For years, Connor and others in the colony have unraveled the mysteries of New Earth and the global catastrophes that nearly destroyed its previous inhabitants. Their work led to the discovery of other worlds beyond the known universe. It became clear that many of those worlds had been attacked by an interdimensional invader that left untold amounts of manipulation, hardship, and annihilation in its wake. It's only a matter of time before the colony becomes the next target. When a trusted ally requests Connor's help to investigate claims of new widespread invasions, he has no choice but to help. Connor believes that the only way to stop the invaders is to find their homeworld, but its location is a closely guarded secret. Many civilizations sought to discover the invader's homeworld and none have succeeded. Time is running out for the colony, and Connor and a team of CDF soldiers may be the only thing that stands in the between and annihilation. Invasion is the eleventh book in the bestselling military science fiction series, First Colony. Read the eleventh book of this epic today!

A mission gone wrong. Innocent lives have been lost. Escaping wrongful imprisonment wasn't something Connor had in mind, but being put into stasis aboard Earth's first interstellar colony ship was something he couldn't have prepared for. For three hundred thousand colonists, the new colony brings the promise of a fresh start...a second chance. Connor might be the wrong man for the colony, but he's the right man to see that it survives what's coming. A new world with new challenges, but the mission has changed. If you loved Old Man's War and Ender's Game, you'll love First Colony - Genesis, a new military science fiction series.

Exploring New Earth should be a thrilling undertaking. Instead, the more the colonists learn about the planet, the more alarmed they become. Alien ruins hint at a species who fought great wars among themselves and disappeared centuries ago. When Connor Gates discovers a hidden bunker, he finds something he never expected. Everything the colonists have learned about New Earth

He's trapped in a ruined starship full of monsters. But every section he fixes will help him turn the tide. Jasper Cloud has been torn from a dystopian Earth and thrust into a mighty but ruined alien starship, where deranged and mutated creatures haunt the darkened corridors. They've consumed all but one crewmember: the being serving as the ship's core, a young woman as badly damaged as the starship itself. They both should be as doomed as Jasper was back on Earth, but for one surprise: Jasper has the power to help repair the damaged sections of the mighty vessel. And every section he repairs also augments his own body. If he is quiet and careful, he can turn himself into a weapon capable of defeating the hungry horrors still prowling the ship's halls, and reactivate the most powerful spacecraft left in the universe. But if he fails, then the creatures will have a vessel of their own to visit and devour every populated planet left-Earth included. Cradle meets Dead Space.

Hold the line. After narrowly defeating the invading enemy fleet, there is evidence that the attack isn't over. Thousands have died and all that stands between human extinction and the invaders are the remnants of the colonial military. Connor must find a way to rally the colony using every scrap of ingenuity to stop the invaders. But will he succeed when he finds himself pitted against mankind's

ultimate enemy? This could be mankind's final hour . . . or its greatest victory.

They had seven years to prepare... Earth is lost. Seven years ago the New Earth colony received one final message from Earth...a warning. First, a global pandemic, then the emergence of a new species. A war for survival ravaged the Sol system. Now they are coming for the colony. Many colonists don't believe it, but Connor does. They must prepare. They must fight. But how can they survive something that killed every person back on Earth? If you loved Old Man's War and Ender's Game, you'll love First Colony - Nemesis, a new military science fiction series.

As the colony grapples with the realization that New Earth is not as uninhabited as they'd once thought, tensions between the colonial settlements rise to new heights, and the Colonial Defense Force finds itself caught in the middle. When Connor uncovers evidence of a militant colonial faction secretly exploiting the NEIS, he has to investigate. Connor learns that some of the colonial settlements have been holding back discoveries of their own. He'd thought the NEIS were a threat to the colony, but he was wrong. They all were, and the truth is beyond anything Connor could have imagined. Meanwhile, Colonel Sean Quinn's latest mission brings him off-world to investigate a previously discovered NEIS settlement. When all communications from home go silent, he must return to New Earth to investigate. Cut off from everything, Sean must lead the crew of a CDF warship against a mysterious foe. Sean must forge a path into the unknown if he's to have any hope of unraveling the mystery. Emergence is the sixth book in the best selling First Colony military space opera series.

A fascinating account of Russia's famous dissident and the politics he embodies. Who is Alexei Navalny? Poisoned in August 2020 and transported to Germany for treatment, the politician returned to Russia in January 2021 in the full glare of the world media. His immediate detention at passport control set the stage for an explosive showdown with Vladimir Putin. But Navalny means very different things to different people. To some, he is a democratic hero. To others, he is betraying the Motherland. To others still, he is a dangerous nationalist. This book explores the many dimensions of Navalny's political life, from his pioneering anti-corruption investigations to his ideas and leadership of a political movement. It also looks at how his activities and the Kremlin's strategies have shaped one another. Navalny makes sense of this divisive character, revealing the contradictions of a man who is the second most important political figure in Russia—even when behind bars. In order to understand modern Russia, you need to understand Alexei Navalny.

By the summer of 1944 it was clear that Japan's defeat was inevitable, but how the drive to victory would be achieved remained unclear. The ensuing drama—that ended in Japan's utter devastation—was acted out across the vast theater of Asia in massive clashes between army, air, and naval forces. In recounting these extraordinary events, Max Hastings draws incisive portraits of MacArthur, Mao, Roosevelt, Churchill, Stalin, and other key figures of the war in the East. But he is

equally adept in his portrayals of the ordinary soldiers and sailors caught in the bloodiest of campaigns. With its piercing and convincing analysis, *Retribution* is a brilliant telling of an epic conflict from a master military historian at the height of his powers.

Quinton Aldren thought he could leave his past behind him . . . He was wrong. First came the development of a Personality Matrix Construct—PMC, transferring human consciousness into a machine. It changed the galaxy and the way wars were fought. Then something went wrong with PMCs and the Federation Wars toppled the galactic order. PMCs became a menace to be hunted and exterminated. Long after the Federation Wars, the galaxy limps on. Spacers carve out an existence upon the bones of the old worlds, but things are about to change. . .something has begun broadcasting signals to reactivate PMCs that were stored in secret. Quinton Aldren is a PMC. His consciousness was uploaded and stored over a century ago, before the Federation Wars. All Quinton wants is to leave his past behind, but the broadcasts keep occurring. More PMCs are coming online, and not all of them are entirely stable. Federation War machines are on the hunt for them, and they don't care who gets in their way. *Acheron Salvation* is a fast-paced science fiction novel in the classic space opera and military sci-fi traditions, by Best Selling Author Ken Lozito.
