INTERNATIONAL BESTSELLER - "On Friday night you stole the life of an exceptional person, the love of my life, the mother of my son, but you will not have my hate." On November 13, 2015, Antoine Leiris's wife, Hélène Muyal-Leiris, was killed by terrorists while attending a rock concert at the Bataclan Theater in Paris, in the deadliest attack on France since World War II. Three days later, Leiris wrote an open letter addressed directly to his wife's killers, which he posted on Facebook. He refused to be cowed or to let his seventeen-month-old son's life be defined by Hélène's murder. He refused to let the killers have their way: "For as long as he lives, this little boy will insult you with his happiness and

freedom." Instantly, that short Facebook post caught fire, and was reported on by newspapers and television stations all over the world. In his determination to honor the memory of his wife, he became an international hero to everyone searching desperately for a way to deal with the horror of the Paris attacks and the grim shadow cast today by the threat of terrorism. Now Leiris tells the full story of his grief and struggle. *You Will Not Have My Hate* is a remarkable, heartbreaking, and, indeed, beautiful memoir of how he and his baby son, Melvil, endured in the days and weeks after Hélène's murder. With absolute emotional courage and openness, he somehow finds a way to answer that impossible question: how can I go on? He visits Hélène's body at the morgue, has to tell Melvil that Mommy will not be coming home, and buries the woman he had planned to spend the rest of his life with. Leiris's grief is terrible, but his love for his family is indomitable. This is the rare and unforgettable testimony of a survivor, and a universal message of hope and resilience. Leiris confronts an incomprehensible pain with a humbling generosity and grandeur of spirit. He is a guiding star for us all in these perilous times. His message—hate will be vanquished by love—is eternal.

The Hotel Mystery #2 Penguin

An offbeat penguin shows his peers the power of individuality in this humorous tale from the author of *Pookins Gets Her Way*. Tacky is an odd bird. He likes to do splashy cannonballs and greet his companions with a loud "What's happening?" In fact, he's something of an eccentric, which wouldn't be a problem if all the

other penguins weren't such...conformists. When intimidating visitors invade their peaceful, nice, icy land, it'll take a lot more than a bunch of perfect penguins to save the day. Thank goodness Tacky's such an odd bird! "This book is must reading for any kid—or grown-up—who refuses to follow the pack."—Publishers Weekly

Word problems have been a staple of mathematics instruction for centuries, yet the rationale for their use has remained largely unexamined. A range of findings have shown how students consistently answer them in ways that fail to take account of the reality of the situations described. This monograph reports on studies carried out to investigate this "suspension of sense-making" in answering word problems. In Part One, a wide range of examples documenting the strength of the phenomenon is reviewed. Initial surprise at the findings was replaced by a conviction that the explanation lies in the culture of the mathematics classroom, specifically the rules implicitly governing the nature and interpretation of the word problem genre. This theoretical shift is reflected in Part Two. A detailed analysis of the way in which word problems are currently taught in typical mathematical classrooms is followed by reviews of design experiments illustrating how, by immersing students in a fundamentally changed learning environment, they can acquire what the authors consider to be more appropriate conceptions about, and strategies for doing, word problems. Part Three turns

to a wider discussion of theoretical issues, a further analysis of the features of the educational system considered responsible for outcomes detrimental to many students' understanding and conception of mathematics, and suggestions for rethinking the role of word problems within the curriculum.
