Shepherds After My Own Heart Wipf and Stock Publishers

This book explores the concepts from Scripture for Servant leadership and compare these findings with contemporary models of servant leadership. It is an examination of Christian leadership for the contemporary world in its global and increasing secular context. Leadership studies typically view leadership externally from the results. This is a good beginning but leadership needs to also view the inside of leadership in the person of the leader. Scripture is uniquely qualified in this area since its first concern is the person who leads not just in leadership behaviors. The author uses examples from both the Old and New Testament to establish a new shepherd model of leadership that moves beyond the servant mode to the mode of caring direction. This model will provide scholars and researchers as well as leaders themselves with a way of leading that overcomes negative forms of leadership which lead to failure.

**The Conviction to Lead** Crossway

More than ever, people are talking about leadership. But much of today's discourse is advancing the same old misconceptions. In *The Book on Leadership*, best-selling author, pastor, and teacher John MacArthur sets the record straight: Leadership does not come from a job title. It isn't a matter of personality or charisma. And it isn't the same thing as iron-fisted authority. True leadership?the kind that refuses to bend to a shifting, fickle world?comes from a much deeper source. Based on the writings of one of the most effective spiritual leaders of all time?the apostle Paul?MacArthur presents the "26 Characteristics of a True Leader." Whether you are a business leader, civic leader, church leader, parent, teacher, or student, the life of Paul will empower

you to unleash your own capacity for leadership.

**Biblical Leadership Development** Smooth Stone Publishing  
This book argues that ethical leadership without a theological foundation is lacking a firm foundation. It begins with a critical assessment of ethical leadership as a leadership theory, showing how ethics and theology became separated, creating the space for ethical leadership outside of theology. Nevertheless, the author argues that ethical leadership without a biblical basis is weak, though one need not be religious to embrace the leadership principles of biblical theology. Unfolding Christology, anthropology, eschatology, and contextualized leadership as four key aspects of biblical theology for ethical leadership, this book will appeal to those studying leadership, business, innovation, and entrepreneurship.

A Pauline Theology of Church Leadership Chalice Press

"Empower others to lead biblically. Church leaders today increasingly base their ministries on secular principles rather than the timeless principles of God's Word. This relevant and important book will help you grasp a New Testament picture of leadership that is person-centered and team-centered"--Page 4 of cover.

"Why do I still struggle if I'm faithfully following God?" We all face challenges. On any given day, the problems of real life can take our breaths away. Our marriages, finances, relationships, and health are regular struggles, and that's just the beginning. Doesn't the Bible say the war has already been won? So why do we still battle? In a down-to-earth, let's-get-real approach, popular Bible teacher Havilah Cunnington cuts through the confusion and shows us how to Discern whether we're dealing with battles within ourselves, resistance from God, or genuine fights with the Devil. Throw off misconceptions about spiritual warfare, and understand what Jesus really said about our spiritual authority and the certainty we have in him. Ask the right questions and build a realistic battle plan to win one day at a time. With humor and honesty, Cunnington lays out practical tools to thrive in the face of hardship, enabling us to walk forward in the confidence that, because of Jesus, we really are stronger than the struggle. *Leadership in Christian Perspective* Moody Publishers  
After examining the lives of hundreds of historical, biblical, and

contemporary leaders, Dr. J. Robert Clinton gained perspective on how leaders develop over a lifetime. By studying the six distinct stages he identifies, you will learn to: Recognize and respond to God's providential shaping in your life Determine where you are in the leadership development process Identify others with leadership characteristics Direct the development of future leaders This revised and updated edition includes several new appendixes and expanded endnotes, as well as an application section at the end of each chapter.

Biblical Leadership Springer

*Understanding Christian Leadership* offers an examination of a distinctly Christian understanding of leadership offering a critical appraisal of insights from secular theories of leadership, exploring biblical and other theological insights into the nature and practice of leadership. Whilst arguing for a form of leadership which is widely dispersed and collaborative, the book seeks to explain the distinctive role of leaders within such a leadership economy. It also seeks to establish a proper relationship between sacred and secular leadership thinking, tackling some of the common philosophical and theological reservations to do with leadership discourse, whilst offering a critical framework for discerning the suitability for the Church of different sources of leadership thinking. Designed as core reading for leadership modules currently taught by the author across a large number of training contexts in the UK, this book is an indispensable text for those taking undergraduate or postgraduate-level qualifications in Christian leadership as well as those in other less formal leadership training contexts. Foreword by Justin Welby, Archbishop of Canterbury  
*Leaders, Fools and Impostors* Baker Academic  
This comprehensive text for Christians on organizational leadership provides theological foundations while tracing the historic roots of management, organization and leadership theories. All of this leads to five essential challenges and

practices--communication, negotiation, decision-making, financial stewardship and personal development.

The Making of a Leader Saint Mary's Press

What did Jesus really mean when he said, "Anyone who wants to be first must be the very last, the servant of all" (Mark 9:35)? Servant leadership is commended by popular leadership writers and scholars. However, much of the practical, theoretical, and even theological commentary on servant leadership doesn't do the Bible justice. It fails to account for the context and history of interpretation around this often-quoted saying of Jesus. This context has everything to do with a truly biblical understanding of servant leadership, and that's what *Servant of All* unfolds. In a culture where greatness is often confused with fame or competence, *Servant of All* is a much-needed correction. This useful guide includes personal and group reflection questions, ideal for ministry training and discipleship.

This volume explores the nature of leadership in the Christian community, especially as it was variously taught by Paul and practiced in the congregations of the first century. Exploring valuable ancient source material as well as the New Testament texts, Andrew Clarke describes the theories and practices of organization and leadership in key areas of first-century society--the city, the colony, associations, Jewish synagogues, the family--and discusses the extent to which these models influenced the first-century Christians as they sought to define the parameters

and distinctives of their own communities.

**Ministry by the Book** Abingdon Press

Scholarly studies consider Paul's views on leadership tend to fall into one of three camps: 1) the historical development view, which in large measure identifies developments in church practice with developments in Pauline and deuterio-Pauline ecclesiology; 2) the synchronic, historical reconstruction, typically making use of Graeco-Roman, social context sources, or social-scientific modelling, focusing on a single congregation, and sometimes distinguishing between the situation to which Paul was responding and the pattern he sought to impose; and 3) the theological/hermeneutical analysis, identifying Paul's particular approach to power and authority, often independently of any detailed reconstruction of the situations to which Paul was responding. Andrew Clarke has explored in an earlier work, *Serve the Community of the Church* (Eerdmans, 2000), the distinctive, local and historical situations in the various Pauline communities and concluded that there is no evidence that they organized themselves according to a common set of governmental structures which clearly developed with the passage of time. Rather each community was influenced by its own localized, social and cultural context. The present project builds on this, and necessarily focuses on leadership style rather than church order. It seeks to recover from Paul's critical responses, his generic ethos of church leadership, including the ideal qualities, characteristics and task of leaders and the nature of appropriate interaction and engagement with church members. In the light of current, theoretical discussions about power and gender, the study focuses particularly on Paul's attitude towards hierarchy, egalitarianism, authority, responsibility and privilege. *Servants and Friends* Tyndale House Publishers, Inc.

This book brings the best of leadership theory and research together with biblical reflection and examples of leadership in action to offer a practical guide to Christian leaders. Combining expertise in leadership studies and biblical studies, Justin Irving and Mark Strauss explore how leadership models have moved from autocratic and paternalistic leader-centered models toward an increased focus on followers. The authors show how contemporary theories such as transformational leadership, authentic leadership, and servant leadership take an important step toward prioritizing and empowering followers who work with

leaders to accomplish organizational goals. Irving and Strauss organize their book around "nine empowering practices," making it accessible to students, church leaders, and business leaders. Integrating solid research in leadership studies with biblical and theological reflection on the leadership ideas that are most compatible with Christian faith, this book is an important resource for all Christian students of leadership.

Reading this book won't make Christian leadership easy. But it will make it easier. The strategies and principles here won't remove all frustration from Christian leadership. But they will make it less frustrating. This book won't solve every problem. But it will help you solve a whole bunch of unnecessary problems that you really don't need to face.- Craig Hamilton, Author.- Back cover.

*Theological Foundations* Baker Books

Michael McGarry explores the foundation of youth ministry in the Old and New Testaments and brings that together with Church history in a compelling way. Reviewing Leadership InterVarsity Press

Throughout the history of the church, Christians have always had to contend with the influence of unbiblical teachings related to God, humanity, and salvation. One of the most important safeguards against all forms of heresy is a robust appreciation for biblical theology—reading the Bible in a way that takes into

account the whole storyline of redemptive history. Exhorting pastors and other church leaders to prioritize biblical theology in their own congregations, this book explains basic principles for reading the Bible that help pastors teach the big story of the Bible from every text. Understanding the Bible in Christ-centered terms shapes the church's teaching and mission, and protects the truth of the gospel around the world.
