story. A creator biography and glossary help reluctant readers take the first step on the road to classic literature.

The Graphic Novel
Tenzing Norgay was the son of poor Tibetan immigrants living in Nepal. He longed to see the world but was told he could aspire to be little more than a servant.
Edmund Hillary was a humble beekeeper from New Zealand, who spent his youth dreaming of adventures he could never hope to experience.

And Everest was the ultimate adventure. The mountain's peak is the highest point on Earth, stretching beyond the clouds. So dangerous and challenging, Everest had never been successfully climbed and many had died trying. In 1953, Tenzing Norgay and Edmund Hillary joined a team of explorers determined to reach its top. Alone at the top of the world with

their oxygen running low, they faced brutal elements and new dangers at every turn. And they were armed with little more than their courage, determination, and a belief in each other. But would that be enough to achieve the impossible, what no man had done before? Leonardo Da Vinci: The Renaissance Man Campfire Ten exciting tales in graphic novel format recapture episodes from

both sides of the Civil War. Readers of all ages will thrill to accurate depictions of military and civilian life. *From Creation to the Flood* Sterling Publishing (NY) Man has long had the power to take life, but what will happen when he learns to give it? Intrigued by this question, young Victor Frankenstein - a devoted student of science - becomes obsessed with the idea of conjuring life out of 'lifeless

matter'. Using his formidable skills in chemistry and other sciences, Victor begins to assemble a being from scavenged and stolen body parts. Once he has fathered a son created by his own science, Victor rejects the hideous creature he has brought to life. Eventually, the creature mounts a campaign of revenge against his creator, struggling to be recognised as a thinking, feeling being.

And so begins the battle between father and son... First published anonymously in 1818, Frankenstein was the brainchild of author Mary Shelley. Over the years, this classic tale has been retold many times in several different formats. Campfire's faithful graphic novel adaptation of Frankenstein brings an important and timeless story back to life. [A Graphic Novel](#)

The Time Machine

Harper Collins
A 2018 New York Times/New York Public Library Best Illustrated Children's Books On the bicentennial of Frankenstein, join Mary Shelley on the night she created the most

frightening monster the world has ever seen. On a stormy night two hundred years ago, a young woman sat in a dark house and dreamed of her life as a writer. She longed to follow the path her own mother, Mary Wollstonecraft, had started down, but young Mary Shelley had yet to be inspired. As the night wore on, Mary grew more anxious. The next day was the deadline that her friend, the poet Lord

Byron, had set for writing the best ghost story. After much talk of science and the secrets of life, Mary had gone to bed exhausted and frustrated that nothing she could think of was scary enough. But as she drifted off to sleep, she dreamed of a man that was not a man. He was a monster. This fascinating story gives readers insight into the tale behind one of the world's most celebrated

novels and the creation of an indelible figure that is recognizable to readers of all ages. "Eye-catching artwork and engaging storytelling give this biography of a fascinating woman even more appeal."--
