This book provides critical insights into the many, often overlooked, challenges and societal issues that face contemporary black men, focusing in particular on the ways in which governing

societal expectations result in internal and external constraints on black male identity formation, sexuality and black 'masculine' expression. Presenting new interview and auto-ethnographic data, and drawing on an array of theoretical approaches methodologies, *Hyper Sexual, Hyper Masculine?* explores the formation of gendered and sexual identity in the lives of black men,

shedding light on the manner in which these are affected by class and social structure. It examines the intersecting oppressions of race, gender and class, while acknowledging and discussing the extent to which black men's social lives differ as a result of their varying degrees of cumulative disadvantage. A wide-ranging and empirically grounded exploration of the intersecting

roles of race, masculinity, and sexuality on the lives of black men, this volume will appeal to scholars across the social sciences with interests in race and ethnicity, gender and sexuality, social stratification and intersectionality.

In this finely written study of demonology and Christian spirituality in fourth- and fifth-century Egypt, David

Brakke examines how the conception of the monk as a holy and virtuous being was shaped by the combative encounter with demons.

Drawing on biographies of exceptional monks, collections of monastic sayings and stories, letters from ascetic teachers to their disciples, sermons, and community rules, Brakke crafts a compelling picture of the embattled religious celibate.

Including works from Welsh, Irish and Scottish Gaelic, Cornish, Breton and Manx, this Celtic Miscellany offers a rich blend of poetry and prose from the eighth to the nineteenth century, and provides a unique insight into the minds and literature of the Celtic people. It is a literature dominated by a deep sense of wonder, wild inventiveness and a profound

sense of the uncanny, in which the natural world and the power of the individual spirit are celebrated with astonishing imaginative force. Skifully arranged by theme, from the hero-tales of Cú Chulainn, Bardic poetry and elegies, to the sensitive and intimate writings of early Celtic Christianity, this anthology provides a fascinating insight into a deeply creative literary

tradition.

 Author Toni Morrison stressed the need to

analyze race in American literature by white authors by shifting focus “from the racial object to the racial subject.”
 Representations of whiteness in certain works by Asian American authors reveal what happens when the visual dynamics of ethnography are reversed, and those persons often considered as objects—Asian Americans, other minorities—are allowed to see and judge

those who so often objectify them. This study emphasizes social power structures, the aesthetics of whiteness and transformational identity politics. Works examined include Maxine Hong Kingston's *The Woman Warrior* (1976) and *China Men* (1980), and *The Fifth Book of Peace* (2003); Leonard Chang's *The Fruit 'N Food* (1996); and, Joy Kogawa's *Obasan* (1981).

A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought."—*Los Angeles Times* How can we make intelligent decisions about our increasingly technology-

driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan

examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence,

the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—*The Washington Post Book World* "Compelling."—*USA Today* "A clear vision of what good

science means and why it makes a difference. . . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—*The Sciences "Passionate."*—*San Francisco Examiner-Chronicle* **The Ancient Civilization on the Roof of the World** Harvard University Press Contends that negative stereotypes about African American men are created to a significant degree by U.S.

 Did you ever ask yourself whether you have lived before? Did you ask where or when? If you already believe in reincarnation, read this fascinating story from prehistoric Egypt about a previous life of the author that begins before birth and ends after death. This was the life of a priestess and pharaoh approx. 6000

years ago when Egypt was at its prime and the priesthood enlightened. It's an inspirational tale, and you cannot help wondering - why is our world not a better place? And if you don't believe in reincarnation - why not read the story and get to know a nearly Utopian society and ask yourself again: Is it really impossible that this did happen? And is it not possible that it may happen

again?
 Memories of Joan Grant's historical novels from past lives and Elisabeth Haich's spiritual classic: "Initiation" come back to life. Joan Grant was the first to develop her gift of "far memory" into a form of reincarnation therapy with her psychiatrist husband, a therapy which is now popular worldwide.

 Irony and humour have

always been used to counter frustration, despair and to expose double standards. In these ten sharply polished stories, Mandishona explores the dark comedy that lies just beneath the surface of tragedy in Zimbabwean society in the last decade. His perceptions leave few untouched: politicians, new farmers, exiles, stranded queues and inflation that renders the

currency worthless... Truth and morality are dispensable in a society where wealth is rewarded with respect, integrity marred by untruth, rumour displaces fact, and power is only interested in its own survival. Mandishona holds a mirror up to reality and without equivocation asks us to look at what is real: the likeness or the distortion and what it is we want to see. Black Demons

This book is based on the dynasty of Ishvanku 's rullar life story and the origin of the Ikshvaku dynasty along with the life story and struggle of Lord Rama and Goddess Sita. Here ,the author only considered the human

As Lord Rama was considered the greatest king of Ikshvaku dynasty, though there are many great kings who were born in this gynecology, but the way Rama followed his commitment and truthfulness, he became immortal on the earth and god-like futures. The Dark Prophecy of the Shadow
 Omni Publishers of NY
 Anthony Barthelemy considers the influence of English political, social, and theatrical history on the depiction of black characters on the English stage from 1589 to 1695. He shows that almost without exception blackness was associated

with treachery, evil, and ugliness. Barthelemy's central focus is on black characters that appeared in mimetic drama, but he also examines two nonmimetic subgenres: court masques and lord mayors' pageants. The most common black character was the villainous Moor. Known for his unbridled libido and criminal behavior, the Moor was, Barthelemy contends, the

progenitor of the stereotypical black in today's world. To account for the historical development of his character, Barthelemy provides an extended etymological study of the word Moor and a discussion of the received tradition that made blackness a signifier of evil and sin. In analyzing the theatrical origins of the Moor, Barthelemy discusses the medieval dramatic

tradition in England that portrayed the devil and the damned as black men. Variations of the stereotype, the honest Moor and the Moorish waiting woman, are also examined. In addition to black characters, Barthelemy considers native Americans and white North Africans because they were also called Moors. Analyzing know nonblack, non-Christian men

were characterized provides an opportunity to understand how important blackness was in the depiction of Africans. Two works, Peele's *The Battle of Alcazar* and Southerne's *Oroonoko*, frame Barthelemy's study, because they constitute important milestones in the dramatic representation of blacks. Peele's *Alcazar* put on the mimetic stage the first black Moor of any dramatic significance,

and Sotherne's Oroonoko was the first play to have an African slave as its hero. Among the other plays considered are Keker's Lust Dominion, Heywood's The Fair Maid of the West, Beaumont and Fletcher's The Knight of Malta, Marston's Wonder of Women, and Shakespeare's Titus Andronicus and Othello. In his provocative study of Othello, Barthelemy

shows how stereotypical attitudes about blacks are initially reversed and how Othello is eventually trapped into acting in accordance with the stereotype. The first work to study the depiction of blacks in the drama of this period in a complete cultural context, Black Face, Maligned Race will be informative for anyone interested in the stereotypical representation of blacks in

literature. The Representation of Blacks in English Drama from Shakespeare to Southerne Funstory In 1872, a woman known only as "An Earnest Englishwoman" published a letter titled "Are Women Animals?" in which she protested against the fact that women were not treated as fully human. In fact, their status was worse than that of animals: regulations prohibiting

cruelty against dogs, horses, and cattle were significantly more punitive than laws against cruelty to women. The Earnest Englishwoman's heartfelt cry was for women to "become-animal" in order to gain the status that they were denied on the grounds that they were not part of "mankind." In this fascinating account, Joanna Bourke addresses the profound question of

what it means to be "human" rather than "animal." How are people excluded from political personhood? How does one become entitled to rights? The distinction between the two concepts is a blurred line, permanently under construction. If the Earnest Englishwoman had been capable of looking 100 years into the future, she might have wondered about the human status of chimeras,

or the ethics of stem cell research. Political disclosures and scientific advances have been re-locating the human-animal border at an alarming speed. In this meticulously researched, illuminating book, Bourke explores the legacy of more than two centuries, and looks forward into what the future might hold for humans, women, and animals. *The Darkness Chronicles* Walter de

 Hailed as a "writer of subtlety and depth," Hilary Mantel turns her dark genius on the world of psychics in this smart, unsettling novel (Joyce Carol Oates) A paragon of efficiency,

Colette took the next natural step after finishing secretarial school by marrying a man who would do just fine. After a sobering, do-it-yourself divorce, Colette is at a loss for what to do next. Convinced that she is due an out-of-hand, life-affirming revelation, she strays into the realm of psychics and clairvoyants, hungry for a whisper to set her off in the right direction. At a psychic fair in Windsor

she meets the charismatic Alison. Alison, the daughter of a prostitute, beleaguered during her childhood by the pressures of her connection to the spiritual world, lives in a different kind of solitude. She cannot escape the dead who speak to her, least of all the constant presence of Morris, her low-life spiritual guide. An expansive presence onstage, Alison at once feels her bond with Colette,

inviting her to join her on the road as her personal assistant and companion. Troubles spiral out of control when the pair moves to a suburban wasteland in what was once the English countryside and take up with a spirit guide and his drowned therapist. It is not long before Alison's connection to the place beyond black threatens to uproot their lives forever. This is Hilary Mantel at her finest-

insightful, darkly comic, unorthodox, and thrilling to read.
