 ISO - ISO 128-34:2001 - Technical drawings — General ...
 ISO 128 is an international standard (ISO), about the general principles of presentation in technical drawings, specifically the graphical representation of objects on technical drawings.
 ISO 1101 represents the initial basis and describes the required fundamentals for geometrical tolerancing.
 Engineering drawing standards and unambiguous communication
 This revision, which supersedes the Goddard Space Flight Center (GSFC) Standard X-673-64-1E, Engineering Drawing Standards Manual, is intended to update and reflect the latest formats and standards adopted by GSFC. The following is a summary of the principal changes and improvements incorporated in this issue:
 a. ENGINEERING DRAWING STANDARDS MANUAL
 TOLERANCING AND ENGINEERING STANDARDS.

Tolerancing is just like written languages. It has its own standards. There are too many standards like ANSI (Inch System), ISO (Metric System) etc. List of standards: ANSI B4.1, ANSI B4.2, ISO 286, ISO 1829, ISO 2768, EN 20286, JIS B 0401.
 Tolerance Definition, Tolerancing, Engineering Standards, ISO ...

 Page I-4 I. LINE CONVENTIONS A. The lines shown in Figure 1.1 are to be used in all mechanical drawings. The corresponding AutoCAD linetype and linewidth are given next to each linetype.
 Engineering Drawing & CAD Standards - Faculty Web
 Isometric Drawing: Isometric drawing/projection is a method of visually representing three-dimensional objects in two dimensions in engineering technical drawings. Isometric is an easy method of drawing 3D image. All lines in isometric drawings are drawn to scale.
 Technical Drawing Style, JIS standard, General Dimensioning ...
 One major set of engineering drawing standards is ASME Y14.5 and Y14.5M (most recently revised in 2009). These apply widely in the United States, although ISO 8015 (Geometrical product specifications

(GPS) — Fundamentals — Concepts, principles and rules) is now also important.
