Old People and the Things That Pass Good Press

A magisterial history of the titanic struggle between the Roman and Jewish worlds that led to the destruction of Jerusalem. Martin Goodman—equally renowned in Jewish and in Roman studies—examines

this conflict, its causes, and its consequences with unprecedented authority and thoroughness. He delineates the incompatibility between the cultural, political, and religious beliefs and practices of the two peoples and explains how Rome's interests were served by a policy of brutality against the Jews. At the same time, Christians began to distance themselves from

their origins, becoming increasingly hostile toward Jews as Christian influence spread within the empire. This is the authoritative work of how these two great civilizations collided and how the reverberations are felt to this day.

bumiputra. Dengan nama pena Multatuli, yang berarti aku menderita, dia mengisahkan kekejaman sistem tanam paksa yang menyebabkan ribuan pribumi kelaparan, miskin dan menderita. Diperas oleh kolonial Belanda dan pejabat pribumi korup yang sibuk memperkaya diri. Hasilnya, Belanda menerapkan Politik Etik dengan mendidik kaum pribumi elit, sebagai usaha ?membayar? utang mereka pada pribumi. Tragis, lucu dan humanis, Max Havelaar, salah satu karya klasik yang

Europe's Indians forces a

rethinking of key assumptions regarding difference—particularly racial difference—and its centrality to contemporary social and political theory. Tracing shifts in European representations of two different colonial spaces, the New World and India, from the late fifteenth century through the late nineteenth, Vanita Seth demonstrates that the classification of humans into racial categories or binaries of self-other is a product of modernity. Part historical, part

philosophical, and part a history of science, her account exposes the epistemic conditions that enabled the thinking of difference at distinct historical junctures. Seth's examination of Renaissance, Classical Age, and nineteenth-century representations of difference reveals radically diverging forms of knowing, reasoning, organizing thought, and authorizing truth. It encompasses stories of monsters, new worlds, and ancient lands; the theories of individual

agency expounded by Hobbes, Locke, and Rousseau; and the physiological sciences of the nineteenth century. European knowledge, Seth argues, does not reflect a singular history of Reason, but rather multiple traditions of reasoning, of historically bounded and contingent forms of knowledge. *Europe's Indians* shows that a history of colonialism and racism must also be an investigation into the historical production of subjectivity, agency,

epistemology, and the body.

Sometimes grim, sometimes uproarious, and always captivating, Iceland's Bell by Nobel Laureate Halldór Laxness is at once an updating of the traditional Icelandic saga and a caustic social satire. At the close of the 17th century, Iceland is an oppressed Danish colony, suffering under extreme poverty, famine, and plague. A farmer and accused cord-thief named

Jon Hreggvidsson makes a bawdy joke about the Danish king and soon after finds himself a fugitive charged with the murder of the king's hangman. In the years that follow, the hapless but resilient rogue Hreggvidsson becomes a pawn entangled in political and personal conflicts playing out on a far grander scale. Chief among these is the star-crossed love affair between Snaefridur, known as "Iceland's Sun," a beautiful, headstrong young noblewoman, and

Arnas Arnaeus, the king's antiquarian, an aristocrat whose worldly manner conceals a fierce devotion to his downtrodden countrymen. As their personal struggle plays itself out on an international stage, Iceland's Bell creates a Dickensian canvas of heroism and venality, violence and tragedy, charged with narrative enchantment on every page.

A Story of Holland Univ of California Press

The celebrated, revolutionary novel from a pioneering Egyptian writer Tawfiq al-Hakim, now for the first time in Penguin Classics with a foreword by Egyptian writer Alaa Al-Aswany First published in Arabic in 1933, Egyptian playwright and novelist Tawfiq Al-Hakim's *Return of the Spirit* follows a patriotic young Egyptian and his extended family as they grapple with the events leading up to the 1919 Egyptian revolution. Though often cited as an apprenticeship novel in the vein of Joyce's *A*

Portrait of the Artist as a Young Man with a touch of failed romance a la Goethe's *Sorrow of Young Werther*, Al-Hakim's classic is most recognized for being a trailblazing political novel that illustrates the way one man's spiritual awakening ties to a political awakening of a nation. While enthusiasm for the book was stifled in the mid-20th century due to a shift in Egyptian government rule, the 2011 Tahrir revolution in Egypt caused it to be examined anew as a

strong expression of nationalist solidarity and an exposé of the heritage-stripping power of Western colonialism that resonates with 21st-century Egyptians. Return of the Spirit is considered Al-Hakim's most important novel despite writing more plays than novels, and his adept understanding of class and culture within Egyptian society has cemented his place as one of the country's most celebrated writers and cultural critics.

Kim Man-Choong or Kim Man-jung (1637- 1692) was a famous Doctor of Literature and President of the Confucian College. He wrote his most famous work *Kuunmong* (The Cloud Dream of the Nine)

In his more than eighty years, Francis Wyndham has published very little—one novella and two collections of stories—but his is one of the most individual and compelling bodies of work by a contemporary English writer. As Alan Hollinghurst has said, Wyndham's fiction stands

in the tradition of social comedy that goes back through Henry James to Jane Austen, with this difference: Wyndham writes about the lives of privileged and even titled people, but he is drawn to outcasts and odd ducks, adolescents, lonely women, addicts, eccentrics, and idlers. The earliest stories here, gathered under the title *Out of the War*, are brilliant vignettes of deprivation and desire written during World War II. The later *Mrs Henderson and Other*

Stories, by contrast, offers scrupulously observed tragicomic pictures of the vagaries of upper-class English family life. Finally, in the Whitbread Prize-winning short novel *The Other Garden*, a shy teenage boy living in the country strikes up an unlikely friendship with Kay, the thirty-something daughter of neighbors, sister to a famous actor, and black sheep of her family. Kay, with her whims and crazes and boyfriends, is unable to hold her own against her family's disapproval, and

the narrator watches with helpless fascination as her small but very real tragedy is played out against the background of the Second World War. *The marvels and wonders of the Thousand and one nights* Duke University Press
Fair trade is a fast-growing alternative market intended to bring better prices and greater social justice to small farmers around the world. But what does a fair-trade label signify? This vivid study of coffee farmers in Mexico offers the first

thorough investigation of the social, economic, and environmental benefits of fair trade. Based on extensive research in Zapotec indigenous communities in Oaxaca, *Brewing Justice* follows the members of the cooperative Michiza, whose organic coffee is sold on the international fair-trade market, and compares them to conventional farming families in the same region. The book carries readers into the lives of coffee-producer households and

communities, offering a nuanced analysis of fair trade's effects on everyday life and the limits of its impact. *Brewing Justice* paints a clear picture of the dynamics of the fair-trade market and its relationship to the global economy. Drawing on interviews with dozens of fair-trade leaders, the book also explores the movement's fraught politics, especially the challenges posed by rapid growth and the increased role of transnational corporations. It concludes

with recommendations to strengthen and protect the integrity of fair trade. This updated edition includes a substantial new chapter that assesses recent developments in both coffee-growing communities and movement politics, offering a guide to navigating the shifting landscape of fair-trade consumption.

The Greek statesman Polybius (c.200-118 BC) wrote his account of the relentless growth of the Roman Empire in order to help his fellow countrymen understand how their world came to be dominated by Rome. Opening with the Punic War in 264 BC, he vividly records the critical stages

of Roman expansion: its campaigns throughout the Mediterranean, the temporary setbacks inflicted by Hannibal and the final destruction of Carthage. An active participant of the politics of his time as well as a friend of many prominent Roman citizens, Polybius drew on many eyewitness accounts in writing this cornerstone work of history.

A fierce indictment of colonialism, Max Havelaar

is a masterpiece of Dutch literature based on the author's own experience as an administrator in the Dutch East Indies in the 1850s. A brilliantly inventive fiction that is also a work of burning political outrage, Max Havelaar tells the story of a renegade Dutch colonial administrator's ultimately unavailing struggle to end the exploitation of the Indonesian peasantry. Havelaar's impassioned exposé is framed by the fatuous reflections of an Amsterdam coffee trader, Drystubble, into whose

hands it has fallen. Thus a tale of the jungles and villages of Indonesia is interknit with one of the houses and warehouses of bourgeois Amsterdam where the tidy profits from faraway brutality not only accrue but are counted as a sign of God's grace. Multatuli (meaning "I have suffered greatly") was the pen name of Eduard Douwes Dekker, and his novel caused a political storm when it came out in Holland. Max Havelaar, however, is as notable for its art as it is for its politics. Layering

not only different stories but different ways of writing—including plays, poems, lists, letters, and a wild accumulation of notes—to furious, hilarious, and disconcerting effect, this masterpiece of Dutch literature confronts the fixities of power with the protean and subversive energy of the imagination. *Max Havelaar* Library of Alexandria

Max Havelaar Penguin The remarkable story of how a consul and his allies helped save thousands of Jews from the Holocaust in one of the greatest rescue operations of the twentieth century. In May 1940, Jan Zwartendijk, the director of the Lithuanian branch of the Philips electrical-goods company, stepped into history when he accepted the honorary role of Dutch consul. In Kaunas, the capital of Lithuania, desperate Jewish refugees faced annihilation in the

Holocaust. That was when Zwartendijk, with the help of Chiune Sugihara, the consul for Japan, and the Dutch ambassador in Riga, Latvia — chose to break his country's diplomatic rules. He opened up a possible route to freedom through the ruse of issuing visas to the Dutch colony of Curaçao on the other side of the world. Thanks to these visas, and Sugihara's approval of onward passage, many Jews — up to 10,000 — were able to travel on the Trans-Siberian Express all

through Soviet Russia to Vladivostok, further to Japan, and onwards to China. Most of the Jews whom Zwartendijk helped escape survived the war, and they and their descendants settled in America, Canada, Australia, and other countries. Zwartendijk and Sugihara were true heroes, and yet they were both shunned by their own countries after the war, and their courageous, unstinting actions have remained relatively unknown. In *The Just*, renowned Dutch

author Jan Brokken wrests this heroic story from oblivion and traces the journeys of a number of the rescued Jews. This epic narrative shows how, even in life-threatening circumstances, some people make the right choice at the right time. It is a lesson in character and courage.

 "Extremely wide-ranging and well researched . . . In a tradition of protest literature rooted more in

William Blake than in Marx.” —Adam Gopnik, *The New Yorker* The epic story of how coffee connected and divided the modern world Coffee is an indispensable part of daily life for billions of people around the world. But few coffee drinkers know this story. It centers on the volcanic highlands of El Salvador, where James Hill, born in the slums of Manchester, England, founded one of

the world’s great coffee dynasties at the turn of the twentieth century. Adapting the innovations of the Industrial Revolution to plantation agriculture, Hill helped turn El Salvador into perhaps the most intensive monoculture in modern history—a place of extraordinary productivity, inequality, and violence. In the process, both El Salvador

and the United States earned the nickname “Coffeeland,” but for starkly different reasons, and with consequences that reach into the present. Provoking a reconsideration of what it means to be connected to faraway people and places, *Coffeeland* tells the hidden and surprising story of one of the most valuable commodities in the history of global capitalism.
