Women's Music for the Screen: Diverse Narratives in Sound shines a long-overdue light on the works and lives of female-identifying screen composers. Bringing together composer profiles, exclusive interview excerpts, and industry case studies, this volume showcases their achievements and reflects on the systemic gender biases women have faced in an industry that has long excluded them. Across 16 essays, an international array of contributors present a wealth of research data, biographical content, and

musical analysis of film, television, and video game scores to understand how the industry excludes women, the consequences of these deficits, and why such inequities persist – and to document women’s rich contributions to screen music in diverse styles and genres. The chapters amplify the voices of women composers including Bebe Barron, Delia Derbyshire, Wendy Carlos, Anne Dudley, Rachel Portman, Hildur Guðnadóttir, Mica Levi, Winifred Phillips, and more. From the mid-twentieth century to the present, and from classic Hollywood scores to pioneering electronic music, these are the stories and achievements of the women who have managed to forge successful careers in a male-dominated arena. Suitable for researchers, educators, and

students alike, *Women’s Music for the Screen* urges the screen music industry to consider these sounds and stories in a way it hasn’t before: as voices that more accurately reflect the world we all share.

An Actor Prepares Routledge

In recent years the music of minimalist composers such as La Monte Young, Terry Riley, Steve Reich and Philip Glass has, increasingly, become the subject of important musicological reflection, research and debate. Scholars have also been turning their attention to the work of lesser-known contemporaries such as Phill Niblock and Eliane Radigue, or to second and third generation minimalists such as John Adams, Louis Andriessen, Michael Nyman and William Duckworth, whose range of styles may undermine any sense of shared aesthetic approach

but whose output is still to a large extent informed by the innovative work of their minimalist predecessors. Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment, including such diverse figures as Karel Goeyvaerts, Robert Ashley, Arvo Pärt and Brian Eno. Theory has reflected practice in many respects, with the multimedia works of Reich and Glass encouraging interdisciplinary approaches, associations and interconnections. Minimalism's role in culture and society has also become the subject of recent interest and debate, complementing existing scholarship, which addressed

the subject from the perspective of historiography, analysis, aesthetics and philosophy. The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area, while also offering new and innovative approaches to the subject.

Chilly Gonzales is one of the most exciting, original, hard-to-pin-down musicians of our time. Filling halls worldwide at the piano in his slippers and a bathrobe—in any one night he can be dissecting the musicology of an Oasis hit, giving a sublime solo recital, and displaying his lyrical dexterity as a rapper. In his book about Enya, he asks: Does music have to be smart or does it

just have to go to the heart? In dazzling, erudite prose Gonzales delves beyond her innumerable gold discs and millions of fans to excavate his own enthusiasm for Enya's singular music as well as the mysterious musician herself, and along the way uncovers new truths about the nature of music, fame, success and the artistic endeavour.

As the composer/lyricist for *Godspell*, *Pippin*, *Wicked*, and other musicals, Stephen Schwartz has enjoyed one of the most significant careers in American musical theater for more than four decades. Schwartz has also achieved success on the big screen, contributing to such films as *Enchanted*, *The Prince of Egypt*, and *Pocahontas*. For his work, he has received six Tony nominations, three Grammys, and three Academy Awards. *The Musical Theater of Stephen Schwartz: From Godspell to Wicked and Beyond* is a detailed examination of Schwartz's various projects throughout his career. Musicologist Paul R. Laird discusses at length Schwartz's major shows and also considers his other ventures, such as the music and lyrics

for animated features from Disney and Dreamworks. The book focuses on two major aspects of Schwartz's creations: the process of collaboration resulting in a project's completion and a descriptive analysis of his music and lyrics. Laird also describes each show's critical reception and its place in the larger history of musical theater. Based on extensive interviews with Schwartz and a number of his major collaborators, this book provides a rare look into the creation of the composer and lyricist's shows and films. The Musical Theater of Stephen Schwartz is intended for fans as well as students and professional researchers in music, theater, and the musical theater.

This study seeks to explore the role and significance of aria insertion, the practice that allowed singers to introduce music of their own choice into

productions of Italian operas. Each chapter investigates the art of aria insertion during the nineteenth century from varying perspectives, beginning with an overview of the changing fortunes of the practice, followed by explorations of individual prima donnas and their relationship with particular insertion arias: Carolina Ungher's difficulties in finding a "perfect" aria to introduce into Donizetti's *Marino Faliero*; Guiditta Pasta's performance of an aria from Pacini's *Niobe* in a variety of operas, and the subsequent fortunes of that particular aria; Maria Malibran's interpolation of Vaccai's final scene from *Giulietta e Romeo* in place of Bellini's original setting in his *I Capuleti e i Montecchi*; and Adelina Patti's "mini-concerts" in the lesson scene of *Il*

barbiere di Siviglia. The final chapter provides a treatment of a short story, "Memoir of a Song," narrated by none other than an insertion aria itself, and the volume concludes with an appendix containing the first modern edition of this short story, a narrative that has lain utterly forgotten since its publication in 1849. This book covers a wide variety of material that will be of interest to opera scholars and opera lovers alike, touching on the fluidity of the operatic work, on the reception of the singers, and on the shifting and hardening aesthetics of music criticism through the period.

Hairspray Hal Leonard Corporation
 As defined by Wikipedia, beach music—also known as Carolina beach music and, to a lesser extent, beach pop—is a regional genre that developed

from various musical styles of the forties, fifties, and sixties. These styles ranged from big-band swing instrumentals to the more raucous sounds of blues/ jump blues, jazz, doo-wop, boogie, rhythm and blues, reggae, rockabilly, and old-time rock and roll. Beach music is closely associated with the style of the swing dance known as the shag or the Carolina shag, which is also the official state dance of both North Carolina and South Carolina. Recordings with a 4/4 blues shuffle rhythmic structure and moderate-to-fast tempo are the most popular music for the shag, and the vast majority of the music in this genre fit that description.
