Sacred sites offer  
believers the possibility of  
communing with the  
divine and achieving  
deeper insight into their  
faith. Yet their spiritual  
and cultural importance  
can lead to competition as  
religious groups seek to  
exclude rivals from  
practicing potentially  
sacrilegious rituals in the  
hallowed space and wish  
to assert their own claims.  
Holy places thus create  
the potential for military,  
theological, or political  
clashes, not only between  
competing religious  
groups but also between  
religious groups and  
secular actors. In *War on  
Sacred Grounds*, Ron E.  
Hassner investigates the  
causes and properties of  
conflicts over sites that  
are both venerated and  
contested; he also  
proposes potential means  
for managing these  
disputes. Hassner  
illustrates a complex and  
poorly understood  
political dilemma with  
accounts of the failures to  
reach settlement at  
Temple Mount/Haram el-  
Sharif, leading to the  
clashes of 2000, and the

competing claims of  
Hindus and Muslims at  
Ayodhya, which resulted  
in the destruction of the  
mosque there in 1992. He  
also addresses more  
successful compromises  
in Jerusalem in 1967 and  
Mecca in 1979. Sacred  
sites, he contends, are  
particularly prone to  
conflict because they  
provide valuable  
resources for both  
religious and political  
actors yet cannot be  
divided. The management  
of conflicts over sacred  
sites requires cooperation,  
Hassner suggests,  
between political leaders  
interested in promoting  
conflict resolution and  
religious leaders who can  
shape the meaning and  
value that sacred places  
hold for believers.  
Because a reconfiguration  
of sacred space requires a  
confluence of political will,  
religious authority, and a  
window of opportunity, it  
is relatively rare. Drawing  
on the study of religion  
and the study of politics in  
equal measure, Hassner's  
account offers insight into  
the often-violent  
dynamics that come into  
play at the places where  
religion and politics  
collide.

HTML and the Art of Authoring For the World Wide Web is devoted to teaching the Web user how to generate good hypertext. 'As a result of (this) rapid uncontrolled growth, the Web community may be facing a 'hypertext crisis'. Thousands of hastily written or ill conceived documents may soon be presented to readers poorly formatted or unusable... .' (From the Preface.) 'The clear and practical ways in which HTML and the Art of Authoring For the World Wide Web sets forth the principles of the Web, the operation of its servers and browsers, and its publishing concept is

commendable. It will be an indispensable guide to the Web author as well as the sophisticated user.' (From the Foreword by Robert Cailliau.) 'Despite its user friendliness, the Web has, by its own virtue, a default that makes it difficult for people to know where to begin: there is no starting point to the Web. Bebo White's HTML and the Art of Authoring For the World Wide Web will fill this gap immediately, as it provides a clear, introductory and sequential description of the fundamental concepts that lie underneath the Web. It describes HTML as an SGML application, explains the relationship between HTML and SGML, and gives a complete description of all the structure that HTML provides.' (From the Foreword by Eric van Herwijnen.)

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

From master storyteller Carlos Ruiz Zafon, author of the international phenomenon *The Shadow of the Wind*, comes *The Angel's Game* — a dazzling new page-turner about the perilous nature of obsession, in literature and in love. The whole of Barcelona stretched out at my feet and I wanted to believe that when I opened those windows — my new windows — each evening its streets would whisper stories to me, secrets in my ear, that I could catch on paper and narrate to whomever cared to listen... In an abandoned mansion at the heart of Barcelona, a young man, David Martin, makes his living by writing sensationalist novels under a pseudonym. The survivor of a troubled childhood, he has taken refuge in the world of books and spends his nights spinning baroque tales about the city's underworld. But perhaps his dark imaginings are not as strange as they seem, for

in a locked room deep within the house lie photographs and letters hinting at the mysterious death of the previous owner. Like a slow poison, the history of the place seeps into his bones as he struggles with an impossible love. Close to despair, David receives a letter from a reclusive French editor, Andreas Corelli, who makes him the offer of a lifetime. He is to write a book unlike anything that has ever existed — a book with the power to change hearts and minds. In return, he will receive a fortune, and perhaps more. But as David begins the work, he realizes that there is a connection between his haunting book and the shadows that surround his home. Once again, Zafon takes us into a dark, gothic universe first seen in *The Shadow of the Wind* and creates a breathtaking adventure of intrigue, romance, and tragedy. Through a dizzyingly constructed labyrinth of secrets, the magic of books, passion, and friendship blend into a masterful story.
