Spider's Web Templar
Originating in England in the mid 1950s,

Pop Art developed its full potential in the USA in the 1960s. It substitutes the everyday for the splendid; mass-produced articles are assigned the same importance as one-offs; the difference between high culture and popular culture is swept away. Media and advertising are among the preferred contents of Pop Art, which celebrates the consumer society in its own witty fashion. The enthusiasm generated by Pop Art since the first works were exhibited has never died down -- it is greater today than ever before. Book jacket.

Little Girls Pan Macmillan

"You either love Andrea Camilleri or you haven't read him yet. Each novel in this wholly addictive, entirely magical series, set in Sicily and starring a detective unlike any other in crime fiction, blasts the brain like a shot of pure oxygen. Aglow with local color, packed with flint-dry wit, as fresh and clean as Mediterranean seafood — altogether transporting. Long live Camilleri, and long live Montalbano." A.J. Finn, #1 New York Times bestselling author of *The Woman in the Window* Witty and entertaining, the Montalbano novels by Andrea Camilleri—a master of the Italian detective story—have become favorites of mystery fans everywhere. In this latest installment, an unidentified corpse is found near Vigàta, a town known for its soil rich with potter's clay. Meanwhile, a woman reports the disappearance of her husband, a Colombian man with Sicilian origins who turns out to be related to a local mobster. Then Inspector Montalbano remembers the story from the Bible—Judas's betrayal, the act of remorse, and the money for the potter's field, where those of unknown or foreign origin are to be buried—and slowly, through myriad betrayals, finds his way to the solution to

the crime.

Forever Weidenfeld & Nicolson

On The Concept of History is a politics & social sciences essay written by German philosopher and social science critic Walter Benjamin. *On The Concept of History* is one of Walter Benjamin's best known, and most controversial works. The politics & social sciences essay is composed of twenty numbered paragraphs in which Benjamin uses poetic and scientific analogies to present a critique of historicism. Walter Benjamin wrote the brief essay shortly before attempting to escape from Vichy France, where French collaborationist government officials were handing over Jewish refugees like Walter Benjamin to the Nazi Gestapo. Walter Benjamin completed *On The Concept of History* before fleeing to Spain where he unfortunately committed suicide. Benjamin's work is often required textbook reading in various subjects such as humanities, philosophy, and politics & social sciences.

She has never wielded a weapon or carried a badge, and yet, she has solved dozens of crimes. But it's been a while since Antonia left her attic in Madrid. The things she has lost are much more important to her than the things awaiting her outside. She also doesn't receive visitors. That's why she really, really doesn't like it when she hears unknown footsteps coming up the stairs. Whoever it is, Antonia is sure that they are coming to look for her. And she likes that even less . . . Praise for *Red Queen*: 'A Spanish spin on *The Girl with the Dragon Tattoo* . . .
