New Language Leader Pre-Intermediate Macmillan Elt

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Globalization and Language Teaching Macmillan

Information-rich topics and texts immerse adult learners in themes and issues from around the world so that English is more relevant.

Pre-intermediate Coursebook MacMillan

This book is for teachers interested in incorporating interaction online into their teaching. Interaction Online is a valuable resource for anyone who wants to incorporate an aspect of online interaction in their language teaching. It is relevant for use with online, blended or face-to-face courses and appropriate for a wide range of teachers and learning contexts. This handbook contains over 75 tried and tested activities, the majority of which can be carried out either synchronously or asynchronously. Activities are purposeful and foster interaction between and among learners and instructors, rather than between learner and machine, and make use of generic tools and applications, such as discussion forums, instant message services and Facebook.

Beginner Coursebook Macmillan _

This book considers the issues globalization raises for second language learning and teaching. Block and Cameron's collection shows how, in an economy based on services and information, the linguistic skills of workers becomes increasingly important. New technologies make possible new kinds of language teaching, and language becomes an economic commodity with a value in the global marketplace. This has implications for how and why people learn languages, and for which languages they learn. Drawing together the various strands of the globalization debate, this rich and varied collection of contributions explores issues such as: *The commodification of language(s) and language skills *The use of new media and new technologies in language learning and teaching *The

effects of globalization on the language teaching industry *New forms of power and resistance.
