Features of both application systems include the following: Product conveying speed 75 ft/min. Accommodates product up to 1¼" thick. Includes two working heads and one parts head. System is expandable up to four heads Lot #12: 3M / Straub 30" Tape Application System w/ Two 2 ... Determining the application rate of drip systems. The variables determining the application rate of drip systems are: 1. bed width, 2. number of drip lines per bed, and 3. flowrate of the drip tape. The flow rate of the tape (also referred to as the discharge rate) corresponds to a specific pressure, usually 8 or 10 pounds per square inch (psi). How to estimate the application rate of drip and sprinkler ... (New York State Teachers' Retirement System is considered as "other credited service" if purchased under Chapter 646.) You may be entitled to receive up to five (5) years of credited service for military service provided you were a member of a city retirement system at the time you entered military service and you immediately returned to ... Tier 2 - Credited Service - New York City Police Pension Fund Rivulis T-Tape is also available with Rivulis X-Pell in selected regions, the world's first insect repellent drip tape. "T-Tape gives us maximum flexibility of product choice.

We use 15 cm emitter spacing as it provides the most effective wetting pattern, leading to better crop uniformity and yields.” David Moon, Onion Farmer, Australia. T-Tape & T-tapes Drip Tape - Rivulis Choose these tape dispensers for occasional use. All have a wipe-down flap to smooth tape to the package's surface. Use with packaging tape.. Dispensers with an adjustable brake allow you to control tension for tighter box closure.. Dispensers with a retractable blade prevent accidental cuts because the blade stays retracted until you apply pressure to the wipe-down flap.
