 Parenting isn't easy. Showing up is. Your greatest impact begins right where you are. Now the bestselling authors of *The Whole-Brain Child* and *No-Drama Discipline* explain what this means over the course of childhood. "There is parenting magic in this book."—Michael Thompson, Ph.D., co-author of the New York Times bestselling classic *Raising Cain* One of the very best scientific predictors for how any child turns out—in terms of happiness, academic success, leadership skills, and meaningful relationships—is whether at least one adult in their life has consistently shown up for them. In an age of scheduling demands and digital distractions, showing up for your child might sound like a tall order. But as bestselling authors Daniel Siegel and Tina Payne Bryson reassuringly explain, it doesn't take a lot of time, energy, or money. Instead, showing up means offering a quality of presence. And it's simple to provide once you understand the four building blocks of a child's healthy development. Every child needs to feel what Siegel and Bryson call the Four S's: • Safe: We can't always insulate a child from injury or avoid doing something that leads to hurt feelings. But when we give a child a sense of safe harbor, she will be able to take the needed risks for growth and change. • Seen: Truly seeing a child means we pay attention to his emotions—both positive and negative—and strive to attune to what's happening in his mind beneath his behavior. • Soothed: Soothing isn't about providing a life of ease; it's about teaching your child how to cope when life gets hard, and showing him that you'll be there with him along the way. A

soothed child knows that he'll never have to suffer alone. • Secure: When a child knows she can count on you, time and again, to show up—when you reliably provide safety, focus on seeing her, and soothe her in times of need, she will trust in a feeling of secure attachment. And thrive! Based on the latest brain and attachment research, *The Power of Showing Up* shares stories, scripts, simple strategies, illustrations, and tips for honoring the Four S's effectively in all kinds of situations—when our kids are struggling or when they are enjoying success; when we are consoling, disciplining, or arguing with them; and even when we are apologizing for the times we don't show up for them. Demonstrating that mistakes and missteps are repairable and that it's never too late to mend broken trust, this book is a powerful guide to cultivating your child's healthy emotional landscape.

Every parent wants their child to flourish throughout their education, and few decisions are more difficult than choosing the right school. Selected by

Gabbittas' panel of experts, this new guide highlights the best in independent education, including a listing of the most exceptional schools, and chosen for their all-round academic excellence; opportunities; history, culture and ethos; prospects for school leavers; facilities and staff-to-student ratios. With its unique emphasis on the overall development of the student, taking into account a range of important criteria, The Gabbittas Top 500 Independent Schools offers a more genuine reflection of the best schools than relying solely on league tables. Fully supported by Gabbittas consultants' accompanying website, this guide will allow parents to make the most informed decision about their child's education.

The distinctive group of forty colleges profiled here is a well-kept secret in a status industry. They outdo the Ivies and research universities in producing winners. And they work their magic on the B and C students as well as on the A students. Loren Pope, director of the College Placement Bureau, provides essential information on schools that he has chosen for their proven ability to develop potential, values, initiative, and risk-taking in a wide range of students. Inside you'll find evaluations of each school's program and personality to help you decide if it's a community that's right for you; interviews with students that offer an insider's perspective on each college; professors' and deans' viewpoints on their school, their students, and their mission; and information on what happens to the graduates and what they think of their college experience. Loren Pope encourages you to be a hard-nosed consumer when visiting a college, advises how to evaluate a school in terms of your own needs and strengths, and shows how the college experience can enrich the rest of your life.

Gen Z is facing uncertainty. And they're not turning to religion to cope. Why is there a disconnect, and how can you bridge the gap? Although nearly 34 of young people are religious or spiritual, they don't turn to their faith communities to help them through stressful moments in life. And only 10% of young people told us that a faith leader reached out to them in the past year. But this gap can be bridged. The State of Religion & Young People 2021: Navigating Uncertainty has the data, insights, and frameworks to show you how. * Find out why young people, even religious young people, aren't turning to religion in times of uncertainty or difficulty... * Learn about Faith Unbundled, a framework to help leaders better understand the way young people are constructing their inner lives by drawing on a variety of sources... * Hear from 5 experts from religious, spiritual, and secular traditions for insights about how to connect with Gen Z in light of--not despite--this emerging, unbundled approach to faith. Gen Z, is exploring the boundaries of their faith, constructing meaning, and encountering the divine in new and unique ways. The only question that remains is whether you'll be there to support them.

In today's globalized world, universities strive for excellence by aligning with the UN Sustainable Development Goals and competing in research. Global universities aim to benefit future generations and promote cooperation through exchange programs and research collaborations. This book emphasizes long-term planning, research focus, financial management, online learning, community engagement, and sustainable development goals as integral aspects of global university success. It also demonstrates that universities should prioritize societal values over rankings and popularity. The book is divided into two parts. The first part delves into the global strategies for establishing successful universities worldwide, highlighted by the vice-chancellors and presidents from renowned universities of the world. The second part discusses pilot projects and experiences from Shibaura Institute of Technology (SIT), along with successful case studies contributing to top-tier university development. It highlights that collaboration among

universities, research institutions, and industries as well as leadership, strategic decision-making, and aligning missions with globalization goals are crucial for success. For any university in the world, including young universities aiming to become one of the top global universities within a specific timeframe and improve its ranking locally as well as globally, this is the right book as it showcases worldwide expert opinions and case studies.

The administration of Pre K – 12 Catholic schools becomes more challenging each year. Catholic school leaders not only have the daunting task of leading a successful learning organization, but also to serve as the school community's spiritual leader and the vigilant steward who keeps the budget balanced, the building clean, and maintaining a healthy enrollment in the school. Each of these tasks can be a full time job, yet the Catholic school principal takes on these tasks day after day, year after year, so that teachers may teach as Jesus did. The goal of this book is to provide both beginning and seasoned Catholic school leaders with some insights that might help them to meet these challenges with a sense of confidence. The words in this text provide research-based approaches for dealing with issues of practice, especially those tasks that are not ordinarily taught in educational leadership programs. This text helps to make sense of the pastoral side of Catholic education, in terms of structures, mission, identity, curriculum, and relationships with the principal's varied constituencies. It also provides some insights into enrollment management issues, finances and development, and the day in day out care of the organization and its home, the school building. As a Catholic school leader, each must remember that the Catholic school is not just another educational option. The Catholic school has a rich history and an important mission. Historically, education of the young goes back to the monastic and cathedral schools of the Middle Ages. In the United States, Catholic schools developed as a response to anti-Catholic bias that was rampant during the nineteenth century. Catholic schools developed to move their immigrant and first generation American youth from the Catholic ghetto to successful careers and lives in the American mainstream. However, most importantly, Catholic schools have brought Christ to generations of youngsters. It remains the continuing call of the Catholic school to be a center of Evangelization—a place where Gospel values live in the lives of faculty, students and parents. This text attempts to integrate the unique challenges of the instructional leader of the institution with the historical and theological underpinnings of contemporary Catholic education.

Detective Andreas Ruffner is no fool—he's found a man who loves him, puts up with him, and has stuck with him through hell and back, and it's time to put a ring on it. Darren Corliss is the love of his life, and he wants the whole world to know it. Now the fun part—the wedding! Well, after the not-so-fun part of planning the wedding in between dealing with overbearing and impossible-to-please family members. With future mothers-in-law driving them both up a wall, the guest list growing out of control, and the wedding getting ever more complicated, Darren and Andreas have to wonder if they're in over their heads. But they're going to make it to the altar if it kills them . . . and at this rate, it just might.

Tim Marshall, the New York Times bestselling author of *Prisoners of Geography*, offers “a readable primer to many of the biggest problems facing the world” (Daily Express, UK) by examining the borders, walls, and boundaries that divide countries and their populations. The globe has always been a world of walls, from the Great Wall of China to Hadrian's Wall to the Berlin Wall. But a new age of isolationism and economic nationalism is upon us, visible in Trump's obsession with building a wall on the Mexico border, in Britain's Brexit vote, and in many other places as well. China has the great Firewall, holding back Western culture. Europe's countries are walling themselves against immigrants, terrorism, and currency issues. South Africa has heavily gated communities, and massive walls or fences separate people in the Middle East, Korea, Sudan, India, and other places around the world. In fact, more than a third of the world's nation-states have barriers along their borders. Understanding what is behind these divisions is essential to understanding much of what's going on in the world today. Written in Tim Marshall's brisk, inimitable style, *The Age of Walls* is divided by geographic region. He provides an engaging context that is often missing from political discussion and draws on his real life experiences as a reporter from hotspots around the globe. He examines how walls, borders, and barriers have been shaping our political landscape for hundreds of years, and especially since 2001, and how they figure in the diplomatic relations and geo-political events of today. “Marshall is a skilled explainer of the world as it is, and geography buffs will be pleased by his latest” (Kirkus Reviews). “Accomplished, well researched, and pacey...The Age of Walls is for anyone who wants to look beyond the headlines and explore the context of some of the biggest challenges facing the world today, it is a fascinating and fast read” (City AM, UK).
