 The Kieso, Weygandt, Warfield, Young, Wiecek, McConomy:
 Intermediate Accounting text has an outstanding reputation as
 "THE" text for intermediate accounting and is viewed as a reliable
 resource by accounting students, faculty, and professionals. After
 listening carefully to instructors and students alike, and after
 having built on what we have learned over ten successful editions
 and more than 30 years of being the market leader, we are
 confident that the eleventh edition will continue to meet the
 needs of instructors and students. With the merging of
 CMA/CA/CGA into the CPA, instructors want materials that link to
 the competencies that are outlined by the CPA. Kieso has done
 this and has adapted many questions to prepare students for the
 CPA designation. This, along with the integration of the
 International Accounting Standards and their comparison with
 Accounting Standards for Private Enterprises enhances the main

goal of the book, "to help students understand, prepare and use
 financial information by linking education with the 'real-world'
 accounting environment". Our industry-experienced and leading-
 edge author expertise in the field of IFRS, combined with an
 update of the text's technical content ensures that accounting
 faculty and students can continue to rely on Intermediate
 Accounting.
