Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, "No sin will creep into a place that is sanctified by the presence of a

true astrologer. No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other

houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. "In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to

take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.

Foretelling Widowhood is the fruit of research work carried out by us during the last two decades. A work of predictive astrology, it amalgamates a plethora of principles enshrined in various classical texts and practical study of birth charts of those who have been unfortunate enough to suffer the immeasurable grief and plight of untimely widowhood. Untimely

widowhood is the biggest tragedy that can befall a woman and is irreversible. In olden days, widowhood in general and untimely widowhood in particular was considered an unpardonable sin and a woman had to commit Sati, that is to mount the pyre of her late husband. Was not this inhuman? Women would be ever grateful to Raja Ram Mohan Rai whose untiring efforts led to rooting out of this obnoxious practice. A common belief among masses, as also amongst self-styled astrologers, is that mangati females or those females having kuja dosa in their birth charts are predisposed to suffer widowhood. We would like to humbly opine that this belief is only

partially correct. It is not certain that females having kuja dosa will essentially undergo the miseries of marital disaster such as widowhood. Many females, who suffered untimely widowhood, were not mangati either from ascendant, or from Moon or from Venus. This is definitely a wrong concept that widowhood will curse only a mangati female. In fact, much is not known about the kuja dosa and its actual effect.

Planet Jupiter Secrets Motilal Banarsidass Publishe Jupiter is the guardian of the thinking person, the ruler of higher intellect, the embodiment of lady luck, and signifies spiritual wisdom. Jupiter represents your ideology in life. And in spiritual terms, it rules over faith, religion, philosophy, and the search for the ultimate truth of life. Jupiter governs your intrinsic curiosity to find the answers, and explore the world in the process, thus foreign travel comes under the domain of this planet. Jupiter in Vedic astrology is considered to be the most benevolent of all planets, thus naturally associated with luck, fortune and wealth. Its

benefic presence can turn rags to riches. While Saturn is the teacher, Jupiter is more of a classmate that helps to grow and sees how you flourish and tread on the right path. It is a judge who assures that you do not forget your values in the process. While this benefic planet bestows us with wisdom and wealth, at its worst, it can surrender to lethargy, sloth, and indulgence.

Xlibris Corporation

"This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human

consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations.

Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

The book gives a penetrating and full-length study of epistemology in the

school of Bhatta Mimamsa. The work is based on an intensive and critical study of the Sanskrit texts which have not been utilized by any other Oriental scholar so far. It is very much different from other books on the subject because it not only discusses historically the epistemology of the Bhatta School but also discusses many really philosophical problems connected with epistemology in general and Indian epistemology in particular. One of the most valuable features of the work is the comparative references which it makes to standard epistemologists of Western philosophy. The book reaches the highest watermark in its line. It compares

and contrasts the Bhatta position on various issues with not only other Indian schools but also with some of the European philosophers like Russell, Moore, Reid, Hume, Mill and Kant. In a sense it is an exercise in comparative philosophy. This is inevitable, as otherwise, the position of the Bhatta School cannot be clarified and brought out in depth. The Nakṣatra Sūtra is a treasure found in the Taittirīya Brāhmaṇa, a branch of the ancient Yajur Veda. Because of this, it holds unique importance and unparalleled authority among nakṣatra texts,

for it allows us to understand the nakṣatras in much clearer accord with the Vedic sages who originally envisioned them. I also supplement the book with other sections from the Taittirīya Brāhmaṇa that also talk about the nakṣatras, and with a section entitled, The True Story of the Nakṣatra Gods: a dramatic narration of the 27 nakṣatra divinities, focused on what is most relevant to their nakṣatra's symbolism. This original work pulls together diverse Purāṇic and Vedic source material to paint a vivid picture of often unknown tales and details essential for fully understanding the subtleties of the 27 Vedic stars.
