TIMOTHY NATHANAEL

Names of the Women W. W. Norton & Company

A mesmerizing novel of love and nostalgia set in the vast spaces of contemporary East Africa. Romantic, often resonantly ironic, moving and wise, *Rules of the Wild* transports us to a landscape of unsurpassed beauty even as it gives us a sharp-eyed portrait of a closely knit tribe of cultural outsiders: the expatriates living in Kenya today. Challenged by race, by class, and by a longing for home, here are "safari boys" and samaritans, reporters bent on their own fame, travelers who care deeply about elephants but not at all about the people of Africa. They all know each other. They meet at dinner parties, they sleep with each other, they

argue about politics and the best way to negotiate their existence in a place where they don't really belong. At the center is Esmé, a beautiful young woman of dazzling ironies and introspections, who tells us her story in a voice both passionate and self-deprecating. Against a paradoxical backdrop of limitless physical freedom and escalating civil unrest, Esmé struggles to make sense of her own place in Africa and of her feelings for the two men there whom she loves--Adam, a second-generation Kenyan who is the first to show her the wonders of her adopted land, and Hunter, a British journalist sickened by its horrors. *Rules of the Wild* evokes the worlds of Isak Dinesen, Beryl Markham, and Ernest Hemingway. It explores unforgettably our infinite desire for a perfect elsewhere, for love and a place to call home. It is an astonishing literary debut.

The narrator in these poems abandons the sectarian histories of 1990's Bombay for the relative clam of New York, only to find himself a witness to September the 11th, 2001. The author's poems refract his vibrant, unique experience through the prism of this tremendous intellect.

Wait now, light me up so we do this right, yes, hold me steady to the lamp, hold it, hold, good, a slow pull to start with, to draw the smoke low into the lungs, yes, oh my... Shuklaji Street, in Old Bombay. In Rashid's opium room the air is thick with voices and ghosts: Hindu, Muslim, Christian. A young woman holds a long-stemmed pipe over a flame, her hair falling across her eyes. Men sprawl and mutter in the gloom. Here, they say you introduce only your worst enemy to opium. There is an underworld whisper of a new terror: the Pathar Maar, the stone killer, whose victims

are the nameless, invisible poor. In the broken city, there are too many to count. Stretching across three decades, with an interlude in Mao's China, it portrays a city in collision with itself. With a cast of pimps, pushers, poets, gangsters and eunuchs, it is a journey into a sprawling underworld written in electric and utterly original prose.

'Intimate, ruthless, tender: this book is like medicine for the soul.' —Nina George, author of *The Little Paris Bookshop* A beautifully poignant and poetic debut about love, loss, friendship, and ultimately, starting over. Twenty-something Holly has moved to Brighton to escape her grief. But now that she's here, sitting on a bench, listening to the rolling waves, how is she supposed to fill the void her boyfriend left when he died? She had thought she wanted to be on her own. But after a chance encounter with retired, part-time baker and book-club host, Frank, she is soon adopted by a new circle of friends, and the tides begin to shift. Beautifully written, *Let Me Be Like Water* is a moving and powerful debut about loneliness, friendship, the extraordinariness hiding in everyday life.

Maler, und Rumi, der Brahmane. In einer lyrischen, leuchtenden Prosa erzählt Thayil von einer »großen und gebrochenen Stadt«, die dabei ist, ihre Seele zu verkaufen.

Leela—alluring, taciturn, haunted—is moving back to Delhi from New York. She knows her return will unsettle many lives. Twenty-five years ago her sister was seduced by Vyasa, a young university lecturer. Now Vyasa, an eminent Sanskrit scholar, is preparing for the unlikely marriage of his son, Ash, to the child of a Hindu nationalist. Compounding Leela's disruptive presence, Vyasa's hedonistic daughter Bharati arrives from London, reluctantly leaving her cosmopolitan university life to see Ash married. He, meanwhile, has fallen in love with his brother-in-law to be. Gleefully presiding over the drama is Ganesh—divine, elephant-headed scribe of India's great epic, the Mahabharata. The family patriarchs may think they have arranged the wedding for their own selfish ends, but according to Ganesh it is he who is directing events—in a bid to save Leela, his beloved heroine, from his devious enemy Vyasa. Turning to fiction after an award-winning travel book, Alice Albinia has written a brilliantly playful and genre-defying first novel. Ambitious and entertaining, Leela's

Book weaves a tale of contemporary Delhi that crosses religious and social boundaries, reaching back into the origins of the Mahabharata itself.

Things that Fall from the Sky S. Fischer Verlag

In Greater America, with sleep under siege, this lucid and prophetic novel of ideas depicts the end of human reverie. An unnamed, unemployed, dream-prone narrator finds himself following Chevauchet, diplomat of Onirica, a foreign republic of dreams, to resist a prohibition on sleep in near-future Greater America. On a mission to combat the state-sponsored drugging of citizens with uppers for greater productivity, they traverse an eerie landscape in an everlasting autumn, able to see inside other people's nightmares and dreams. As Comprehensive Illusion – a social media-like entity that hijacks creativity – overtakes the masses, Chevauchet, the old radical, weakens and disappears, leaving our narrator to take up Chevauchet's dictum that "daydreaming is directly subversive" and forge ahead on his own. In slippery, exhilarating, and erudite prose, *The Eyelid* revels in the camaraderie of free thinking that can only happen on the lam, aiming to rescue a species that can no longer dream. "A slight but quick-witted and thoughtful philosophical parable that falls somewhere between Camus and Gaiman's Sandman universe." —Kirkus Reviews "S. D. Chrostowska's *The Eyelid* is a brilliant, visionary satire on the digital mindscape of twenty-first-century late capitalism embodied in the new global state of Greater America. Insomnia is in; dreams are seditious; sleep is outlawed. Lulled by false fantasies projected by Artificial Intelligence (AI in the book), video games, and media collaborators, humans drug themselves to stay awake so they

can slave through the now standard twenty-hour work days. Witty, oracular, Surreal, trenchant, politically astute, and often hilarious, *The Eyelid* is a throwback to the classics of the genre, Jonathan Swift's *Gulliver's Travels* and Samuel Butler's *Erewhon*. We are turning into a race of sleep-deprived automatons, Chrostowska warns, increasingly unable to mount political opposition or even dream a different future." —Douglas Glover

In his first collection since *English* (2004), Jeet Thayil offers his most affecting work to date, a startling meditation on love, grief, and the random dictates of history. In poems shaped by tenderness and rage, time blurs into a continuous present visited by Beethoven and Babur, by unnamed protagonists for whom religion and addiction are interchangeable, and by a remot god-like figure who will lick/your wound with his infected tongue. Thayil uses a stunning range of fixed and invented forms - rhymed syllabics, terza rima, ghazals, sonnets, the sestina, the canzone, stealth rhyme - to create a poetry of urgency, intimacy and passion. *Errors and Correct* is a haunting book by one of the most engaging voices you will read, full of wisdom and regret.

The Book of Chocolate Saints follows the unforgettable character Francis Newton Xavier and his journey towards salvation - or damnation - or perhaps both. In the swooning, hypnotic prose for which his Man Booker Prize-shortlisted novel was acclaimed, Jeet Thayil paints a hallucinatory portrait of an ambiguous soul: a self-destructive figure living a wild existence of excess in pursuit of his uncompromising aesthetic vision, a charismatic contrarian,

and a tortured artist battling with his conflicting instincts. His paintings and poems embodying the decadent *jeu d'esprit* of his heroes like Baudelaire forged his reputation, which is celebrated at a show in Delhi. Approaching middle-age, Xavier leaves Manhattan following 9/11, and his journey home to India becomes a voyage into his past. From his formative years with an infamous school of Bombay poets - documented by his biographer, Diswas - to an uncertain future, Xavier's story shows how the artist's life itself can become the final monument. *The Book of Chocolate Saints* explores our deepest urges in a novel that is sexy, dangerous, and entirely uncompromising. It is intoxicating, blazingly intelligent literary fiction - a strange, beautiful hymn to the artistic life lived fearlessly - that consolidates Thayil's reputation as one of the most exciting writers of his generation.

Canada's most celebrated and acclaimed actor lets loose in a magnificent memoir that will delight and enchant readers across the country. A rollicking, rich self-portrait written by one of today's greatest living actors. The story of a "young wastrel, incurably romantic, spoiled rotten" - his privileged Montreal background, rich in Victorian gentility, included steam yachts, rare orchid farms, music lessons in Paris and Berlin - "who tore himself away from the ski slopes to break into the big, bad world of theater not from the streets up but from an Edwardian living room down." Plummer writes of his early acting days - on radio and stage with William Shatner and other fellow Canadians; of the early days of the Stratford Festival in southern Ontario; of his Broadway debut at twenty-four in *The Starcross Story*, starring Eva Le Gallienne ("It opened and closed in one night, but what a

night!"); of joining Peter Hall's Royal Shakespeare Company (its other members included Judi Dench, Vanessa Redgrave and Peter O'Toole); of his first picture, *Stage Struck*, directed by Sidney Lumet; and of *The Sound of Music*, which he affectionately dubbed "S&M." He writes about his legendary colleagues: Dame Judith Anderson ("the Tasmanian devil from Down Under"); Sir Tyrone Guthrie; Sir Laurence Olivier; Elia Kazan ("this chameleon of chameleons might change into you, wear your skin, steal your soul"); and "that reprobate" Jason Robards, among many others. A revelation of the wild and exuberant ride that is the actor's - at least this actor's - life.

Part memoir, part history, part journalistic exposé, *Trip* is a look at psychedelic drugs, literature, and alienation from one of the twenty-first century's most innovative novelists--The Electric Kool-Aid Acid Test for a new generation. A Vintage Original. While reeling from one of the most creative--but at times self-destructive--outpourings of his life, Tao Lin discovered the strange and exciting work of Terence McKenna. McKenna, the leading advocate of psychedelic drugs since Timothy Leary, became for Lin both an obsession and a revitalizing force. In *Trip*, Lin's first book-length work of nonfiction, he charts his recovery from pharmaceutical drugs, his surprising and positive change in worldview, and his four-year engagement with some of the hardest questions: Why do we make art? Is the world made of language? What happens when we die? And is the imagination more real than the universe? In exploring these ideas and detailing his experiences with psilocybin, DMT, salvia, and cannabis, Lin takes readers on a trip through nature, his own

past, psychedelic culture, and the unknown.

Boats on Land is a unique way of looking at India's northeast and its people against a larger historical canvas—the early days of the British Raj, the World Wars, conversions to Christianity, and the missionaries. This is a world in which the everyday is infused with folklore and a deep belief in the supernatural. Here, a girl dreams of being a firebird. An artist watches souls turn into trees. A man shape-shifts into a tiger. Another is bewitched by water fairies. Political struggles and social unrest interweave with fireside tales and age-old superstitions. *Boats on Land* quietly captures our fragile and awkward place in the world.

"A brother is as easily forgotten as an umbrella."—James Joyce, *Ulysses* Radical and uncompromising, *Umbrella* is a tour de force from one of England's most acclaimed contemporary writers, and Self's most ambitious novel to date. Moving between Edwardian London and a suburban mental hospital in 1971, *Umbrella* exposes the twentieth century's technological searchlight as refracted through the dark glass of a long term mental institution. While making his first tours of the hospital at which he has just begun working, maverick psychiatrist Zachary Busner notices that many of the patients exhibit a strange physical tic: rapid, precise movements that they repeat over and over. One of these patients is Audrey Dearth, an elderly woman born in the slums of West London in 1890. Audrey's memories of a bygone Edwardian London, her lovers, involvement with early feminist and socialist movements, and, in particular, her time working in an umbrella shop, alternate with Busner's attempts to treat her condition and

bring light to her clouded world. Busner's investigations into Audrey's illness lead to discoveries about her family that are shocking and tragic.

ZEEST-E-ZUBAANI is an amalgamation of those little nuances, often overlooked clichés, actually vying for minute detailed attention. It accentuates upon hope over ruin and choosing happiness over suffering. It also emphasizes self worth, gaining balance and perspective, grieving, relentless persistence, transformation and not letting mere emotions to be slaves to your thoughts. The book will perhaps make you wonder... do they make hearts like hers anymore and overwhelm you with a thought provoking message, rightfully so.

As it enters its sixtieth year of independence, India stands on the threshold of superpower status. Yet India is strikingly different from all other global colossi. While it is the world's most populous democracy and enjoys the benefits of its internationally competitive high-tech and software industries, India also contends with extremes of poverty, inequality, and political and religious violence. This accessible and vividly written book presents a new interpretation of India's history, focusing particular attention on the impact of British imperialism on Independent India. Maria Misra begins with the rebellion against the British in 1857 and tracks the country's advance to the present day. India's extremes persist, the author argues, because its politics rest upon a peculiar foundation in which traditional ideas of hierarchy, difference, and privilege coexist to a remarkable degree with modern notions of equality and

democracy. The challenge of India's leaders today, as in the last sixty years, is to weave together the disparate threads of the nation's ancient culture, colonial legacy, and modern experience.
