Not just another book on leadership teams For school teams to succeed, they need leadership, independence, meaningful collaboration, and a shared conviction that they have real power to enact actual change. Educators know this, but they often lack an inquiry process that creates a community of learning leaders that is capable of deep collective impact on student learning and wellbeing. In this research-based, hands-on guidebook, school leadership coach Peter DeWitt introduces eight key drivers to integrating teacher and leader efficacy (mindset, well-being, context beliefs, working conditions, professional learning, organizational commitment, skills, and confidence) and harnesses it with a process to help you focus on the nuances of instruction and teaming to develop powerful collective leader efficacy. Readers will find: Activities and strategies designed to build collective efficacy in instructional teams and foster leadership and

interdependence among teachers Theories of action to focus team efforts and how to create your own Tools, reflection prompts, and guiding questions to help you define your desired outcomes and the steps necessary to get there With this book and the research within it, your instructional leadership team will develop a learner's mindset, a collective commitment to improvement, and a shared process for inquiry and continual growth so you can nurture greater impact together.

Now in its ninety-third year of publication, this standard Canadian reference source contains the most comprehensive and authoritative biographical information on notable living Canadians. Those listed are carefully selected because of the positions they hold in Canadian society, or because of the contribution they have made to life in Canada. The volume is updated annually to ensure accuracy, and more than 1,000 new entries are added each year to keep current with developing trends and issues in Canadian society. Included are outstanding Canadians from all walks of life: politics, media, academia, business, sports and the arts, from every area of human activity. Each entry details birth date and place, education, family, career history, memberships, creative works, honours and awards, and full addresses. Indispensable to researchers, students, media, business, government and schools, Canadian Who's Who is an invaluable source of general knowledge. The

complete text of Canadian Who's Who is also available on CD-ROM, in a comprehensively indexed and fully searchable format. Search 'astronaut' or 'entrepreneur of the year,' 'aboriginal achievement award' and 'Order of Canada' and discover a wealth of information. [A Description of the Money Market](#) Good Press Longlisted for the National Book Award New York Times Bestseller A former Wall Street quant sounds an alarm on the mathematical models that pervade modern life -- and threaten to rip apart our social fabric We live in the age of the algorithm. Increasingly, the decisions that affect our lives--where we go to school, whether we get a car loan, how much we pay for health insurance--are being made not by humans, but by mathematical models. In theory, this should lead to greater fairness: Everyone is judged according to the same rules, and bias is eliminated. But as Cathy O'Neil reveals in this urgent and necessary book, the opposite is true. The models being used today are opaque, unregulated, and uncontestable, even when they're wrong. Most troubling, they reinforce discrimination: If a poor student can't get a loan because a lending model deems him too risky (by virtue of his zip code), he's then cut off from the kind of education that could pull him out of poverty, and a vicious spiral ensues. Models are propping up the lucky and punishing the downtrodden, creating a "toxic cocktail for democracy." Welcome to the dark side of Big Data. Tracing the arc of a person's life, O'Neil exposes the black box models that shape our future, both as individuals and as a society. These "weapons of math destruction" score teachers and students, sort r sum s, grant (or deny) loans, evaluate workers, target voters, set parole, and monitor our health. O'Neil calls on modelers to take more responsibility for their algorithms and on policy makers to regulate their use. But in the end, it's up to us to become more savvy about the models that govern our lives. This important book empowers us to ask the tough questions, uncover the truth, and demand change. -- Longlist for National Book Award (Non-Fiction) -- Goodreads, semi-

The 10th anniversary edition, with new chapters on the crash, Chimerica, and cryptocurrency "[An] excellent, just in time guide to the history of finance and financial crisis." —The Washington Post "Fascinating." —Fareed Zakaria, Newsweek In this updated edition, Niall Ferguson brings his classic financial history of the world up to the present day, tackling the populist backlash that followed the 2008 crisis, the descent of "Chimerica" into a trade war, and the advent of cryptocurrencies, such as Bitcoin, with his signature clarity and expert lens. The Ascent of Money reveals finance as the backbone of history, casting a new light on familiar events: the Renaissance enabled by Italian foreign exchange dealers, the French Revolution traced back to a stock market bubble, the 2008 crisis traced from America's bankruptcy capital, Memphis, to China's boomtown, Chongqing. We may resent the plutocrats of Wall Street but, as Ferguson argues, the evolution of finance has rivaled the importance of any technological innovation in the rise of civilization. Indeed, to study the ascent and descent of money is to study the rise and fall of Western power itself.

Understanding the issues and the challenges faced daily by school leaders takes on a significant role when creating, managing, and sustaining high expectations and performance. With limited resources available on this industry specific topic, Cameron Curry has created a user-friendly guide to help emerging or seasoned school leaders focus on five key elements for school success.

**Charter School Leadership**

Plan your path to leadership with insight from real women at the top In Real Women, Real Leadership, twenty-four women leaders describe their personal journeys to the top, providing deep insight and a fascinating perspective on "making it" as a woman in the male-dominated business

environment. They discuss their experiences and offer guidance on topics such as balancing family and career, building alliances, mentoring and being mentored, and overcoming obstacles in the business world which is still dominated by men in the senior levels of management. Drawn from a range of industries including higher education, technology, law, the military, politics, the media, and more, these stories provide the details that every ambitious woman needs to know. You'll learn which skills, attributes, and relationships served these women best, how they overcame the obstacles thrown into their paths, and the people they credit as instrumental along the way. A self-assessment chapter helps you discover your own leadership attributes, and determine which skills you need to acquire as you formulate your own personal roadmap to the top. There are many books about women who have been excellent leaders, but Real Women, Real Leadership provides the personal, relatable testimonials from women who have navigated the opportunities and pitfalls of the business world. Each story sheds light on women's unique leadership attributes, and provides guidance for professional women charting their own professional advancement. Learn from women leaders in a diverse range of industries Discover the leadership attributes that make the biggest impact Gain insight into work/life balance, mentors, relationships, and more Discover your leadership strengths and develop a plan forward Studies have shown that companies with three or more women board members dramatically outperform the competition in returns on equity, sales, and invested capital yet women only claim a tiny percentage of boardroom seats and top executive positions. Why? And why, when they do achieve leadership positions, do women tend to make such outstanding leaders? Real Women, Real Leadership tackles these questions and more from an in-the-trenches perspective to help you become the leader you want to be.
