Step by Step Complete and Easy Guide to Building Your Own Eco-Friendly Living | Including the Best Techniques, FAQs and Plans to Help You Make It a Masterpiece Black Dog & Leventhal
You can make the furniture you want at a fraction of the price of store-bought furniture. Not only will you save tons of money, but you'll also make environmentally sustainable pieces that are solidly built, using real materials like metal, wood, concrete, and other recycled ready-mades. The projects in this book don't require special skills, prior experience, or even a garage full of tools.

You'll be walked step-by-step through the process of making furniture, from where to buy the materials (or where to scavenge) to how to make the most of the tools you own.

Many of us dream of having a life free from rent, mortgages and utility bills and for some this dream is being achieved by living in a tiny house. Small, compact buildings offer an appealing way to live more sustainably, providing smart, energy-efficient housing at low cost; a route to escaping the financial shackles of long-term debt. Living Big in a Tiny House celebrates the diversity of tiny houses, and explores many of the innovative living solutions that tiny house-builders have developed in response to the challenges of smaller spaces. The author, Bryce Langston, has a significant international following through his YouTube channel, and devotes himself full-time to meeting tiny-house owners and discovering their stories. This book provides a fascinating look into the rapidly growing tiny-house movement, details the author's own tiny-house journey and showcases 40 innovative small-space dwellings from across the US, Canada, Japan, Australia and New Zealand. It is a must-have for anyone interested in living well with less, as well as an invaluable source of ideas for builders, designers, and aspiring tiny-house owners.

NEW YORK TIMES BESTSELLER • From the stars of the Netflix series Get Organized with The Home Edit (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. “A master class on how to arrange even your most unattractive belongings—and spaces—in an aesthetically pleasing and easy-to-navigate way.”—*Glamour* (10 Books to Help You Live Your Best Life) Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it's not hard to do—in fact, it's a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea's signature approach to decluttering. The Home Edit walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don't need another do-over in six months. When you're done, you'll not only know exactly where to find things, but you'll also love the way it looks. A masterclass and look book in one, The Home Edit is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there's nothing like a little ROYGBIV to soothe the soul). Above all, it's like having your best friends at your side to help you turn the chaos into calm. Includes a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397).

You may have noticed shipping containers scattered all over on an airport or port areas. These durable containers are used to transport different foodstuff, luxury items, cars, spare parts and merchandise from one place to another. These are often discarded or recycled to use in different manners. These are often used to design radar stations, bank vaults, bathrooms and showers, military and fire training stations, shopping malls and mobile stores, concession stands, press boxes, trucks, elevator shafts, recording studio, and homes. There are numerous ways to use a shipping container because of their durability. It is affordable to buy a shipping container home as compared to buying a real estate. If you want to build your own house within your budget, you can design containers homes that are really beneficial. It is important to carefully select a shipping container that should be free from any damage and harmful chemical. These containers are available in different sizes and you can build a durable house with the help of one or two containers. You can select marine grade flooring and steel doors for durability and water-resistant qualities. You can use special insulation to increase the durability of your shipping container homes. You have to bear labor expenses for welding, cutting and important fixtures in your living space. You can adjust these containers as per your needs. Containers are available at different rates and construction involves a little labor. You can construct a house between \$1,200 and \$6,000. The container homes require support by their four corners and the foundation can be simple as per your needs. You can save thousands of dollars on cement and bricks and construct an eco-friendly house. This book is drafted to explain the usage of the container to build homes. You can put one, two or three containers together to build a wide living space for summer and winter. There are a few useful guidelines for your assistance.
