Virus classificationBiology Viruses And Prokaryotes
Chapter Bacteria: These single-celled organisms are prokaryotes.
Bacteria are living things—they contain DNA, use nutrients and
energy, grow and reproduce, and respond to their environment. A
virus: is an infectious particle made only of a piece of DNA or RNA
surrounded by a protein coat. A viroid: is a piece of single-
stranded RNA without a protein ...Chapter 3&18 Cells, Viruses, &
