The ideal alternative to longer anthologies, this brief, affordable, and diverse collection of fiction, poetry, and drama provides a concise yet comprehensive

introduction to the study of literature. Why do you need this new edition?

New short stories include selections by authors not represented in earlier editions of this anthology, including Hisaye

Yamamoto, Tim O'Brien, and Sherman Alexie, as well as new offerings from previously anthologized authors. A wide range of new poems includes works by poets like Joseph Harrison, Allison Joseph, Sophie Hannah, and Emily Moore, as well as Iraq veteran Brian Turner—a 21st-century soldier-poet.

New dramas by Milcha Sanchez-Scott and Arlene Hutton reflect current American concerns (immigration, feminism), and new selections by previously anthologized dramatists offer echoes of today's politics

(Sophocles' *Antigone*), an adaptation by Arthur Miller (Ibsen's *An Enemy of the People*), and a classic from one of America's most admired playwrights, August

Wilson (*The Piano Lesson*).

The Leafly Guide to Cannabis HarperCollins

This book addresses sixteen different reform proposals that are urgently needed to correct the fault lines in the international tax system as it exists today, and which deprive both developing and developed countries of critical tax resources. It offers clear and concrete ideas on how the reforms can be achieved and why they are important for a more just and equitable global system to prevail. The key to reducing the tax gap and consequent human rights deficit in poor countries is global financial transparency. Such transparency is essential to curbing illicit financial flows that drain less developed countries of capital and tax revenues, and are an impediment to sustainable development.

A major break-through for financial transparency is now within reach. The policy reforms outlined in this book not only advance tax justice but also protect human rights by curtailing illegal activity and making available more resources for development. While the reforms are realistic they require both political and an informed and engaged civil society that can put pressure on governments and policy makers to act.
