“Everything creaks and bends in heavy seas – what will not bend will simply snap. So many times I wondered how much load we could carry in a powerful storm without breaking apart. If we flooded any faster I would drown in seconds.” Patrick Dixon spent years working as a doctor at University College Hospital, while his wife Sheila was a magistrate – high-pressure

careers that demanded long hours away from their home, family and passion for sailing. It is a frustrating story many occasional sailors can relate to, but unlike most, Patrick and Sheila realised early enough that they could only bend so far before something snapped, they could only take on so much before they drowned. This is their story of how they made changes (some more challenging than others) that they knows other sailors could make too, regardless of where they are at the moment – how they changed their priorities but managed to sustain a new career that fitted in around life rather

than the other way round. It is also the story of their personal journey, both physically (across the Atlantic and to little-visited corners of the Mediterranean) and metaphorically – how a doctor who treated cancer patients coped with a partner facing the same battle. Neither of them wanted to let that flood things either. Through their personal story, with plenty of mishaps that led to insights (both about sailing and life in general), and encounters that turned into opportunities, Patrick and Sheila explore the importance of prioritising the right things in life, and the simple benefits of travel. The book is packed with inspiring but practical advice for all those who have salt in the blood.

In *All of Us Warriors*, Rebecca Whitehead Munn paints a realistic picture of the impact cancer has on an individual's life, and she attempts to demystify the experience by sharing heartfelt stories from twenty survivors and the loved ones of those that passed. They are mothers and fathers with seven types of cancers and all stages of the disease, as well as advice regarding how to approach someone you love living with cancer and

tips and tricks for helping others feel joy in the midst of pain. This inspirational book provides a positive outlook of strength and perseverance through belief in a higher power, reinforcing the idea that the reader is stronger than cancer and not alone, and offering real strategies that cannot be found in online medical sites. Like a conversation with a new best friend (or twenty of them), *All of Us Warriors* is full of understanding, acceptance, and practical advice gained from personal experience. *Novels, Tales, Journeys* Ember

'An ode to the ocean, and the generations of women drawn to the waves or left waiting on the shore' *Guardian* In *Salt On Your Tongue*, Charlotte Runcie explores what the sea means to us, and particularly what it has meant to women through the ages. In mesmerising prose, she explores how the sea has inspired, fascinated and terrified us, and how she herself fell in love with the deep blue. This book is a walk on the beach with Turner, with Shakespeare, with the Romantic Poets and shanty-singers. It's an ode to our oceans – to the sailors who brave their treacherous waters, to the women who lost their loved ones to the waves, to the creatures that

dwell in their depths, to beachcombers, swimmers, seabirds and mermaids. Navigating through ancient Greek myths, poetry, shipwrecks and Scottish folktales, *Salt On Your Tongue* is about how the wild untameable waves can help us understand what it means to be human.

A BBC RADIO 4 BOOK OF THE WEEK SHORTLISTED FOR THE WAINWRIGHT PRIZE A SUNDAY TIMES AND FINANCIAL TIMES BOOK OF THE YEAR 'Marks the birth of a new star of non-fiction' William Dalrymple 'A beautiful account of immersion in an alien world' Philip Marsden, Guardian There is the Cornwall Lamorna Ash knew as a child – the idyllic, folklore-rich place where she spent her summer holidays. Then there is the Cornwall she discovers when, feeling increasingly dislocated in London, she moves to Newlyn, a fishing town near Land's End. This Cornwall is messier and harder; it doesn't seem like a place that would welcome strangers. But before long,

Lamorna finds herself on a week-long trawler trip with a crew of local fishermen, afforded a rare glimpse into their world, their warmth and their humour. Out on the water, miles from the coast, she learns how fishing requires you to confront who you are and what it is that tethers you to the land. *Dark, Salt, Clear* is a bracing journey of discovery and a captivating portrait of a community sustained and defined by the sea for centuries.

From the depths of Death Valley, Daniel Arnold set out to reach Mount Whitney in a way no road or trail could take him. Anything manmade or designed to make travel easy was out. With a backpack full of empty two-liter bottles, and the remotest corners of desert before him, he began his toughest test yet of physical and mental endurance. Badwater Basin sits 282 feet below sea level in Death Valley, the lowest and hottest place in the Western Hemisphere. Mount Whitney rises 14,505 feet above sea level, the highest point in the contiguous United States. Arnold spent seventeen days traveling a roundabout route from one to the other, traversing salt flats, scaling dunes, and

sinking into slot canyons. Aside from bighorn sheep and a phantom mountain lion, his only companions were ghosts of the dreamers and misfits who first dared into this unknown territory. He walked in the footsteps of William Manly, who rescued the last of the forty-niners from the bottom of Death Valley; tracked John LeMoigne, a prospector who died in the sand with his burros; and relived the tales of Mary Austin, who learned the secret trails of the Shoshone Indians. This is their story too, as much as it is a history of salt and water and of the places they collide and disappear. Guiding the reader up treacherous climbs and through burning sands, Arnold captures the dramatic landscapes as only he can with photographs to bring it all to life. From the salt to the summit, this is an epic journey across America's most legendary desert. *Sea Salt Sweet* St. Martin's Press

From the award-winning translators: the complete prose narratives of the most acclaimed Russian writer of the Romantic era and one of the world's greatest storytellers. The father of Russian literature, Pushkin is beloved not only for his poetry but also for his brilliant stories,

which range from dramatic tales of love, obsession, and betrayal to dark fables and sparkling comic masterpieces, from satirical epistolary tales and romantic adventures in the manner of Sir Walter Scott to imaginative historical fiction and the haunting dreamworld of "The Queen of Spades." The five short stories of *The Late Tales of Ivan Petrovich Belkin* are lightly humorous and yet reveal astonishing human depths, and his short novel, *The Captain's Daughter*, has been called the most perfect book in Russian literature. [The Last Voyage of Poe](#) Blythe Sarah Crichton Books

From the award-winning and bestselling author of *Cod* comes the dramatic, human story of a simple substance, an element almost as vital as water, that has created fortunes, provoked revolutions, directed economies and enlivened our recipes. Salt is common, easy to obtain and inexpensive. It is the stuff of kitchens and cooking. Yet trade routes were established, alliances built and empires secured – all for something that filled the oceans, bubbled up from springs, formed crusts in lake beds, and thickly veined a large part of the Earth's rock fairly close to

the surface. From pre-history until just a century ago – when the mysteries of salt were revealed by modern chemistry and geology – no one knew that salt was virtually everywhere. Accordingly, it was one of the most sought-after commodities in human history. Even today, salt is a major industry. Canada, Kurlansky tells us, is the world's sixth largest salt producer, with salt works in Ontario playing a major role in satisfying the Americans' insatiable demand. As he did in his highly acclaimed *Cod*, Mark Kurlansky once again illuminates the big picture by focusing on one seemingly modest detail. In the process, the world is revealed as never before.

 Truth lingers in murky waters... As Montrealer Catherine Day sets foot in a remote fishing village and starts asking around about her birth mother, the body of a woman dredges up in a fisherman's nets. Not just any woman, though: Marie Garant, an elusive, nomadic sailor and unbridled beauty who once tied many a man's heart in knots. "Written in prose so clear that we absorb its images as if by mind meld, "The Last

Painting" is gorgeous storytelling: wry, playful, and utterly alive, with an almost tactile awareness of the emotional contours of the human heart. Vividly detailed, acutely sensitive to stratifications of gender and class, it's fiction that keeps you up at night — first because you're barreling through the book, then because you've slowed your pace to a crawl, savoring the suspense." —Boston Globe A New York Times Bestseller A New York Times Book Review Editor's Choice A RARE SEVENTEENTH-CENTURY PAINTING LINKS THREE LIVES, ON THREE CONTINENTS, OVER THREE CENTURIES IN THE LAST PAINTING OF SARA DE VOS, AN EXHILARATING NEW NOVEL FROM DOMINIC SMITH. Amsterdam, 1631: Sara de Vos becomes the first woman to be admitted as a master painter to the city's Guild of St. Luke. Though women do not paint landscapes (they are generally restricted to indoor subjects), a wintry outdoor scene haunts Sara: She cannot shake the image of a young girl from a nearby village, standing alone beside a silver birch at dusk, staring out at a group of skaters on the frozen river below. Defying the expectations of her time, she

decides to paint it. New York City, 1957: The only known surviving work of Sara de Vos, *At the Edge of a Wood*, hangs in the bedroom of a wealthy Manhattan lawyer, Marty de Groot, a descendant of the original owner. It is a beautiful but comfortless landscape. The lawyer's marriage is prominent but comfortless, too. When a struggling art history grad student, Ellie Shipley, agrees to forge the painting for a dubious art dealer, she finds herself entangled with its owner in ways no one could predict. Sydney, 2000: Now a celebrated art historian and curator, Ellie Shipley is mounting an exhibition in her field of specialization: female painters of the Dutch Golden Age. When it becomes apparent that both the original *At the Edge of a Wood* and her forgery are en route to her museum, the life she has carefully constructed threatens to unravel entirely and irrevocably.
