Horary astrology is a fascinating and exacting technique, and here is the perfect book to hone your skills. Author Petros Eleftheriadis presents over fifty valid charts taken from his client files which demonstrate, in clear steps, how to reach an answer. He stresses the importance of starting with the correct question; for instance, he doesn't accept

'Should I?' questions, saying 'Astrology charts cannot possibly show something that will NEVER materialize, something that will never become reality, so they cannot show how your life would be, had you made another decision.' So rather than asking whether you will win the lottery if you buy a ticket, the correct action would be to buy the ticket then ask if you will win. Ideal for students and professionals with some knowledge of horary astrology.

Chart Shapes The Wessex Astrologer Few understand the power of Transiting Lunar Nodes - yet all of us experience the impact of these transits in our lives. Planets transiting through the Zodiac form aspects to our personal charts, and happenings occur. How or why you feel a certain way about a situation is indicated by the transits of the Lunar Nodes.

Author Diane Ronngren introduces you to this unique study and helps you explore the energy of the transiting Lunar Nodes in your life.

Do you know the Bowl from the Basket shape in a natal chart? Did you realise

just how much information you can gain from examining the actual pattern of the planets in the chart? No matter how knowledgeable we are about astrology, natal chart analysis can still present a challenge - however, understanding chart shapes could make all the difference. In this fascinating study, Wanda Sellar pinpoints an effective route into the astrological labyrinth using a concept which was pioneered by Marc Edmund Jones and then followed by Robert Jansky in the last century. Each chart shape has its own central theme: a Locomotive shape has its starting point with the leading planet which may be in any house or sign, a See-Saw shape begins with the core opposition, a Wedge with the confining trine. Not all charts fit neatly into one of the idealised

patterns, and those that take a little coaxing are still a revelation in interpretation. Sometimes it is the planet that stands outside the idealised shape that reveals the core of the personality. This treasure trove includes a multitude of worked case histories, including Arnold Schwarzenegger, Mata Hari, George Blake, Bobby Fischer, Harrison Ford and Agatha Christie. This fascinating and accessible book is suitable for all levels.

Bringing together some of the most recognized and influential researchers and scientists in various space-related disciplines, Lunar Settlements addresses the many issues that surround the permanent human return to the Moon.

Numerous international contributors offer their insights into how certain technological, physiological, and psychological challenges must be met to make permanent lunar settlements possible. The book first looks to the past, covering the Apollo and Saturn legacies. In addition, former astronaut and U.S. Senator Harrison H. Schmitt discusses how to maintain deep space exploration and settlement. The book then discusses economic aspects, such as funding for lunar commerce, managing human resources, and commercial transportation logistics. After examining how cultural elements will fit into habitat design, the text explores the physiological, psychological, and ethical impact of living on a lunar settlement. It also describes the planning/technical

requirements of lunar habitation, the design of both manned and modular lunar bases, and the protection of lunar habitats against meteoroids. Focusing on lunar soil mechanics, the book concludes with discussions on lunar concrete, terraforming, and using greenhouses for agricultural purposes. Drawing from the lunar experiences of the six Apollo landing missions to the many American and Soviet robotic missions to current space activities and research, this volume summarizes the problems, prospects, and practicality of enduring lunar settlements. It reflects the key disciplines, including engineering, physics, architecture, psychology, biology, and anthropology, that will play significant roles in establishing these settlements.

- Offers an in-depth experience of alchemical transmutation to cleanse old parts of the psyche and clear space for the shift to 5D through 9D consciousness
- Reveals the astrological factors at play behind the multitude of crises hitting the world stage in 2018, 2019, and 2020, including the Covid-19 pandemic

Aquarian Age With the Age of Aquarius dawning, six friends connected by ancient wisdom, spiritual revelation, past lives, and sexual alchemy discover the connections between seemingly disconnected events--environmental collapse, schisms in the Catholic Church, the refugee crisis, political breakdown in the United States, the shift out of the age of oil to the high-tech economy, and the Covid-19 pandemic. The characters, as well as readers, experience moving out of fear-based consciousness to the higher dimensions. The story begins in Florence, Italy, at an art soirée in honor of Armando Pierleoni's visionary painting of Jesus and Mary Magdalene. In addition to the six friends--Armando, his photographer wife Jennifer, New York Times journalist Simon, his mystical wife

Sarah, Jungian analyst Lorenzo, and exotically beautiful and astrologically insightful Claudia--the dinner party also includes Alessandro de Medici, later revealed to be a master alchemist, and the Jesuit priest Father Giorgio Faccini, the Vatican archivist and a covert agent for the Church's secret agenda. As the Aquarian vibrations intensify, Claudia sees the astrological factors at play behind the multitude of crises hitting the world stage, and then Covid-19 hits Italy. In the rapidly escalating tension, the deepest fears and greatest joys of the characters' lives are revealed. Armando has a spiritual breakthrough and high initiation with Lorenzo in his tower, and the friends discover alchemical keys and the perennial wisdom--long suppressed by the Church--that will help humanity

transcend.
