Twelve Years a Slave
Springer
Sidelined by an on the job injury, veteran paranormal investigator Maureen Keslyn reluctantly accepts an assignment at Shadow Valley Manor, an upscale retirement facility where someone--or something--is picking off residents and staff at a grisly clip. With her resources dwindling one death at a time and unnatural forces on the loose, Maureen's experience fighting the supernatural provides her only hope to destroy a clever and powerful evil before everybody in the manor--and the town--winds up dead. Together with a ragtag team that includes the local sheriff, the undertaker's daughter, and the facility cook whose knife skills in the kitchen could prove deadly out of it--Maureen is on a mission to bring rest to the weary, and peace to the dead...
"Paranormal thrills, a feisty middle-aged heroine, and a tantalizing mystery set in a creepy rest home . . . Clever, fast-paced, and fun." -- Lisa Alber, author of

The Licit Life of Capitalism is both an account of a specific capitalist project—U.S. oil companies working off the shores of Equatorial Guinea—and a sweeping theorization of more general forms and processes that facilitate diverse capitalist projects around the world. Hannah Appel draws on extensive fieldwork with managers and rig workers, lawyers and bureaucrats, the expat wives of American oil executives and the Equatoguinean women who work in their homes, to turn conventional critiques of capitalism on their head, arguing that market practices do not merely exacerbate inequality; they are made by it. People and places differentially valued by gender, race, and colonial histories are the terrain on which the rules of capitalist economy are built. Appel shows how the corporate form and the contract, offshore rigs and economic theory are the assemblages of liberalism and race, expertise and gender, technology and domesticity that enable the licit life of

capitalism—practices that are legally sanctioned, widely replicated, and ordinary, at the same time as they are messy, contested, and, arguably, indefensible.

Cars, Carriers of Regionalism? Haynes Service and Repair Manuals

Leibniz was above all things a metaphysician. That does not mean that his head was in the clouds, or that the particular sciences lacked interest for him. Not at all—he felt a lively concern for theological debate, he was a mathematician of the first rank, he made original contributions to physics, he gave a realistic attention to moral psychology. But he was incapable of looking at the objects of any special enquiry without seeing them as aspects or parts of one intelligible universe. He strove constantly after system, and the instrument on which his effort relied was the speculative reason. He embodied in an extreme form the spirit of his age. Nothing could be less like the spirit of ours. To many people now alive metaphysics means a body of wild and meaningless assertions resting on spurious

argument. A professor of metaphysics may nowadays be held to deal handsomely with the duties of his chair if he is prepared to handle metaphysical statements at all, though it be only for the purpose of getting rid of them, by showing them up as confused forms of something else. A chair in metaphysical philosophy becomes analogous to a chair in tropical diseases: what is taught from it is not the propagation but the cure.

Libya: The Struggle for Survival Springer Nature

A volume devoted to Giugiaro and Italdesign could hardly not be included in the Masterpieces of style series. Giugiaro is one of the most prestigious names in the history of automotive design, synonymous with iconic cars such as the Alfa Romeo Giulia Sprint GT and Alfetta, the Volkswagen Golf, the Audi 80, the Fiat Panda, Uno and Punto, the Lancia Delta, Thema and Prisma and the Maserati Bora, Ghibli and Merak, to mention but a few of the most successful designs to carry the Giugiaro name. Born in 1938 at Garesio in the province of Turin, Giugiaro honed his professional skills at

Bertone and then at Ghia before setting up on his own when founding Giugiaro Italdesign in 1968. Today the firm is as active as ever and has been responsible for concept cars such as the Caimano, the Iguana and the Canguro, all based on Alfa Romeo mechanicals, and the Asso di Picche and the Quadri on respectively Audi and BMW chassis. This monograph covers this long technical and stylistic history, drawing on a clear, comprehensive text and hundreds of photographs, many of which previously unpublished. The series, includes books on Zagato (2017) Touring (2017), Pininfarina (2018) and, to be published soon, Bertone, Vignale and Ghia.

This volume presents a

systematic and comprehensive analysis of the Spanish evidential semi-auxiliaries parecer and resultar, the modal constructions with amenazar and prometer, and the modal auxiliaries poder, deber and tener que. These verbs have never been considered together in a global approach that transcends the classical "verbal periphrases" model. The book proposes a cognitive-functional account of evidentiality and modality in Spanish with special attention to subjectivity and grounding. The theoretical reflection relies on empirical evidence of two sorts: synchronic and diachronic corpus-analyses alternate with tests that measure the semantic and pragmatic compatibility of the evidential and epistemic constructions with specific sentences. Following the assumption that linguistic forms are determined by their meaning, the array of constructions that characterizes the different verbs justifies their grouping in three pairs of (semi-)auxiliaries: parecer vs resultar, amenazar vs prometer and poder vs deber/tener que. The distributional differences observed in the corpus

are further shown to correlate with different degrees of grammaticalization. Primarily intended for scholars working in the field of Spanish functional linguistics, the monograph is also relevant for grammaticalization studies and for cognitive-semantic research at large. Given its combined theoretical and applied character, the volume is also of interest to anyone concerned with syntactic processes, lexical semantics or the wider area of discourse analysis and pragmatics.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt
