Cecilia and Massimo started with nothing more than their desire to have a business of their own in which they could

work together and honor the traditions of the place they call home. After almost thirty years, they've created something that has left its mark on them and on others--both locals and visitors from far away--people who share a passion for food, personal connection, and traditions. This is their story and more than fifty of the recipes from their restaurant, Osteria La Gramola, located in the Chianti area of Italy.

We're all just animals after all. Before the beekeeper arrived, the Crimson Quays was just a well-appointed tourist trap: a luxury travel resort replete with swimming pools, musical performances, and amusement park rides. However, the resort's crowning glory--the very feature that drew the beekeeper to the island in the first place--was the zoo. Although the beekeeper, a biologist by trade, was tasked with the construction of the zoo, he was rarely spotted at resort events. Instead, he spent his evenings chasing other zoological pursuits--specifically, he was attempting to crossbreed a new species of wolf that would thrive in the resort's arid climate. The beekeeper's odd behaviour went

mostly unnoticed... until the night the animals got out. Originally published in Globus Magazine as a serial comic, *Crimson Quays* was written by travel journalist Jonathan Bousfield and illustrated by celebrated comic artist Igor Haufbauer, creator of the Alcuin Society Award-winning *Mister Morgen*. In *Crimson Quays*, Bousfield and Haufbauer reveal a nightmarish tale of human manipulation gone very, very awry.

Along with the many benefits of leisure-class living comes obesity and its attendant ailments. In *The Warrior Diet*, Ori Hofmekler looks not forward but

backward for a solution—to the primal habits of early cultures such as nomads and hunter-gatherers, the Greeks, and the Romans. Based on survival science, this book proposes not ordinary dietary changes but rather a radical yet surprisingly simple lifestyle overhaul. Drawing on both scientific studies and historical data, Hofmekler argues that robust health and a lean, strong body can best be achieved by mimicking the classical warrior mode of cycling—working and eating sparingly (undereating) during the day and filling up at night. Specific elements from the Warrior Diet Nutritional Program (finding ideal fuel foods and food combinations to reduce body fat) to the Controlled Fatigue Training Program (promoting strength, speed, and resilience to fatigue

through special drills), literally reshape body and mind. Individual chapters cover warrior meals and recipes; sex drive, potency, and animal magnetism; as well as personalizing the diet for women. Featuring forewords by Fit for Life author Harvey Diamond and Fat That Kills author Dr. Udo Erasmus, *The Warrior Diet* shows readers weary of fad diets how to attain enduring vigor, explosive strength, a better appearance, and increased vitality and health.
