A new edition which brings the reader

right up to date with the advances in the field since the publication of the previous edition ten years ago. In that time MCQs have continued to play a major role in the testing of factual knowledge, and with the extensive changes in undergraduate examinations MCQs have remained the most effective and objective means of assessing straightforward factual knowledge. MCQs in Undergraduate Obstetrics and Gynaecology Elsevier Science Limited European Practice in Gynaecology and

Obstetrics is a series of books conceived and endorsed by the European Board and College of Obstetrics and Gynaecology (EBCOG). The topics chosen for each volume are those of significant clinical interest where treatment is changing in response to research findings and developments in practice. The volume editor and contributing authors are European specialists invited to contribute because of their expertise in their field. The books concentrate on various types of management used in European practice as well as published results. The authors present treatments for which a consensus exists and - when there is no consensus - they discuss the key elements of the controversy. Each book provides a review of the basic science,

recent concepts in pathophysiology, clinical aspects, treatment and unresolved problems or controversies, as well as the major recent references. A final section provides multiple-choice questions for each chapter. Series concentrates on important and changing areas of clinical practice Each volume editor is a leading European expert in the field Contributors are drawn from a wide range of European countries All volumes include a review of basic science and pathophysiology, as well as clinical aspects, treatment, unresolved problems Current references are included for each chapter Multiple choice questions are provided at the end of each chapter This volume comes with a CD containing all the colour images in the book plus 106 extra images

Self-assessment of Current Knowledge in

Obstetrics and Gynecology Obstetrics & Gynecology

This book is intended as a constant revision tutor and should help you to revise your obstetrics and gynaecology in preparation for examinations. It is particularly aimed at helping you to identify areas where your knowledge and understanding needs to be improved. The answers and clinical notes in this book are presented so that you can commit yourself in written opinion and can then confirm correct information and identify errors. The answers should reinforce your knowledge when you are correct and your reference textbooks explain why you were mistaken if your answer is wrong.

Obstetrics and Gynecology Specialty Board Review McGraw-Hill/Appleton & Lange

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical

School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas

covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.
