This is a must have essential piece of kit for any security professional operating in the industry. A well laid out format which has been structured and written with a no nonsense view. It lays out in simple terms what you require to operate as well as listing the top-tips that can only be discovered by operating in the industry for a number of years. This book is an excellent piece of equipment which will be part of my security kit for many years to come. A big thanks must go to the author for supplying those of us operating in the industry with an excellent reference manual. Ok, the book does exactly what it's designed to do, it's basically a quick reference for CP operators both new to the world of CP or experienced, a lot of us don't work CP all the time and it's handy to have when you need to double check something. Exactly as described, a no nonsense guide. Extremely good tips, essential checklists. To someone like myself with limited knowledge of this industry it is excellent reference material.

Many times when people hear the word "bodyguard," a certain image forms in their mind. Unfortunately, this image is too often complicated by stereotypes of muscular men in sunglasses and fancy suits shooting handguns as they jump sideways over a car in slow motion. I have never seen this in my experience as a bodyguard. I have seen many years of professionals working day in and day out, committed to protecting innocent people from people who want to harm them. I have witnessed professionalism that has humbled me and inspired me. I had been fortunate enough to work with professionals who I watched be the first to arrive, work all day in stressful environments, and be the last to leave. They are the professionals who work all of the time and are never seen or heard from on camera. They are silent and remain behind the scenes. Every day, more and more threats emerge in our world. Everything from terrorism to rising crime rates continues to make our world more and more dangerous. One thing is for sure, the need for protection and personal security is not going away. If you are interested in the industry of bodyguard work or executive protection, or even if you are already working in this field, this book is a great resource. It lists 101 principles that have been learned by someone who has been working in the private security and executive protection sector for over ten years. Each guide is born out of personal experience working in the field. About the Expert Cody Blocker C.P.S. is a Certified Protection Specialist and an honor graduate of the esteemed Executive Security International. Beyond the Bodyguard Universal-Publishers

An innovative guide to applying the strategies of a bodyguard to create a Buddhist “security plan” for protecting ourselves from suffering • Presents the unique concept of the “bodyguard” and its protection tactics as a metaphor for explaining and implementing Buddhist teachings • Recasts the Four Noble Truths as the Four Noble Tactical Truths, the Eightfold Path as the Eight Tactics Plan, and the notion of Interbeing in the Buddhist world as the Tactics of Interdepending • Offers a new, modern understanding for the new generation of Buddhist practitioners intrigued by a more Western take on Buddhism Drawing from his extensive experience as a professional protection agent, Jeff Eisenberg uses the tactics and strategies that a bodyguard employs in protecting a client from a threat as a blueprint for creating a Buddhist “security plan.” This plan provides the practical tools to protect one’s self from the threat of suffering in our world. Using the metaphor of being the Buddha’s bodyguard to understand the Buddhist teachings, the book details how to protect our inner “Buddha nature” and secure our mental and emotional wellbeing. We all have the chance to train ourselves to be more proactive in our own safety and avoid becoming a victim. And if we are victimized, this training will prepare us to take appropriate actions that will aid in our ability to survive with much less injury and trauma. As the author affirms: “It is vital to realize that a physical altercation is the last thing that happens in a chain of events. And while we must never blame the victim, our safety is our responsibility. Many situations can be avoided, or

their severity greatly lessened, if we pay attention during the chain of events that leads up to it and respond appropriately.” While this book is not about personal protection per se, it applies personal protection theory and specific tactics utilized by bodyguards to Buddhist practice, laying out strategies to protect our inner Buddha from attack. Thus the Four Noble Truths are applied to the concept of “threat” in the form of Four Noble Tactical Truths, the Eight Tactics Plan echoes the Eightfold Path, and the Tactics of Interdepending embrace the notion of Interbeing in the Buddhist world. With “paying attention” and mindfulness being key concepts of both a bodyguard’s profession and Buddhist practice, this pioneering book speaks to Buddhists and non-Buddhists alike.
