A master sailor when he was barely in his twenties, Sterling Hayden (1916-1986) became an overnight film star despite having no training in acting. After starring in two major films, he quit Hollywood and trained as a commando in Europe. Hayden joined the OSS and fought in the Balkans and Mediterranean, earning a Silver Star for his distinguished service. Hayden's wartime admiration for the Yugoslavian Partisans led to a brief membership in the Communist Party after the war, and this would come back to haunt him when he was called to testify in front of the House Un-American Activities Committee where he became the first star to name names. After returning to Hollywood, Hayden's film career flourished as he starred in several films including *The Asphalt Jungle*, *Denver and Rio Grande*, and *The Killing*. His personal life, however, descended into chaos. His bitter custody battle with his second wife led to his well-publicized and controversial kidnapping of their four children for a voyage to Tahiti. Increasing alcohol and substance abuse would take its toll, but Hayden's career would be revived as a character actor in such classics as *Dr. Strangelove* and *The Godfather*. In addition, he proved to be an excellent author, penning two international bestsellers. Despite these achievements, his later years were characterized by depression, self-doubt, alcoholism, and substance abuse. His life was metaphorically a series of wars, including the most difficult of them all--the war that Sterling Hayden fought with himself.

From a hot springs attraction to a central location for gangsters, gambling, moonshine and organized crime, trace the evolution of this loose buckle in the Bible belt, now a resort and major tourist destination. In the late 1800s, Hot Springs, Arkansas, was a small town with a big attraction: hot thermal water. The federal government took possession of the downtown-area springs, and bathhouse row was born, along with the first property that would be considered a national park. Following not too far behind were

great entrepreneurs who brought in gambling and prostitution to go with the area's leading industry: moonshining. By the time the 20th century rolled in, Hot Springs was booming with tourists and became America's first resort. In the early 1930s, former New York gangster Owen Madden took up residence in the spa city, and things became very organized. Gangland luminaries from Al Capone to Frank Costello made regular pilgrimages over the next few decades to what was referred to as the loose buckle in the Bible Belt.

 Tiburon and Belvedere share the same spectacular peninsula jutting into San Francisco Bay from Marin County, California. With water on three sides, fabulous views everywhere, and San Francisco a 30-minute ferry ride away, these two communities have become highly desirable places to live. Historian Branwell Fanning, twice mayor of Tiburon, using his own collection and the archives of the Belvedere/Tiburon Landmarks Society, describes the areas transition from dairy ranches, railroad yards, military bases, and cod fisheries, to charming villages filled with homeowners.

"Recounts the case of *The People vs. Herman Swift*, a story which ran on front pages of newspapers throughout Michigan for three years in the early 20th century. It is one of the most sensational cases to ever go to the Michigan Supreme Court and was reviewed on appeal by famous Michigan governors, Chase Osborn and Nathaniel Ferris. The story revolves around the complex, tragic figure of Herman Swift, his efforts to provide a home and guidance to orphaned and cast out boys, and a resulting scandal which gripped Michigan for years"--P. The story about the most lopsided, highest scoring football game ever played as prominently featured by broadcast media including ESPN, the CBS Sports Network, National Public Radio, and in a number of print publications including metropolitan daily newspapers and periodicals nationwide. Heisman's First Trophy is a riveting novel based on a true story featuring romance, greed and revenge about a historically significant college football game played more than 100 years ago credited with changing the way the national media at the time viewed college football in the South. On a mission to save their beloved alma mater from financial demise, a handful of Kappa Sig fraternity brothers, representing tiny Cumberland University, boarded a train in Lebanon, Tennessee and traveled to Atlanta to play a monstrous Georgia Tech team coached by the legendary John Heisman. The game, which remarkably saw no first downs and hand a number of twists and turns, ended with Tech winning 22-0, a record score that remains still today in college football. Tech's win put Coach Heisman on a path to his first national championship, saved Cumberland from likely having to close its doors forever, and changed the perception of a nation about the quality of football being played in the South. From the cost of a bottle of Jack Daniels in 1916 to why Tech withdrew from the SEC in 1963, Heisman's First Trophy is consumed with history about the game of football, its legends, special events and memorable games.

Paige Peterson discovered that when she moved to New York City. For many years now, she has visited Belvedere, where she stays with her mother in the house her grandfather built on the Belvedere Lagoon. Paige and her sister packed sandwiches in paper bags and rode off on their bikes to explore the Tiburon Peninsula. Swimming, sailing, hiking, clamming, daredevil bike riding-their day was a long, unsupervised adventure. There was no interaction with parents until the Tiburon Fire Department blew the 4:30 whistle, signaling that it was time to head home. Her family's photographs confirm the story of fit, sun-kissed kids enjoying a charmed, idyllic childhood. Dave Gotz, the Archivist for the Belvedere-Tiburon Landmarks Society, deepens that personal story with archival photographs. His captions reveal his extensive knowledge of Tiburon Peninsula history: Mexican Ranchos, Portuguese dairymen, the many changes on Beach Road, Main Street, the Lagoon and the Cove, the importance of the railroad. Along the way, Paige and Dave showcase some of the area's remarkable characters. Tiburon's "Goat Lady," who so loved nature that she donated her land for open space. Blackie the horse. The artists who lived on West Shore and created a bohemian colony. And the residents of Belvedere and Tiburon who, again and again, rallied

to protect open land and the special charm of their towns. Taken together, Paige's cinematic stories and Paige and Dave's curated images and capsule histories deliver an authoritative portrait of a historically diverse community.

Golf has been called the greatest of all games, but it has also been derided by none other than Mark Twain as nothing more than a good walk spoiled. Traditional teaching holds that golf originated in Scotland around the 15th century. However, there is historical evidence of games similar to golf being played in the low countries of Europe back in the 13th century. Over the many centuries of golf's evolution, the balls used have changed greatly, as have the clubs, the holes, the courses, and the entire game itself. The Historical Dictionary of Golf presents a comprehensive history of the game through a chronology, an introductory essay, a bibliography, photos, and over 300 cross-referenced dictionary entries on places, teams, terminology, and people, including Arnold Palmer, Greg Norman, Lee Trevino, Jack Nicklaus, Annika Sörenstam, Lorena Ochoa, Phil Mickelson, and, of course, Tiger Woods. Appendixes of the members of the World Golf Hall of Fame, the Major Championships of Golf, the International Team Events, and the Professional Tour Awards are also included.
