Till We Have Faces Anchor

This early work on Martin Luther is both expensive and hard to find in its first edition. It details the life of the monk responsible for translating the Bible from Latin into German and for inspiring the Lutheran movement. This is a fascinating work and is thoroughly recommended for anyone interested in the history of European religion. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

In 1857, at a place called Mountain Meadows in southern Utah, a band of Mormons and Indians massacred 120 emigrants. Twenty years later, the slaughter was blamed on one man named John D.

Lee, previously a member of Brigham Young's inner circle. Red Water imagines Lee's extraordinary frontier life through the eyes of three of his nineteen wives. Emma is a vigorous and capable Englishwoman who loves her husband unconditionally. Ann, a bride at thirteen years old, is an independent adventurer. Rachel is exceedingly devout and married Lee to be with her sister, his first wife. These spirited women describe their struggle to survive Utah's punishing landscape and the poisonous rivalries within their polygamous family, led by a magnetic, industrious, and considerate husband, who was also unafraid of using his faith to justify desire and ambition.

The critically acclaimed, award-winning, modern classic *Speak* is now a stunning graphic novel. "Speak up for yourself—we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless—an outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally able to face what really happened that night: She was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. With powerful illustrations by Emily Carroll, Laurie Halse Anderson's *Speak: The Graphic Novel* comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

Skylar's death came not at the end, after a long fulfilling existence, not in the middle, as a result of an untimely tragic event—but at the beginning, with her birth. As a final effort to save her dying unborn child, Skylar's pregnant mother, a witch, sacrificed herself by invoking a powerful spirit shade to inhabit Skylar's body, imbuing her with life. For twenty-three years, Skylar lived a life of oblivion, content with her simple job, loving adoptive mother and the monthly inconvenience of a full moon hangover after being sedated and caged when she changed into a wolf. It wasn't exciting but it was her life until one night, she woke up in a strange room in the middle of rural Illinois—bruised and with jumbled memories of her mother's death from a vampire attack. The Midwest pack comes to her rescue. Known for being more ruthless than altruistic, she doesn't know if she can trust them. But after an assassination attempt by a necromancer, an abduction attempt by a mercenary, and more aggressive and violent attacks by the vampires, she has no other choice but to accept their help. The Midwest pack quickly discover that Skylar is the host to a spirit shade, who gives her magical abilities, that make her as much of a danger as an asset and that she is the key to the vampires' plan to perform a ritual that will give them unrestricted power. Tension rises as the pack become divided between those who think her life is worth protecting as a potential ally and those who believe she is too dangerous to live. In the end, Skylar finds herself fighting for her life—a life that may be tragically taken too soon.

The Education of Kim Jong-Un Knopf

An enthralling literary debut that evokes one of the most momentous events in history, the birth of printing in medieval Germany—a story of invention, intrigue, and betrayal, rich in atmosphere and historical detail, told through the lives of the three men who made it possible. Youthful, ambitious Peter Schoeffer is on the verge of professional success as a scribe in Paris when his foster father, wealthy merchant and bookseller Johann Fust, summons him home to corrupt, feud-plagued Mainz to meet "a most amazing man." Johann Gutenberg, a driven and caustic inventor, has devised a revolutionary—and to some, blasphemous—method of bookmaking: a machine he calls a printing press. Fust is financing Gutenberg's workshop and he orders Peter, his adopted son, to become Gutenberg's apprentice. Resentful at having to abandon a prestigious career as a scribe, Peter begins his education in the "darkest art." As his skill grows, so, too, does his admiration for Gutenberg and his dedication to their daring venture: copies of the Holy Bible. But mechanical difficulties and the crushing power of the Catholic Church threaten their work. As outside forces align against them, Peter finds himself torn between two father figures: the generous Fust, who saved him from poverty after his mother died; and the brilliant, mercurial Gutenberg, who inspires Peter to achieve his own mastery. Caught between the genius and the merchant, the old ways and the new, Peter and the men he admires must work together to prevail against overwhelming obstacles—a battle that will change history . . . and irrevocably transform them.

Robin Coste Lewis's electrifying collection is a triptych that begins and ends with lyric poems meditating on the roles desire and race play in the construction of the self. In the center of the collection is the title poem, "Voyage of the Sable Venus," an amazing narrative made up entirely of titles of artworks from ancient times to the present-titles that feature or in some way comment on the black female figure in Western art. Bracketed by Lewis's own autobiographical poems, "Voyage" is a tender and shocking

meditation on the fragmentary mysteries of stereotype, juxtaposing our names for things with what we actually see and know. A new understanding of biography and the self, this collection questions just where, historically, do ideas about the black female figure truly begin-five hundred years ago, five thousand, or even longer? And what role did art play in this ancient, often heinous story? Here we meet a poet who adores her culture and the beauty to be found within it. Yet she is also a cultural critic alert to the nuances of race and desire-how they define us all, including her own sometimes painful history. Lewis's book is a thrilling aesthetic anthem to the complexity of race-a full embrace of its pleasure and horror, in equal parts.
