When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, "ephemeral player" of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.

*1976 Review* Crowood Press

Consacré à la Fiat 124 Sport, voici un livre qui fera date et qui s'imposera sans doute rapidement comme une référence incontestable au niveau international. Aucun ouvrage paru sur le sujet ne comporte une iconographie d'une telle richesse, avec plus de 400 illustrations d'époque (photos, publicités...), dont beaucoup en couleurs. Un grand nombre de photos et de dessins sont inédits et l'on trouvera même les nuanciers des différentes versions de la voiture. Le texte est nourri de nombreux témoignages d'acteurs de la période, du designer Tom Tjaarda lui-même aux champions de rallye, en passant par les anciens du réseau Fiat, autant de personnages-clés à la passion communicative... C'est une véritable page d'histoire qui est ici retracée. FIAT : symbole incontournable de la grande industrie italienne, les quatre lettres de ce qui fut le premier constructeur automobile européen au tournant des années 1960-1970. Un géant alors à son apogée et d'une créativité remarquable. Un flot continu de nouveautés et une gamme d'une diversité sans équivalent, avec un modèle particulièrement attractif : la 124 Sport. Moteur à double arbre à cames en tête, ligne éternelle signée Pininfarina et dessinée par Tom Tjaarda, performances brillantes, voici un cabriolet confortable et sûr, qui sait en même temps rester accessible. Le Spider 124 Sport fixe de nouveaux standards et rencontre un vif succès. Bien né, il va connaître une carrière d'une étonnante longévité, jusqu'au milieu des années 1980. Le livre décrit minutieusement les nombreuses variantes de la Fiat 124 Sport : Spider, coupé, versions 1400, 1600, 1800 puis 2000 cm3 et ultimes Spiders produits sous la marque Pininfarina, sans oublier les rares versions à turbocompresseur puis compresseur volumétrique. La course est également très bien représentée, avec l'histoire détaillée de la mythique 124 Abarth Rally, qui marque le grand retour de Fiat en compétition et accumule les victoires. Enfin, pour notre plus grand plaisir, ce livre retrace avec talent la brillante carrière de la 124 Sport en France, où elle a fait rêver des générations de connaisseurs.

**Motorcycle Apprentice** Fiat & Abarth 124 Spider and Coupé

This portfolio covers one of Fiat's iconic cars, the Pininfarina-designed 124 Spider. Production started in 1966 at which time Fiat also introduced the Coupe. The sixties was a great time for sports cars with the 124 Spider competing with Alfa Romeo Spider, MGB, Triumph TR4 and 5 and the Datsun Fairlady. As the years rolled on by - the Spider would remain in production for almost two decades - Fiat kept up a program of continual improvements that involved regular engine capacity increases to 1608cc, then to 1756cc and finally to 1995cc. Along the way there were only minor cosmetic changes to the styling of the 124 Spider - it remained as pure a design as any during a time of some turmoil in the world's automobile industry and production ended in 1985.
