After Anna Minotaur Books

Parigi, un appartamento senza inquilini nel centro della città, silenzioso, troppo perfetto per non nascondere misteri. Madeline, una giovane poliziotta di Londra, lo prende in affitto per cercare un po' di riposo, dopo una serie di casi non risolti e la crisi della sua storia d'amore. Per un errore tecnico, nella stessa casa arriva anche Gaspard, venuto a Parigi per isolarsi e scrivere in tranquillità la sua nuova opera teatrale. Queste due anime solitarie e irrequiete sono così costrette a vivere assieme per qualche giorno. L'appartamento era di proprietà del celebre pittore Sean Lorenz che lo usava anche come studio, e in quelle stanze si respira ancora la sua passione per i colori e per la luce. Distrutto dall'assassinio del giovane figlio, Lorenz è morto l'anno precedente l'arrivo dei due inquilini, lasciando in eredità tre dipinti, che tuttavia risultano oggi scomparsi. Affascinati dal suo genio e colpiti dai molti misteri che avvolgono la sua vita e, soprattutto, la sua morte, Madeline e Gaspard decidono di unire le forze per ritrovare le opere dell'artista. Ma per

arrivare a scoprire il segreto che si nasconde dietro l'enigmatica figura di Sean Lorenz, Madeline e Gaspard dovranno affrontare i loro demoni in un'indagine che li cambierà per sempre. Guillaume Musso, lo scrittore francese più amato, firma, dopo La ragazza di Brooklyn, un nuovo thriller, travolgente e ipnotico. Un tuffo vertiginoso nel misterioso mondo della creazione artistica e dei fantasmi che la animano.

A haunting Russian tale about the environmental legacy of the Cold War. Yerzhan grows up in a remote part of Soviet Kazakhstan where atomic weapons are tested. As a young boy he falls in love with the neighbour's daughter and one evening, to impress her, he dives into a forbidden lake. The radioactive water changes Yerzhan. He will never grow into a man. While the girl he loves becomes a beautiful woman. Why Peirene chose to publish this book: 'Like a Grimm's fairy tale, this story transforms an innermost fear into an outward reality. We witness a prepubescent boy's secret terror of not growing up into a man. We also wander in a beautiful, fierce landscape unlike

any other we find in Western literature. And by the end of Yerzhan's tale we are awe-struck by our human resilience in the face of catastrophic, man-made, follies.' Meike Ziervogel 'A haunting and resonant fable.' Boyd Tonkin, Independent 'A tantalising mixture of magical and grim realism . . . a powerful study of alienation and environmental catastrophe.' David Mills, Sunday Times 'A poetic masterpiece, a novella of shocking legacies, alien beauty and blistering emotional intensity'. Pam Norfolk, Lancashire Evening Post 'A writer of immense poetic power.' Kapka Kassabova, Guardian Elizabeth Buchan, Daily Mail 'This superb novella . . . reads like a modern fairy-tale, full of a surreal yet mundane horror.' Lesley McDowell, Independent on Sunday 'Central Asian storytelling at its best.' Neuropsychiatric disorders such as schizophrenia, mood disorders, Alzheimer's disease, epilepsy, alcoholism, substance abuse and others are one of the most debilitating illnesses worldwide characterizing by the complexity of the causes, and lacking the laboratory tests that may promote diagnostic and prognostic procedures. Recent advances in neuroscience, genomic, genetic, proteomic and metabolomic knowledge and technologies have opened the way to searching biomarkers and endophenotypes, which may offer powerful and exciting opportunity to understand the etiology and the underlying pathophysiological mechanisms of neuropsychiatric disorders. The challenge now is to translate these advances into meaningful diagnostic and therapeutic advances. This book offers a broad synthesis of the current knowledge about diverse topics of the biomarker and endophenotype strategies in neuropsychiatry. The book is organized into four interconnected volumes: "Neuropsychological Endophenotypes and Biomarkers" (with overview of methodological issues of the biomarker and endophenotype approaches in neuropsychiatry and some technological advances), "Neuroanatomical and Neuroimaging Endophenotypes and Biomarkers", "Metabolic and Peripheral Biomarkers" and "Molecular Genetic and Genomic Markers". The contributors are internationally and nationally recognized researchers and experts from 16 countries. This four-volume handbook is intended for a broad spectrum of readers including neuroscientists, psychiatrists, neurologists, endocrinologists, pharmacologists, clinical psychologists, general practitioners, geriatricians, health care providers in the field of neurology and mental health interested in trends that have crystallized in the last decade, and trends that can be expected to further evolve in the coming years. It is hoped that this book will also be a useful resource for the teaching of psychiatry, neurology, psychology and mental health.

Multiple myeloma is currently still an incurable disease, but during the past decade knowledge of its molecular pathogenesis has increased rapidly. This has led to remarkable progress in both diagnosis and therapy, including in particular the approval of novel and first-in-class drugs such as thalidomide, bortezomib, and lenalidomide. This book, written by internationally acknowledged experts, covers a wide range of topics relating to multiple myeloma, including history, epidemiology, pathophysiology, clinical features, staging, and prognostic systems. The principal focus, however, is on therapy, with detailed information on the various promising treatment options which give hope that this cancer will be transformed into a chronic disease or even become curable. Individualized therapy and the variety of supportive treatment options, as described in this volume, will help in achieving this goal, as well as in reducing adverse events and improving quality of life.

Transhumance is a form of pastoralism that has been practised around the world since animals were first domesticated. Such seasonal movements have formed an important aspect of many European farming systems for several thousand years, although they have declined markedly since the nineteenth century. Ethnographers and geographers have long been involved in recording transhumant practices, and in the last two decades archaeologists have started to add a new material dimension to the subject. This volume brings together recent advances in the study of European transhumance during historical times, from Sweden to Spain, Romania to Ireland, and beyond that even Newfoundland. While the focus is on the archaeology of seasonal sites used by shepherds and cowherds, the contributions exhibit a high degree of interdisciplinarity. Documentary, cartographic, ethnographic and palaeoecological evidence all play a part in the examination of seasonal movement and settlement in medieval and post-medieval landscapes. Notwithstanding the obvious diversity across Europe in terms of livestock, distances travelled and socio-economic context, an extended introduction to the volume shows that cross-cutting themes

are now emerging, including mobility, gendered herding, collective land-use, the agency of non-elite people and competition for grazing and markets. The book will appeal not only to archaeologists, but to historians, geographers, ethnographers, palaeoecologists and anyone interested in rural lifeways across Europe.

A gripping literary thriller from an exciting new voice in fiction Hailed as 'one to watch' by the UK's Telegraph, Sam Taylor is one of the most imaginative and innovative young writers at work today. With *The Amnesiac*, his United States debut, he incorporates a murder mystery and a forgotten manuscript into an exhilarating and intelligent novel. When twenty-nine-year-old James Purdew returns to England from his home in Amsterdam, it is to discover what happened during three earlier years of his life that he cannot recall. What he finds, in an old house with a tragic history, is a nineteenth-century manuscript that begins to seem less and less like a work of fiction-and more like the key to his own lost past. Memory and amnesia, fiction and reality, destiny and randomness, heaven and hell-all converge to form an engrossing gothic story that is sure to appeal to fans of Carlos Ruiz Zafon's *The Shadow of the Wind*.

This is the first complete edition and the first English translation of one of the most fascinating poems of the late Middle Ages. Machaut's narrative tells "the true story" of the aged poet's romance with a young admirer, constructed around the letters and lyric poems they exchanged, and offers unique insights into the making of poetry, music and manuscripts. Introductory essays survey Machaut's biography, reevaluate the autobiographical content of the poem, explore the literary context, and discuss the miniatures, which are reproduced within the text. Also included is a full listing of variant readings, a commentary on references to contemporary events and the writing of the poem, an outline chronology, indices of lyrics, and a table to convert line numbers between this edition and the incomplete 1875 edition of P. Paris.

From the New York Times–bestselling author of *Legends of the Fall*: “Harrison spins the common chaff of a road trip into gold” (Tim McNulty, *The Seattle Times*). “It used to be Cliff and Vivian and now it isn’t.” With these words, Jim Harrison begins a riotous, moving novel that sends a sixty-something man, divorced and robbed of his farm by a late-blooming real estate shark of an ex-wife, on a road trip across America. Cliff is armed with a childhood puzzle of the United States and a mission to rename all the states and state birds, the latter of which have been unjustly saddled with white men’s banal monikers up until now. His adventures take him through a whirlwind affair with a former student from his high-school-teacher days twenty-some years before, to a “snake farm” in Arizona owned by an old classmate, and to the high-octane existence of his son, a big-time movie producer who has just bought an apartment over the Presidio in San Francisco. Jim Harrison’s riotous and moving cross-country novel, *The English Major*, is the map of a man’s journey into, and out of, himself. It is vintage Harrison—reflective, big-picture American, and replete with wicked wit. “The English Major is to midlife crisis what *The Catcher in the Rye* is to adolescence.” —Susan Salter Reynolds, *Los Angeles Times*

In this deliciously noir novel from the creator of HBO's *Bored to Death*, idiosyncratic private detective Happy Doll embarks on a quest to help a dying friend in a sun-blinded Los Angeles as "quirky, edgy, charming, funny and serious" as its protagonist (Lee Child). Happy Doll is a charming, if occasionally inept, private detective living just one sheer cliff drop beneath the Hollywood sign with his beloved half-Chihuahua half-Terrier, George. A veteran of both the Navy and LAPD, Doll supplements his meager income as a P.I. by working through the night at a local Thai spa that offers its clients a number of special services. Armed with his sixteen-inch steel telescopic baton, biting dry humor, and just a bit of a hero complex, the ex-cop sets out to protect the women who work there from clients who have trouble understanding the word "no." Doll gets by just fine following his two basic rules: bark loudly and act first. But when things get out-of-hand with one particularly violent patron, even he finds himself wildly out of his depth, and then things

take an even more dangerous twist when an old friend from his days as a cop shows up at his door with a bullet in his gut. A Man Named Doll is more than just a fascinating introduction to one truly singular character, it is a highly addictive and completely unpredictable joyride through the

sensuous and violent streets of LA.
