Reeve Lindbergh, daughter of aviator-authors Charles A. and Anne Morrow Lindbergh, writes about the intersection of fame and privacy from her unique perspective; as the spokesperson for the arguably most famous family of the twentieth century. In her new book, Lindbergh reflects on her own *Two Lives*, navigating her role as the public face of her family while, at the same time, leading a very quiet existence in rural Vermont. After devoting years to keeping separate her Lindbergh life and her everyday life on her farm, she now finds herself able to make peace with her two lives. Lindbergh takes us into the National Air and Space Museum and her own kitchen drawers with equal ease, discovering that the history-making items on display are, for her, like the memorabilia that most families keep in the attic. *Two Lives* reconciles the seemingly separate worlds of fame and privacy, even finding a certain sweetness when they intersect.

An illuminating portrait of Anne Morrow Lindbergh—loyal wife, devoted mother, pioneering aviator, and critically acclaimed author of the bestselling *Gift from the Sea*. Anne Morrow Lindbergh has been one of the most admired women and most popular writers of our time. Her *Gift from the Sea* is a perennial favorite. But the woman behind the public person has remained largely unknown. Drawing on five years of exclusive interviews with Anne Morrow Lindbergh as well as countless diaries, letters, and other documents, Susan Hertog now gives us the woman whose triumphs, struggles and elegant perseverance riveted the public for much of the twentieth century.

"If one took no chances, one would not fly at all." - Charles Lindbergh A lot of ink has been spilled covering the lives of history's most influential figures, but how much of the forest is lost for the trees? In Charles River Editors' *American Legends* series, readers can get caught up to speed on

the lives of America's most important men and women in the time it takes to finish a commute, while learning interesting facts long forgotten or never known. In many ways, Charles Lindbergh represented the best and worst of America during the first half of the 20th century. Lindbergh became famous for being an aviation pioneer whose solo flight across the Atlantic captured the imagination of an entire world, yet he was an isolationist who wanted to keep American freedoms safe for Americans and no one else. Lindbergh was the quintessential family man, yet he fathered illegitimate children and suffered an unspeakable tragedy that became known as "The Crime of the Century." Lindbergh embodied some of his era's greatest virtues and harbored some of its worst prejudices. Lindbergh was a 25 year old U.S. Air Mail pilot who was probably best known for two crashes before shooting to fame with his non-stop flight across the Atlantic from New York City to Paris on May 20-21, 1927. Lindbergh was *Time Magazine's* first Man of the Year in 1927, and he used his newfound fame to promote the development of commercial flight and become a spokesman and symbol for advances in aviation. Tragically, Lindbergh was the subject of front page headlines in 1932 when his infant son, Charles, Jr., was kidnapped and murdered in the "Crime of the Century." After going into voluntary exile in Europe, Lindbergh found himself embroiled in scandals as he toured German (and Luftwaffe) aviation systems and took isolationist stances, at times making comments that were tinged with anti-Semitism and in favor of eugenics. Nevertheless, after Pearl Harbor, Lindbergh was rejected from serving in the armed forces, likely because President Roosevelt thought he was a Nazi sympathizer. But Lindbergh worked his way through administrative and technical positions to give himself the opportunity to fly about 50 combat missions in the Pacific, impressing his colleagues with his flying abilities and technical know-how. After World War II, as Lindbergh began to fade from the spotlight, he took up a number of causes, writing books and supporting environmental initiatives. The controversies began to fade as well, and when he died in 1974, he was remembered fondly for the Spirit of St. Louis and sympathetically for the Crime of the Century. *American Legends: The Life of Charles Lindbergh* chronicles the amazing life and career of Lindbergh, his greatest highs and most notorious lows, and everything inbetween. Along with pictures of important people, places, and events in his life, you will learn about "Lucky Lindy" like you never have before, in no time at all.

Uncommon Friends Farrar, Straus and Giroux

For five weeks—from April 14 to May 21, 1927—the world held its breath while fourteen aviators took to the air to capture the \$25,000 prize that Raymond Orteig offered to the first man to cross the Atlantic Ocean without stopping. Joe Jackson's *Atlantic Fever* is about this race, a milestone in American history whose story has never been fully told. Delving into the lives of the big-name competitors—the polar explorer Richard Byrd, the French war hero René Fonck, the millionaire Charles Levine, and the race's eventual winner, the enigmatic Charles Lindbergh—as well as those whose names have been forgotten by history (such as Bernt Balchen, Stanton Wooster, and Clarence Chamberlin), Jackson brings a completely fresh and original perspective to the race to conquer the Atlantic. *Atlantic Fever* opens for us one of those magical windows onto a moment when the nexus of technology, innovation, character, and spirit led so many contenders from different

parts of the world to be on the cusp of the exact same achievement at the exact same time.

DISCOVER THE NOVEL BEHIND THE BRILLIANT NEW TV DRAMA 'Though on the morning after the election disbelief prevailed, especially among the pollsters, by the next everybody seemed to understand everything...' When celebrity aviator, Charles A. Lindbergh, wins the 1940 presidential election on the slogan of 'America First', fear invades every Jewish household. Not only has Lindbergh blamed the Jews for pushing America towards war with Germany, he has negotiated an 'understanding' with the Nazis promising peace between the two nations. Growing up in the 'ghetto' of Newark, Philip Roth recounts his childhood caught in the stranglehold of this counterfactual nightmare. As America sinks into its own dark metamorphosis and Jewish families are torn apart, fear and uncertainty spread. Who really is President Lindbergh? And to what end has he hijacked America?

His historic career as an aviator made Charles Lindbergh one of the most famous men of the twentieth century, the subject of best-selling biographies and a hit movie, as well as the inspiration for a dance step—the Lindy Hop—that he himself was too shy to try. But for all the attention lavished on Lindbergh, one story has remained untold until now: his macabre scientific collaboration with Dr. Alexis Carrel. This oddest of couples—one a brilliant Nobel Prize-winning surgeon turned social engineer, the other a failed dirt farmer turned hero of the skies—joined forces in 1930 driven by a shared and secret dream: to conquer death and attain immortality. Part Frankenstein, part The Professor and the Madman, and all true, *The Immortalists* is the remarkable story of how two men of prodigious achievement and equally large character flaws challenged nature's oldest rule, with consequences—personal, professional, and political—that neither man anticipated.

A biography of the pilot whose life was full of controversy and tragedy, but also fulfilling achievements.

Charles Lindbergh Anchor

In late May 1927 an inexperienced and unassuming 25-year-old Air Mail pilot from rural Minnesota stunned the world by making the first non-stop transatlantic flight. A spectacular feat of individual daring and collective technological accomplishment, Charles Lindbergh's flight from New York to Paris ushered in America's age of commercial aviation. In *The Flight of the Century*, Thomas Kessner takes a fresh look at one of America's greatest moments, explaining how what was essentially a publicity stunt became a turning point in history. He vividly recreates the flight itself and the euphoric reaction to it on both sides of the Atlantic, and argues that Lindbergh's amazing feat occurred just when the world--still struggling with the disillusionment of WWI--desperately needed a hero to restore a sense of optimism and innocence. Kessner also shows how new forms of mass media made Lindbergh into the most famous international celebrity of his time, casting him in the role of a humble yet dashing American hero of rural origins and traditional values. Much has been made of Lindbergh's personal integrity and his refusal to cash in on his fame. But Kessner reveals that Lindbergh was closely allied with, and managed by, a group of powerful businessmen--Harry Guggenheim, Dwight Morrow, and Henry Breckenridge chief among them--who sought to exploit aviation for mass transport and massive profits. Their efforts paid off as commercial air traffic soared from 6,000 passengers in 1926 to 173,000 passengers in 1929. Kessner's book is the first to fully explore Lindbergh's central role in promoting the airline industry--the rise of which has influenced everything from where we live to how we wage war and do business. *The Flight of the Century* sheds new light on one of America's fascinatingly enigmatic heroes and most transformative moments.
