A Guide to the Operation of United States, European Union and Other Key Competition Laws in the Global Economy CBSE Accountancy 11

Despite the continuing inter-government cooperation over the regulation of international commerce, significant cross-country differences persist in areas such as merger control, notification to authorities, and remedies deemed appropriate for antitrust enforcement. Accordingly, companies must be aware of the rules that apply in the countries in which they do business. This fourth edition of the Kintner-Joelson classic International Antitrust Primer provides a thorough update of the status of competition regulation in a number of key jurisdictions, including up-to-date case law involving the technology giants Google, Microsoft,

Amazon, Apple, and Facebook. Coverage focuses on the European Union and the United States — which continue to be foremost in the enforcement and refinement of comprehensive competition laws — but also takes into account the vast strides that are being made elsewhere, with chapters on South Korea, Japan, and India, as well as a chapter on the United Kingdom with a section on the post-Brexit implications. The book provides essential guidance on such issues of concern to business persons and their counsel as the following: • intellectual property rights; • extent and kind of criminal sanctions; • extraterritorial reach; • mergers and acquisitions; • level and type of enforcement activity; • effects of national foreign or domestic policy; • permissible cooperation among competitors; and • public procurement. Business persons, government officials, students, lawyers, and others who have been relying on this preeminent resource for years will greatly appreciate this thoroughly updated edition. There is nothing else that so lucidly and helpfully explains competition law for those who require a working knowledge of the subject to proceed confidently in their day-to-day work.

The revised fourth edition of Financial Accounting-I' has been updated with suggested answers to the latest 2017 Calcutta University, B. Com question papers. It has been designed in accordance with the CBCS syllabus of 2017-18 as prescribed by University of Calcutta for the first semester students of B. Com Honours and General courses. In addition to Calcutta University B. Com students, the book will be equally effective for other allied universities of Eastern India- The University of Burdwan, West Bengal State Universities and other universities that have adopted CBCS in accordance to UGC norms. It presents the core concepts of advanced financial accounting (precisely the corporate accounting) in a lucid and easy-to-understand manner. It has been revised considering the changes brought about in due to The Companies Act, 2013 and latest Accounting Standards (such as AS-10 substituting AS-6).
