CARLA EWING

Hallmark Keepsake Ornaments, The Inside Stories from the Artists Who Create Them Motorbooks

An entire volume dedicated to detailing and preserving the iconic muscle car dealerships of the 1960s and early 1970s, many whose doors are now closed. Text is supported with more than 350 historic photos and illustrations. Muscle car historian Duncan Brown revisits this glorious automotive era when Nickey 427 Camaros and supercharged Dodge Demons by Grand Spaulding Dodge terrorized the streets. Drag sponsored cars from Reynolds Buick, Yeakel Chrysler-Plymouth, and Mel Burns Ford informed buyers that if you came to their dealership, you too could have a screaming fast muscle car just like the ones you saw at the dragstrip. It was these dealerships that created the lasting muscle car legacy through their innovative advertising and over-the-top performance. The majority of these dealerships floundered, unable to re-attract the customers they had prior to the muscle car. Thankfully, a

volume has been dedicated to preserving the history of those less fortunate and revisiting the past success of these Lost Muscle Car Dealerships.

Simon and Schuster

“Get one before one gets you!” Motion Performance’s catchy sales pitch for builder Joel Rosen’s Phase III Specialty Muscle Cars sums up the escalating performance scene in the late 1960s. Special edition muscle cars were essential to keep pace. Joel and other independent car builders (such as Carroll Shelby, George Hurst, Dick Harrell, Mr. Norm, and Jim Wangers) did what the factories couldn’t do: take the muscle car and turn it into a tire-burning monster. Although the Pontiac GTO established the muscle car category in 1964, a host of corporate safety restrictions restrained factories from offering turn-key race cars off the showroom floor. Independent car builders enhanced appearance and amplified performance in an attempt to do what the manufacturers wouldn’t. Motion Performance issued a written guarantee: Phase III cars would run 11.5 at 120 mph down the quarter-mile! Some of the most iconic nameplates in automotive history were applied in this era with names that included Cheetah, Black Panther, Royal Bobcat, Super Hugger, Manta Ray, Super Snake, Deuce, Fast Track, and The Machine. How did

manufacturers stealthily promote these special edition muscle cars as "halo cars" while pretending not to endorse them? What happened to these innovators when factories assimilated their ideas? It's all covered inside. Muscle car historian Duncan Brown takes us through these special edition muscle cars, their creators, and the behind-the-scenes forces that shaped these wild beasts into legends that left a lasting legacy.

The Camaro burst out of the 1960s in a blaze of tire smoke, and the muscle car landscape was never the same. The

high-performance models - Z28, SS396, COPO, Yenko - became staples of cruise nights and race tracks across America, and today they are celebrated as collectible classics. This first volume in the Muscle Car Action! series is an in-depth history of the first two Camaro generations, with all-color photography by the author, featuring some of the rarest and most meticulously restored Camaros in existence.

The Long Island Motor Parkway was constructed at a pivotal time in American history, and it often considered a precursor to the modern highway system. A forerunner of the modern highway system, the Long Island Motor Parkway was constructed during the advent of the automobile and at a pivotal time in American history. Following a spectator death during the 1906 Vanderbilt Cup Race, the concept for a privately owned speedway on Long Island was developed by William K. Vanderbilt Jr. and his business associates. It would be the first highway built exclusively for the automobile. Vanderbilt's dream was to build a safe, smooth, police-free road without speed limits where he could conduct his beloved automobile races without spectators running onto the course. Features such as the use of reinforced concrete, bridges to eliminate grade crossings, banked curves, guardrails, and landscaping were all pioneered for the parkway. Reflecting its poor profitability and the availability of free state-built public parkways, the historic 48-mile Long Island Motor Parkway closed on Easter Sunday, April 17, 1938. motorsports history, Linda Vaughn has entertained fans and has been a premier marketer of automotive goods for more than 55 years. From her first days as Miss Atlanta Raceway, coming of age while representing Hurst, through her annual appearances at America's top automotive and racing events, Linda continues to engage fans, drawing long lines whenever she makes an appearance. At her peak, Linda attended more than 100 events annually, year after year, and she still attends more than 25 events each year. The only entity that's probably seen as many events as Linda is Goodyear! For the first time ever, Linda Vaughn allows her fans a behind-the-scenes look at her career in motorsports and promotion through her personal photographic archive and other photos. Through captions, Linda tells the story of individual images recounting countless stories from her photographic memory, with no detail left unshared. She recounts events with racing personalities and automotive icons from George Hurst to Richard Petty to Mario Andretti to Don Garlits. Nobody is left out as Linda tells stories about the photos chronicling her career in Motorsports. *Linda Vaughn: The First Lady of Motorsports* is the most comprehensive gathering of imagery ever assembled on Linda Vaughn. Through her 50-plus years in Motorsports, Linda has lived it all, been everywhere, and met everyone. Whether you are simply a fan of Linda or a collector of Linda Vaughn memorabilia, this will be the premier piece in your collection!

 Kristin Neff, Ph.D., says that it's time to "stop beating yourself up and leave insecurity behind." *Self-Compassion: Stop Beating Yourself Up and Leave*

Insecurity Behind offers expert advice on how to limit self-criticism and offset its negative effects, enabling you to achieve your highest potential and a more contented, fulfilled life. More and more, psychologists are turning away from an emphasis on self-esteem and moving toward self-compassion in the treatment of their patients—and Dr. Neff's extraordinary book offers exercises and action plans for dealing with every emotionally debilitating struggle, be it parenting, weight loss, or any of the numerous trials of everyday living. *The Negro Motorist Green Book* Random House

People of African descent were some of Galveston's earliest residents, and although they came to the island enslaved, they retained mastery of their culinary traditions. As Galveston's port prospered and became the "Wall Street of the South," better job opportunities were available for African Americans who lived in Galveston and for those who migrated to the island city after emancipation, with owner-operated restaurants being one of the most popular enterprises. Staples like Fease's Jambalaya Café, Rose's Confectionery and the Squeeze Inn anchored the island community and elevated its cuisine. From Gus Allen's business savvy to Eliza Gipson's oxtail artistry, the Galveston Historical Foundation's African American Heritage Committee has gathered together the stories and recipes that preserve this culinary history for the enjoyment and enrichment of generations, and kitchens, to come.

The Negro Motorist Green Book was a groundbreaking guide that provided African American travelers with crucial information on safe places to stay, eat, and visit during the era of segregation in the United States. This essential resource, originally published from 1936 to 1966, offered a lifeline to black motorists navigating a deeply divided nation, helping them avoid the dangers and indignities of racism on the road. More than just a travel guide, The Negro Motorist Green Book stands as a powerful symbol of resilience and resistance in the face of oppression, offering a poignant glimpse into the challenges and triumphs of the African American experience in the 20th century.

This book is the unique and factual biography of the life and times of automotive legend Glenn Pray. The book is for those who are interested in small scale automobile manufacturing, fans of Auburn, Cord and Duesenberg cars, or for those who would just like to read a fascinating true life yarn. As with Preston Tucker and Malcolm Bricklin, Glenn Pray was able to introduce a technically and visually innovative automobile to the world stage. Additionally this book describes his acquisition of the Auburn-Cord-Duesenberg Company and his later adventures at manufacturing Auburn replicars. Also recommended is another Josh B. Malks book, 'Cord 810/812 The Timeless Classic'. Many great pictures throughout adds life to the words of this book. "A well-written biography of a man who was obsessed, determined, gutsy, creative and sometimes desperate, but who never let the words 'no', 'can't' or, 'impossible' interfere with his quest. very interesting reading." George Smith Past president, Auburn-Cord-Duesenberg Club

Chevy Corvette Trivia Book Colchis Books

This is the muscle car history to own--a richly illustrated chronicle of America's greatest high-performance cars, told from their 1960s beginning through the present day! In the 1960s, three

incendiary ingredients--developing V-8 engine technology, a culture consumed by the need for speed, and 75 million baby boomers entering the auto market--exploded in the form of the factory muscle car. The resulting vehicles, brutal machines unlike any the world had seen before or will ever see again, defined the sex, drugs, and rock 'n' roll generation. American Muscle Cars chronicles this tumultuous period of American history through the primary tool Americans use to define themselves: their automobiles. From the street-racing hot rod culture that emerged following World War II through the new breed of muscle cars still emerging from Detroit today, this book brings to life the history of the American muscle car. When Pontiac's chief engineer, John Z. DeLorean, and his team bolted a big-inch engine into the division's intermediate chassis, they immediately invented the classic muscle car. In those 20 minutes it took Bill Collins and Russ Gee to bolt a 389 ci V-8 engine into a Tempest chassis they created the prototype for Pontiac's GTO--and changed the course of automotive history. From that moment on, American performance cars would never be the same. American Muscle Cars tells the story of the most desirable cars ever to come out of Detroit. It's a story of flat-out insanity told at full throttle and illustrated with beautiful photography.

Take a roaring ride through every year of Chrysler performance-car history led by stunning photography, lively commentary, and detailed specification tables for every model. Expanded and updated, The Complete Book of Dodge and Plymouth Muscle Cars details all of the classic Mopar muscle cars from 1960

to today in one handsomely designed book. Explore every aspect of the: Early 1960s factory lightweights Boulevard brawlers like the Road Runner, GTX, and Super Bee Super collector cars like Hemi-powered 'Cudas, Challengers, and Superbirds 21st century Charger (2006-2023) and Challenger (2008-2023) performance cars Over nearly 75 years, Chrysler's Dodge and Plymouth brands have offered some of the most memorable and exciting muscle cars ever loosed on the motoring public. Arguably, it all began with the 1951 release of the vaunted V-8 Hemi engine. This legendary beast passed through a handful of displacements until finally morphing into the all-conquering 426. Chrysler's V-8 prowess shone in early 1960s factory-lightweight drag cars then moved to muscle-era classics like the Charger, Roadrunner, GTX, Super Bee, and Superbird. But it wasn't just about Hemis; Chrysler offered a variety of V-8 engines including 340, 383, and 440 displacements fitted to other top-flight cars like the Barracuda, Challenger, 'Cuda, and Duster. No other Detroit automaker offered a wider variety of performance cars in the 1960 and early '70s. Emissions requirements and ever-increasing insurance tabs put the squeeze on performance cars beginning in the mid-1970s, and Mopar performance declined for decades. But it returned with a vengeance in the 21st century, first in the guise of a new Charger (4-door!) and then the beloved retro-design Challenger. Both of these iconic models were put to rest in 2023, but not before unleashing the wild 807-horsepower Dodge Charger SRT Hellcat Redeye and the outrageous 1,025-horsepower Dodge Challenger SRT Demon. Power to the people, indeed! The Complete Book of Dodge and

Plymouth Muscle Cars is a must-have reference for all Mopar muscle fans.
