You aspire to lead with greater impact.

The problem is you're busy executing on today's demands. You know you have to carve out time from your day job to build your leadership skills, but it's easy to let immediate problems and old mind-sets get in the way. Herminia Ibarra—an expert on professional leadership and development and a renowned professor at INSEAD, a leading international business school—shows how managers and executives at all levels can step up to leadership by making small but crucial changes in their jobs, their networks, and themselves. In *Act Like a Leader, Think Like a Leader*, she offers advice to help you:

- Redefine your job in order to make more strategic contributions
- Diversify your network so that you connect to, and learn from, a bigger range of stakeholders
- Become more

playful with your self-concept, allowing your familiar—and possibly outdated—leadership style to evolve. Ibarra turns the usual “think first and then act” philosophy on its head by arguing that doing these three things will help you learn through action and will increase what she calls your *outsight*—the valuable external perspective you gain from direct experiences and experimentation. As opposed to *insight*, *outsight* will then help change the way you think as a leader: about what kind of work is important; how you should invest your time; why and which relationships matter in informing and supporting your leadership; and, ultimately, who you want to become. Packed with self-assessments and practical advice to help

define your most pressing leadership challenges, this book will help you devise a plan of action to become a better leader and move your career to the next level. It’s time to learn by doing.

Taking Charge of Your Career Cambridge University Press

"I would recommend this book for anyone who is anxious about interviews or who wants to improve their interview performance." Phoenix, May 2012 "In a tough market with strong competition for just a handful of roles, you need to be the best on the day. Only careful preparation and ensuring you match everything you say and do to the specific role, employer and even interviewer, will position you as a serious contender for the role. John once again combines a proven, thorough approach with

practical tips that will equip you with the skills, examples and confidence required to achieve interview success." Isabel Chadwick, Managing Director, Career Management Consultants Ltd "John's book is a great asset to anyone who fears the interview process. As well as some very practical and useful exercises, designed to help capture powerful information and to get you thinking, he gives a fascinating insight into the psychological processes, making it much easier to understand and put yourself into the shoes of the interviewer. John's style is very accessible, demonstrating his years of experience and translating it into an easy-to-read collection of hints, tips and guidance. I suspect a lot of interviewers will also want to use this book to help

them raise their game!" Kerwin Hack, Consultant Director, Fairplace Cedar "This book is an extremely comprehensive guide on how to succeed in job interviews. John takes you 'backstage' into the mind of the interviewer so you can understand what they are thinking and what they really want to know when asking a range of different questions. Getting a job interview into today's difficult employment market is a privilege. This manual will help you to be much better prepared so that your next job interview becomes a positive opportunity to show what you can really offer, not an ordeal to be feared. He covers everything from warm up questions to the tricky issue of salary." Simon Broomer, Managing Director,

CareerBalance "John Lees is the career professional's professional; the doyen of career experts. His books and advice have helped countless numbers of people to enjoy better, more fulfilling careers. This book is an essential read for anyone who is about to attend a job interview." Dr Harry Freedman, Career and Business Strategist, Hanover Executive "John gives consistently good, pragmatic advice and provides suggestions to help people make the most of themselves and the opportunities they get. Easy to read, relevant and straightforward, the book offers so much more than standard self-help books - it provides practical steps to get readers started and give them confidence to take ownership of their careers. A great resource to ensure

a head start in a competitive market." Denise Nesbitt, Senior Change Delivery Manager, Talent & Development, Lloyds Banking Group "John Lees' writing offers insight and knowledge which allows you to think in new ways and achieve changes you didn't think possible. In these difficult and challenging times, his books help you achieve your next career step." Laura Roberts, Chief Executive, NHS Manchester Why are you on the market right now? If our roles were reversed, what questions would you ask? Sell me this stapler! Tough questions like these can unnerve even the most confident jobseeker, proving that it's not always the best candidate who gets the job, it's the best interviewee. Whether a first-time jobseeker, career-changer, or returning after a break, Job Interviews:

Top Answers to Tough Questions is your indispensable toolkit. Now thoroughly revised and updated to reflect today's demanding job market, featuring: 225 of the most common interview questions A 'fast-track' preparation option if your interview is TOMORROW! More sample answers to challenging questions Insights into the employer mindset when vacancies are thin on the ground "This book is invaluable. Follow the guidelines and your chances improve beyond measure. You will be sharp, focused, and not only make the most of your own abilities, but also have a clear understanding of what you need to offer to employers. This moves you from the 'me' agenda to the 'we' agenda." Stuart Walkley, Director, Oakridge Training and Consulting "As a careers adviser, I often

find that clients know that preparation is the key to a successful interview but are unsure where to start. John Lees deals with this clearly and comprehensively. This book is based on real evidence gained from employers and this new edition has been comprehensively updated. I would recommend the book for anyone who is anxious about interviews and to people applying for any level of job, regardless of how much interview experience they may have." David Levinson, Careers Adviser, The University of Edinburgh
The Rules of the Hiring Game Have Changed--forever : Learn how to Position Yourself as a Top Candidate in Any Job Market--and Get Hired! McGraw-Hill Education (UK)
Peter Cappelli confronts the myth of the

skills gap and provides an actionable path forward to put people back to work. Even in a time of perilously high unemployment, companies contend that they cannot find the employees they need. Pointing to a skills gap, employers argue applicants are simply not qualified; schools aren't preparing students for jobs; the government isn't letting in enough high-skill immigrants; and even when the match is right, prospective employees won't accept jobs at the wages offered. In this powerful and fast-reading book, Peter Cappelli, Wharton management professor and director of Wharton's Center for Human Resources, debunks the arguments and exposes the real reasons good people can't get hired. Drawing on jobs data, anecdotes from all sides of the

employer-employee divide, and interviews with jobs professionals, he explores the paradoxical forces bearing down on the American workplace and lays out solutions that can help us break through what has become a crippling employer-employee stand-off. Among the questions he confronts: Is there really a skills gap? To what extent is the hiring process being held hostage by automated software that can crunch thousands of applications an hour? What kind of training could best bridge the gap between employer expectations and applicant realities, and who should foot the bill for it? Are schools really at fault? Named one of HR Magazine's Top 20 Most Influential Thinkers of 2011, Cappelli not only changes the way we think about hiring but points the way

forward to rev America's job engine again.

Few parts of the shores of old England present more beautiful and romantic scenery than is to be found on the coast

of Cornwall. There are deep bays, and bold headlands, and wild rocks, and lofty cliffs, and wooded heights, and bare downs, and yellow sands full of the most minute and delicate shells, so delicate that it is surprising how they could have existed in the rough and boisterous ocean, and been cast up whole from the depths below. In one of those beautiful bays, many years ago, a large party was collected, on a bright afternoon in the early part of autumn. Among the party were persons of all ages, but most of them were young, and all were apparently very busy. Some were engaged in tending a fire over which a pot was boiling, and others were collecting drift-wood thrown up close under the cliff, with which to feed it.

"John Lees is a purveyor of sound, no nonsense career advice which delivers results, whatever your age or status." Carol Lewis, Business Features Editor, The Times It doesn't take months to learn how to write a CV that works, but it does take a few hours. This book is designed to take you through that process quickly, taking some short cuts, encouraging your readers to say one simple word: "yes". Features: Step by step approach to building a CV from scratch Detailed advice on getting bullet points and the profile right Example CVs, including entry level and executive CVs Demystifying of CV formats and styles, including 'hybrid', competency-based and functional CVs Drawing on over 25 years' experience of training recruiters,

John Lees, author of the bestselling How To Get A Job You'll Love, is one of the UK's best known career strategists. In Knockout CV he shows you how to write CVs and cover letters that convey your strengths quickly and get you into the interview room. "A comprehensive and practical guide to building a relevant, evidence-based CV which will win the recruiter's attention. Looks afresh at the role of your CV, the pitfalls to avoid and shares invaluable recruiter insights." Liz Mason, Associate Director, Alumni Career Services, London Business School, UK "You write a CV for a purpose: to get a job. Knockout CV works backwards from the desired result, analysing each feature of the CV from the perspective of impact on the decision-maker. No frills, no diversions, simply full of practical

help." Shirley Anderson, HR Director, Talent and Reward, Pilkington Group Limited "This book is essential reading for anyone considering a career move or applying for another position. First impressions are so important and your CV really does have to stand out from all the rest. This is an excellent, practical guide which I believe will really make the difference to securing that interview." Christine Gaskell, Chair, Cheshire and Warrington Local Enterprise Partnership and former HR Director, Bentley Motors Ltd "John Lees leads you back to the basic document of so many job-hunting campaigns, and yet again opens your eyes to see the real underlying principles. His clear and authoritative voice brings life back into what is often seen as a routine activity - CV writing - yet is so

important in today's hyper-competitive job market. With his clear chapter objectives, insightful exercises (especially the 'CV data bank'), professional insights, and a healthy dose of humour, John Lees sets the standard for modern CV writing." Matthias Feist, Head of Careers & Business Relations at Regent's University London, UK and Chair of PlaceNet: Placements in Industry Network "John has produced an honest and authentic approach to creating a winning CV which speaks to your strengths, and will make the difference to getting noticed and in front of the selection panel. Yes, you can expect to work some, however John's advice plus your investment in time will produce a great result with the critical bonus of mental and emotional clarity

over your next (right) career move." Angella Clarke-Jervoise, Big 4 Partner Recruiter and International Career Coach
Praise for John Lees' careers books: "When I read John's writing, two things happen. First, I feel as if he's standing right there, personally advising me. And second, I always come away thinking over the issue in a new way. It's a rare, but very useful, gift." Sarah Green, Associate Editor, Harvard Business Review "I know first-hand the joy that being in the right career can bring and I commend John Lees for his books and seminars which help other people do just that." Rosemary Conley CBE "John Lees is the Career Professional's professional; the doyen of careers experts. His books and advice have helped countless numbers of people to enjoy better, more

fulfilling careers." Dr Harry Freedman, Career and Business Strategist, Hanover Executive

From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication

coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society’s most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. “Clever and charismatic” (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and “a thought-provoking examination of our working lives” (Financial Times).

Everything you ever need to know about making it as a scientist. Despite your graduate education, brainpower, and technical prowess, your career in scientific research is far from assured. Permanent positions are scarce, science survival is rarely part of formal graduate training, and a good mentor is hard to find. In *A Ph.D. Is Not Enough!*, physicist Peter J. Feibelman lays out a rational path to a fulfilling long-term research career. He offers sound advice on selecting a thesis or postdoctoral adviser; choosing among research jobs in academia, government laboratories,

and industry; preparing for an employment interview; and defining a research program. The guidance offered in *A Ph.D. Is Not Enough!* will help you make your oral presentations more effective, your journal articles more compelling, and your grant proposals more successful. A classic guide for recent and soon-to-be graduates, *A Ph.D. Is Not Enough!* remains required reading for anyone on the threshold of a career in science. This new edition includes two new chapters and is revised and updated throughout to reflect how the revolution in electronic communication has transformed the field.

What does it mean to carry out "good work"? What strategies allow people to maintain moral and ethical standards at a time when market forces have unprecedented power and work life is being radically altered by technological innovation? These questions lie at the heart of this eagerly awaited new book. Focusing on genetics and journalism-two fields that generate and manipulate information and thus affect our lives in myriad ways-the authors show how in their quest to build meaningful careers

successful professionals exhibit "humane creativity," high-level performance coupled with social responsibility. Over the last five years the authors have interviewed over 100 people in each field who are engaged in cutting-edge work, probing their goals and visions, their obstacles and fears, and how they pass on their most cherished practices and values. They found sharp contrasts between the two fields. Until now, geneticists' values have not been seriously challenged by the demands of their work world, while journalists are deeply disillusioned by the conflict between commerce and ethics. The dilemmas these professionals face and the strategies they choose in their search for a moral compass offer valuable guidance on how all persons

can transform their professions and their lives. Enlivened with stories of real people facing hard decisions, Good Work

offers powerful insight into one of the most important issues of our time and, indeed, into the future course of science, technology, and communication.
