*How Did They Build That?* Airport The Airport Book

Caleb Marcus is a Peacemaker, a roving lawman tasked with maintaining the peace and bringing control to magic users on the frontier. A Peacemaker isn't supposed to take a life—but sometimes, it's kill or be killed... After a war injury left him half-scoured of his power, Caleb and his jackalope familiar have been shipped out West, keeping them out of

sight and out of the way of more useful agents. And while life in the wild isn't exactly Caleb's cup of tea, he can't deny that being amongst folk who aren't as powerful as he is, even in his poor shape, is a bit of a relief. But Hope isn't like the other small towns he's visited. The children are being mysteriously robbed of their magical capabilities. There's something strange and dark about the local land baron who runs the school. Cheyenne tribes are raiding the outlying homesteads with increasing frequency and strange earthquakes keep shaking the very ground Hope stands on. Something's gone very wrong in the Wild West, and it's up to Caleb to figure out what's awry before he ends up at the end of the noose—or something far worse...

What lifts a single girl's spirit most—aside from finding a man, of course—is meeting other girls in her same boat. *Who's Picking Me Up From the Airport?* opens with Cindy Johnson's story and she will quickly become your newfound single companion. Her refreshing and comical commentary on

adult Christian dating provides readers the much needed opportunity to laugh and celebrate single life for what it is: joyful and complicated. And if so, how does he enter into it?" Have you ever found yourself wary of voicing your concerns for fear of appearing desperate or lacking in faith. Cindy's choice to put it all out there creates a powerful and much needed safe place for vulnerability and honesty around singleness. This book addresses head on the difficult reality experienced by singles in the Church. Cindy will push you to seek Jesus first, even when you don't get the things you want. Each chapter begins

The first full cultural history of the ultimate modern structure: the airport, revealed as never before ... Since its origins in the muddy fields of flying machines, the airport has arguably become one of the defining institutions of modern life. In *Naked Airport*, critic Alastair Gordon ranges from global geopolitics to action movies to the daily commute, showing how airports have changed our sense of time, distance,

travel, style, and even the way cities are built and business is done. Gordon introduces the people who shaped this place of sudden transportation: pilots like Charles Lindberg, architects like Eero Saarinen, politicians like Fiorello La Guardia, and Hitler, who built Berlin's Tempelhof as a showcase for Fascist power. He describes the airport's futuristic contributions, such as credit cards, in the form of fly-now-pay-later schemes, and he charts its shift in popular perception, from glamorous to infuriating. Finally, he analyzes the airport's function in war and peace—its gatekeeper role controlling immigration, its appeal to revolutionaries since the hijackings of the 1960s, and its new frontline position in the struggle against terror. Compelling and accessible, Naked

Airport is an original history of a long-neglected yet central creation of modern reality and imagination.

House Books for Young Readers  
 The bestselling author of *The Architecture of Happiness* and *The Art of Travel* spends a week at an airport in a wittily intriguing meditation on the "non-place" that he believes is the centre of our civilization. In the summer of 2009, Alain de Botton was invited by the owners of Heathrow airport to become their first ever writer-in-residence. Given unprecedented, unrestricted access to wander around one of the world's busiest airports, he met travellers from all over the globe, and spoke with everyone from baggage handlers to pilots, and senior executives to the airport chaplain. Based on these conversations he has produced this extraordinary meditation on the nature of travel, work, relationships, and our

daily lives. Working with the renowned documentary photographer Richard Baker, he explores the magical and the mundane, and the interactions of travellers and workers all over this familiar but mysterious "non-place," which by definition we are eager to leave. Taking the reader through departures, "air-side," and the arrivals hall, de Botton shows with his usual combination of wit and wisdom that spending time in an airport can be more revealing than we might think.

[The Art of the Airport](#) Golden Books  
 Nicholas Dagen Bloom chronicles the untold story of JFK International's complicated and turbulent relationship with the New York City metropolitan region. In spite of its reputation for snarled traffic, epic delays, endless

construction and abrasive employees, he reveals how the airport was a key player in shifting patterns of labour, transportation and residence - both encouraging and benefiting from the dispersion of population and economic activity to the outer boroughs and suburbs.
