions of literature and language. This book is brilliant not only for its incisive analysis, but for its accessibility for readers new to the field. Now with an additional chapter and an updated bibliography, *The Empire Writes Back* is essential for contemporary post-colonial studies.

[Learning, Keeping and Using Language](#) John Benjamins Publishing

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

[From theory to practice](#) Routledge

Exploring the dynamics of intertextuality, this collection begins with the origins of the idea of the poem as autonomous and coherent object in American New Criticism and the relationship of that idea to the rhetoric of Brooks's Kantian sense of history. Succeeding essays demonstrate the intriguing patterns of intertextuality.

Selected papers from the Eighth World Congress of Applied Linguistics, Sydney, 16–21 August 1987 Taylor & Francis

Wordsworth's poetry has been a focus for many of the theoretical schools of criticism that comprise modern literary studies. Don Bialostosky here proposes to adjudicate the diverse claims of these numerous schools and to trace their implications for teaching. Bialostosky draws on the work of Bakhtin and his followers to create a 'dialogic' critical synthesis of what Wordsworth's readers - from Coleridge to de Man - have made of his poetry. He reveals Wordsworth's poetry as itself 'dialogically' responding to its various contexts, and opens up fruitful possibilities for criticism and teaching of Wordsworth. This challenging book uses the case of Wordsworth studies to make a far-reaching survey of modern literary theory and its implications for the practice of criticism and teaching today.

Theoretical Scholarship and Applied Practice Oxford University Press
Studies in honour of H G Widdowson.

Principle and Practice in Applied Linguistics provides a comprehensive overview of the many and diverse areas in applied linguistics today. The papers range from second language acquisition to discourse analysis, corpus linguistics, and

classroom practice; together they emphasize the reciprocal relationship of principle and practice, and the interdisciplinary nature of applied linguistics.

Language, Literacy, Literature
Springer Nature

Using a wide-ranging variety of texts the author reviews and evaluates a broad range of approaches to textual commentary, introducing the reader to the fundamental distinction between 'actual' and 'virtual' worlds in critical practice.
