What was known and understood about the nature of the Nazi dictatorship in Britain prior to war in 1939? How was Nazism viewed by those outside of Germany? The British Press and Nazi Germany considers these questions through the lens of the British press. Until now, studies that centre on British press attitudes to Nazi Germany have concentrated on issues of foreign policy. The focus of this book is quite different. In using material that has largely been neglected, Kylie Galbraith examines what the British press reported about life inside the Nazi dictatorship. In doing so, the book imparts important insights into what was known and understood about the Nazi revolution. And, because the overwhelming proportion of the British public's only means of news was the press, this volume shows what people in Britain could have known about the Nazi dictatorship. It reveals what the British people were being told about the regime, specifically the destruction of Weimar democracy, the ruthless persecution of minorities, the suppression of the churches and the violent factional infighting within Nazism itself. This pathbreaking examination of the British press' coverage of Nazism in the 1930s greatly enhances our knowledge of the fascist regime with which the British Government was attempting to reach agreement at the time.

The Nightmare Years, 1930-1940 Birlinn Limited

Through the eyes of foreign authors, this collection offers a new perspective on the horrifying details of German life under Nazism, in accounts as gripping and well-written as a novel, but bearing all the weight of historical witness.

Acclaimed biographer Annette Kobak turns her attention to her own family as she sets out to uncover her father's never-discussed past. A mysterious and conspicuously silent figure in Annette's life for some forty-five years, Joe Kobak at last shared with his daughter his harrowing experiences during World War II, which she has turned into a riveting work of history and memory. Born on the border of Poland and Czechoslovakia, Joe Kobak fled the Nazis, suffered imprisonment by the Russians, then joined Polish forces fighting in France. Later he escaped to London where he spent the duration of the war intercepting Soviet messages. In Joe's War, his daughter captures Joe Kobak's story in his own words, and interweaves it with her own search for a life story she can make sense of. Embarking upon a challenging and poignant journey of her own—retracing her father's footsteps across a barren and unfamiliar Ukraine—the author sheds light on the dark corners of her family history and on some of the darker aspects of the war, bringing history to life in unexpected ways.

Olympic Affair Holt Paperbacks

Soon to be a major motion picture from Academy Award-winning director Guillermo del Toro and starring Bradley Cooper, Cate Blanchett, Rooney Mara, and Toni Collette. *Nightmare Alley* begins with an extraordinary description of a carnival-show geek—alcoholic and abject and the object of the voyeuristic crowd's gleeful disgust and derision—going about his work at a county fair. Young Stan Carlisle is working as a carny, and he wonders how a man could fall so low. There's no way in hell, he vows, that anything like that will ever happen to him. And since Stan is clever and ambitious and not without a useful streak of ruthlessness, soon enough he's going places. Onstage he plays the mentalist with a cute assistant (before long his harried wife), then he graduates to full-blown spiritualist, catering to the needs of the rich and gullible in their well-upholstered homes. It looks like the world is Stan's for the taking. At least for now.

Foreign Authors Report from Germany Taylor Trade Publications

A concise and timely account of Hitler's—and Fascism's—rise to power and ultimate defeat, from

one of America's most famous journalists. American journalist and author William L. Shirer was a correspondent for six years in Nazi Germany—and had a front-row seat for Hitler's rise to power. His most definitive work on the subject, *The Rise and Fall of the Third Reich*, is a riveting account defined by first-person experience interviewing Hitler, watching his impassioned speeches, and living in a country transformed by war and dictatorship. William Shirer was originally commissioned to write *The Rise and Fall of Adolf Hitler* for a young adult audience. This account loses none of the immediacy of *The Rise and Fall of the Third Reich*—capturing Hitler's rise from obscurity, the horror of Nazi Germany's mass killings, and the paranoia and insanity that marked Hitler's downfall. This book is by no means simplified—and is sure to appeal to adults as well as young people with an interest in World War II history. "For nearly 100 years William L Shirer has spoken to us of fascism, Nazis, and Hitler . . . [He] tells the unvarnished truth as he experienced it . . . I figured this school-type book wasn't going to tell me anything new. But when I started reading, I realized that I wasn't reading for the facts anymore. I listened to his story and heard the urgency in his voice: a voice from nearly 60 years ago telling us the truth about today." —Daily Kos

"This Is Berlin" Rowman & Littlefield

This text includes the latest theoretical developments in recreational service. Continued experimentation in the field of neuroscience has produced a great deal of rethinking about personal traits and leadership potential, in turn providing a detailed explanation of the processes and techniques of leadership as it applies to the field of recreational service. The author deals with the functional aspects of leadership by providing numerous examples of how theory has been and should be applied in practical situations.

Britain Prepares for Invasion, 1940 Fairleigh Dickinson Univ Press

"From the founding of the colonies to the declaration of the Supreme Court, America's heritage is built upon the principles of the Christian religion. And yet the secularists are dismantling this foundation brick by brick, attempting to deny the very core of our national life. Gary DeMar presents well-documented facts which will change your perspective about what it means to be a Christian in America; the truth about America's Christian past as it relates to supreme court justices, and presidents; the Christian character of colonial charters, state constitutions, and the US Constitution; the Christian foundation of colleges, the Christian character of Washington, D.C.; the origin of Thanksgiving and so much more."—Publisher's description.

Leadership and Groups in Recreational Service The History Press

The story of legendary American journalist William L. Shirer and how his first-hand reporting on the rise of the Nazis and on World War II brought the devastation alive for millions of Americans. When William L. Shirer started up the Berlin bureau of Edward R. Murrow's CBS News in the 1930s, he quickly became the most trusted reporter in all of Europe. Shirer hit the streets to talk to both the everyman and the disenfranchised, yet he gained the trust of the Nazi elite and through these contacts obtained a unique perspective of the party's rise to power. Unlike some of his esteemed colleagues, he did not fall for Nazi propaganda and warned early of the consequences if the Third Reich was not stopped. When the Germans swept into Austria in 1938 Shirer was the only American reporter in Vienna, and he broadcast an eyewitness account of the annexation. In 1940 he was embedded with the invading German army as it stormed into France and occupied Paris. The Nazis insisted that the armistice be reported through their channels, yet Shirer managed to circumvent the German censors and again provided the only live eyewitness account. His notoriety grew inside the Gestapo, who began to build a charge of espionage against him. His life at risk, Shirer had to escape from Berlin early in the war. When he returned in 1946 to cover the Nuremberg trials, Shirer had seen the full arc of the Nazi menace. It was that experience that inspired him to write *The Rise and Fall of the Third Reich*—the magisterial, definitive history of the most brutal ten years the modern world had known—which has sold millions of copies and has become a classic. Drawing on never-before-seen journals and letters from Shirer's time in Germany, award-winning reporter Steve

Wick brings to life the maverick journalist as he watched history unfold and first shared it with the world.

20th Century Journey: The nightmare years, 1930-1940 Rosetta Books

Humanity at the Crossroads attempts to answer questions regarding the effect of technological progress on our lives. This book concludes that the very technology which threatens to destroy us, not merely its more favorable offshoots, is itself the catalyst for that better world we may yet hope to inhabit.

An Inquiry into the Fall of France in 1940 Liveright

This is the first comprehensive book in English on the fate of the homosexuals in Nazi Germany. The author, a German refugee, examines the climate and conditions that gave rise to a vicious campaign against Germany's gays, as directed by Himmler and his SS--persecution that resulted in tens of thousands of arrests and thousands of deaths. In this Nazi crusade, homosexual prisoners were confined to death camps where, forced to wear pink triangles, they constituted the lowest rung in the camp hierarchy. The horror of camp life is described through diaries, previously untranslated documents, and interviews with and letters from survivors, revealing how the anti-homosexual campaign was conducted, the crackpot homophobic fantasies that fueled it, the men who made it possible, and those who were its victims, this chilling book sheds light on a corner of twentieth-century history that has been hidden in the shadows much too long.

Global Politics Young Voyageur

The legendary CBS news journalist's selection of iconic World War II radio broadcasts from countries throughout Europe. William L. Shirer was the first journalist hired by CBS to cover World War II in Europe, and he worked there for over a decade as a news broadcaster. This book compiles two and a half years' worth of wartime broadcasts from Shirer's time on the ground during World War II. He was with Nazi forces when Hitler invaded Austria and made it a part of Germany under the Anschluss; he was also the first to report back to the United States on the armistice between France and Nazi forces in June of 1940. His daily roundup of news from Paris, Vienna, Berlin, Rome, and London, which documented Nazi Germany and the conditions of countries under invasion and at war, became famous for its gripping urgency. Shirer brought a sense of immediacy to the war for listeners in the United States and worldwide, and his later books, including the seminal *Rise and Fall of the Third Reich*, became definitive works on World War II history. This collection of Shirer's radio broadcasts offers all the original suspense and vivid storytelling of the time, bringing World War II to life for a modern audience.

Humanity at the Crossroads University of Chicago Press

Chronicles the Nazi's rise to power, conquest of Europe, and dramatic defeat at the hands of the Allies.

Nightmare Alley St. Martin's Press

Did fascism have a significant following in France in the 1930s? Were its supporters predominantly from the political right or left? This provocative book, in conjunction with its acclaimed predecessor, *French Fascism: The First Wave*, demolishes the notion that fascism never took hold in France. Robert Soucy argues that France has a long-standing fascist tradition, one that arose, he argues, more from counterrevolutionary forces on the right than from forces on the left. Analyzing fascist "double-talk," Soucy underscores the social and economic conservatism of such mass movements as Francisme, the Solidarit  Fran aise, the Parti Populaire Fran ais, and the Croix de Feu--as well as the ideological and membership crossovers between them. Examining police reports of the era, he penetrates beneath the "socialist" rhetoric of these movements and describes their financial backing from the steel and electricity industries and the middle- and lower-middle-class constituencies (rather than workers) who provided most of their recruits. Soucy investigates why thousands of French men and women found fascist ideas attractive during this period and what fueled the more authoritarian and brutal aspects of French fascism. According to Soucy, these tendencies (seen most recently in the right-wing activity of Jean-Marie Le Pen's National Front) periodically emerge from perceived threats from "alien" elements in French society--whether they be Communists, Socialists, immigrants, Jews, feminists, hedonists, democrats, or liberals "soft" on Marxism and secularism.

The Nazi War Against Homosexuals Rosetta Books

Written in clear and accessible prose, GLOBAL POLITICS discusses the major theories of international relations and provides students with the historical background to understand global politics. The new edition is a thorough revision and reflects the latest developments in world events and the study of international relations. The text is organized into five parts: theory and history, states and foreign policy, security relations, economic relations, and global challenges. It focuses on today's most urgent issues, such as international conflict, economic alliances, and terrorism and global security. A theoretical chapter on global politics covers six major perspectives on international relations and clearly explains the premise and significance of each theory. Enemy Images in American History Rosetta Books

Basing his study on some two-hundred-and-fifty German novels, memoirs, fictionalized histories, and films (including *Das Boot*), Michael Hadley examines the popular image of the German submarine and weighs the values, purposes, and perceptions of German writers and film makers. He considers the idea of the submarine as a war-winning weapon and the exploits of the "band of brothers" who made up the U-boat crews. He also describes the perceptions of the German public about the role of the U-boat in the war effort and the hopes that it carried for victory in two world wars against the Allied forces. Analysed in context, the U-boat emerges as a central factor and metaphor in Germany's ongoing struggle with its political and military past. In *Count Not the Dead* Hadley explores the complex relationships between political reality and cultural myth, and draws important conclusions about the way in which Germans have interpreted their past and how present concerns change these views.

The author of the international bestseller *The Rise and Fall of the Third Reich* offers a personal account of life in Nazi Germany at the start of WWII. By the late 1930s, Adolf Hitler, F hrer of the Nazi Party, had consolidated power in Germany and was leading the world into war. A young foreign correspondent was on hand to bear witness. More than two decades prior to the publication of his acclaimed history, *The Rise and Fall of the Third Reich*, William L. Shirer was a journalist stationed in Berlin. During his years in the Nazi capital, he kept a daily personal diary, scrupulously recording everything he heard and saw before being forced to flee the country in 1940. *Berlin Diary* is Shirer's first-hand account of the momentous events that shook the world in the mid-twentieth century, from the annexation of Austria and Czechoslovakia to the fall of Poland and France. A remarkable personal memoir of an extraordinary time, it chronicles the author's thoughts and experiences while living in the shadow of the Nazi beast. Shirer recalls the surreal spectacles of the Nuremberg rallies, the terror of the late-night bombing raids, and his encounters with members of the German high command while he was risking his life to report to the world on the atrocities of a genocidal regime. At once powerful, engrossing, and edifying, William L. Shirer's *Berlin Diary* is an essential historical record that illuminates one of the darkest periods in human civilization.

A New Look at Segovia, His Life, His Music, VI Pen and Sword Military

Herbert Sulzbach (1894-1985), was an influential figure in Britain and Germany who made a remarkable personal contribution to Anglo-German reconciliation following the Second World War. Working with German prisoners of war in Britain in camps that included fanatical Nazis, he guided men of all ranks - including senior officers - to personal educational and cultural achievements in preparation for peace and reconciliation. This graphic and moving account of an untold story shows where reconciliation, and a 'new Germany', were fostered. It is also a personal and family story and a microcosm of European history. Sulzbach was from an elite German Jewish banking family, and educated in the ideals of the German Enlightenment. In the First World War, he served as a front-line artillery officer with the German Imperial Army. Defeat was a shattering disappointment, and the economic depression ruined his business and the family banking fortunes. Sulzbach's life in Berlin with his artistic fe, Beate, was cushioned by wealth and the cultural life of the city, but National Socialism brought this to an end and he fled with Beate to exile in England where they were interned as 'enemy aliens'. On release, Sulzbach served with the British army and found his calling as an interpreter and educator in PoW camps where his work of 'de-nazification' and re-education paved the way to reconciliation.

The Nightmare Years, 1930-1940 Simon and Schuster

The Washington Post Notable Non-Fiction of 2013 On the seventy-fifth anniversary of Kristallnacht comes this untold story of a teenager whose act of defiance would have dire international consequences. On the morning of November 7, 1938, a seventeen-year-old Jewish refugee, Herschel Grynszpan, walked into the German embassy in Paris and in an act of desperation assassinated Ernst vom Rath, a low-level Nazi diplomat. He did it, he said, out "of love for my parents and for my people." Two days later, vom Rath lay dead, and the Third Reich exploited his murder to inaugurate its long-planned campaign of terror against Germany's Jewish citizens, in the mass pogrom that became known as Kristallnacht. In a bizarre concatenation of events that would rapidly involve Ribbentrop, Goebbels, and Hitler himself, Grynszpan would become the centerpiece of a Nazi propaganda campaign that would later describe his actions as "the first shot of the Jewish War." In *The Short, Strange Life of Herschel Grynszpan*, best-selling author Jonathan Kirsch brings to light this wrenching story, reexamining the historical details and moral dimensions of one of the most enigmatic cases of World War II. Was Grynszpan a crazed lone gunman, or was he an agent of the Gestapo, recruited to provide a convenient pretext for a major escalation of Nazi aggression? Was he motivated by a desire to strike a blow for the Jewish people as an early partisan fighter, or did his act of violence speak to an intimate connection between the assassin and his target, as Grynszpan later claimed? In re-creating the life of this German-Polish refugee turned assassin, Kirsch convincingly demonstrates that the life of Herschel Grynszpan remains just as fascinating as the conspiracy theories that surround him. Challenging the perception of the European Jew as docile and unwilling to resort to violence in the face of aggression, Grynszpan was almost unanimously assailed by most German Jews, who were rightly fearful that the Nazis would use the murder to wreak widespread retribution. Yet he was at the same time embraced by the American journalist Dorothy Thompson, who rallied others to his international defense. Condemned by the likes of Goebbels at the time, he was still labeled as a "psychopath" and an agent provocateur by Hannah Arendt at the Eichmann trial two decades later. As Kristallnacht increasingly becomes known as an international day for remembrance, Jonathan Kirsch brilliantly succeeds here in illuminating both a single life cast into the shadows of history as well as the "countless tragic lives of Eastern European Jews in the terrible days leading up to World War II."

The Rise and Fall of the Third Reich Berghahn Books

As European correspondent for a number of American newspapers during the 1930s, William L. Shirer witnessed at first hand many of the pivotal events in the buildup to World War II. At the Nuremberg rallies, when Hitler roared through the streets celebrating his newly-won domination of Germany, Shirer was there. In Munich, as Chamberlain abandoned the Czechs, Shirer was there. In Vienna during the night of the Anschluss, in Berlin, when Hitler loosed his Blitzkrieg on Poland and began the war, Shirer was there. Through articles, broadcasts and translations of Hitler's speeches, Shirer tirelessly tried to warn the world of the terrible evil that was growing in Germany. *The Nightmare Years*, a No. 1 bestseller when first published in America in 1984, is not only the fascinating eyewitness account of this cataclysmic decade, but also the more personal story of a young American caught in tense and desperate times, struggling to survive and provide a life for himself and his family as the world lurched inexorably towards war. 'More than any conventional history book, Shirer's memoirs let a reader relive history' -People 'A superb journalist. ..Shirer was close enough to Hitler to feel the Nazi leader's messianic personal force. ..An unusually fine book' -Time 'No one ever did more to explain the rise of the Nazis' -Barbara Tuchman 'An outstanding achievement of journalistic history; indeed it is the best kind of accurate and absorbing history' -Washington Post
