'These essays ... live and grow in the mind' James Campbell, Independent Being a writer, says James Baldwin in this searing collection of essays, requires 'every ounce of stamina he can summon to attempt to look on himself and the world as they are'. His seminal 1961 follow-up to Notes on a Native Son shows him responding to his times and exploring his role as an artist with biting precision and emotional power: from polemical pieces on racial segregation and a journey to 'the Old Country' of the Southern states, to reflections on figures such as Ingmar Bergman and André Gide, and on the first great conference of African writers and artists in Paris. 'Brilliant...accomplished...strong...vivid...honest...masterly' The New York Times 'A bright and alive book, full of grief, love and anger' Chicago Tribune

"From age five, Sufiya Abdur-Rahman, the daughter of two Black Power-era converts to Islam, feels drawn to the faith even as her father, a devoted Muslim, introduces her to and, at the same time, distances her from it. He and her mother abandoned their Harlem mosque before she was born and divorced when she was twelve. Forced apart from her father--her portal into Islam--she yearns to reconnect with the religion and, through it, him. In

Heir to the Crescent Moon, Abdur-Rahman's longing to comprehend her father's complicated relationship with Islam leads her first to recount her own history with it. Later, as she seeks to discover what both pulled her father to and pushed him from the mosque and her mother, Abdur-Rahman delves into the past. She journeys from the Christian righteousness of Adam Clayton Powell Jr.'s 1950s Harlem, through the Malcolm X-inspired college activism of the late 1960s, to the unfulfilled potential of the early-'70s' black American Muslim movement. When a painful reminder of the reason for her father's inconsistent ties to his former mosque appears to threaten his life, Abdur-Rahman's search nearly ends. She's forced to come to terms with her Muslim identity, and learns how events from generations past can reverberate through the present. Told, at times, with lighthearted humor or heartbreaking candor, Abdur-Rahman's story of adolescent Arabic lessons, fasting, and Muslim mosque, funeral, and eid services speaks to the challenges of bridging generational and cultural divides and what it takes to maintain family amidst personal and societal upheaval. Writing with quiet beauty but intellectual force about identity, community, violence, hope, despair, and faith, Abdur-Rahman weaves a vital tale about a family: black, Muslim, and distinctly American"--

James Baldwin was beginning to be recognized as the most brilliant black writer of his generation when his first book of essays, *Notes of a Native Son*, established his reputation in 1955. No one was more pleased by the book's reception than Baldwin's high school friend Sol Stein. A rising New York editor, novelist, and playwright, Stein had suggested that Baldwin do the book and coaxed his old friend through the long and sometimes agonizing process of putting the volume together and seeing it into print. Now, in this fascinating new book, Sol Stein documents the story of his intense creative partnership with Baldwin through newly uncovered letters, photos, inscriptions, and an illuminating memoir of the friendship that resulted in one of the classics of American literature. Included in this book are the two works they created together—the story “Dark Runner” and the play *Equal in Paris*, both published here for the first time. Though a world of difference separated them—Baldwin was black and gay, living in self-imposed exile in Europe; Stein was Jewish and married, with a growing family to support—the two men shared the same fundamental passion. Nothing mattered more to either of them than telling and writing the truth, which was not always welcome. As Stein wrote Baldwin in a long, heartfelt letter, “You are the only friend with whom I feel comfortable about all three: heart, head, and writing.” In this extraordinary book, Stein unfolds how that shared passion played out in the months surrounding the creation and publication of Baldwin's *Notes of a Native Son*, in which Baldwin's main themes are illuminated. A literary event published to honor the eightieth anniversary of James Baldwin's birth, *Native Sons* is a celebration of one of the most fruitful and influential friendships in American letters.

NEW YORK TIMES BESTSELLER • “A powerful study of how to bear witness in a moment when America is being called to do the same.”—Time James Baldwin grew disillusioned by the failure of the civil rights movement to force America to confront its lies about race. What can we learn from his struggle in our own moment? Named one of the best books of the year by Time, The Washington Post, and the Chicago Tribune • Winner of the Stowe Prize • Shortlisted for the Goddard Riverside Stephan Russo Book Prize for Social Justice “Not everything is lost. Responsibility cannot be lost, it can only be abdicated. If one refuses abdication, one begins again.”—James Baldwin *Begin Again* is one of the great books on James Baldwin and a powerful reckoning with America's ongoing failure to confront the lies it tells itself about race. Just as in Baldwin's “after times,” argues Eddie S. Glaude Jr., when white Americans met the civil rights movement's call for truth and justice with blind rage and the murders of movement leaders, so in our moment were the Obama presidency and the birth of Black Lives Matter answered with the ascendance of Trump and the violent resurgence of white nationalism. In these brilliant and stirring pages, Glaude finds hope and guidance in Baldwin as he mixes biography—drawn partially from newly uncovered Baldwin interviews—with history, memoir, and poignant analysis of our current moment to reveal the painful cycle of Black resistance and white retrenchment. As Glaude bears witness to the difficult truth of racism's continued grip on the national soul, *Begin Again* is a searing exploration of the tangled web of race, trauma, and memory, and a powerful interrogation of what we must ask of ourselves in order to call forth a new America.

#26 on The Guardian's list of 100 best nonfiction books of all time, the essays explore what it means to be Black in America In an age of Black Lives Matter, James Baldwin's essays on life in Harlem, the protest novel, movies, and African Americans abroad are as powerful today as when they were first written. With films like *I Am Not Your Negro* and the forthcoming *If Beale Street Could Talk* bringing renewed interest to Baldwin's life and work, *Notes of a Native Son* serves as a valuable introduction. Written during the 1940s and early 1950s, when Baldwin was only in his twenties, the essays collected in *Notes of a Native Son* capture a view of black life and black thought at the dawn of the civil rights movement and as the movement slowly gained strength through the words of one of the most captivating essayists and foremost intellectuals of that era. Writing as an artist, activist, and social critic, Baldwin probes the complex condition of being black in America. With a keen eye, he examines everything from the significance of the protest novel to the motives and circumstances of the many black expatriates of the time, from his home in “The Harlem Ghetto” to a sobering “Journey to Atlanta.” *Notes of a Native Son* inaugurated Baldwin as one of the leading interpreters of the dramatic social changes erupting in the United States in the twentieth century, and many of his observations have proven almost prophetic. His criticism on topics such as the paternalism of white progressives or on his own friend Richard Wright's work is pointed and unabashed. He was also one of the few writing on race at the time who addressed the issue with a powerful mixture of outrage at the gross physical and political violence against black citizens and measured understanding of their oppressors, which helped awaken a white audience to the injustices under their noses. Naturally, this combination of brazen criticism and unconventional empathy for white readers won Baldwin as much condemnation as praise. *Notes* is the book that established Baldwin's voice as a social critic, and it remains one of his most admired works. The essays collected here create a cohesive sketch of black America and reveal an intimate portrait of Baldwin's own search for identity as an artist, as a black man, and as an American.

Baldwin for Our Times Vintage

NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • NEW YORK TIMES BESTSELLER • In this beautifully written masterwork, the Pulitzer Prize-winner and bestselling author of *Caste* chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. From 1915 to 1970, this exodus of almost six million people changed the face of

America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an “unrecognized immigration” within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic.

In fourteen sweeping and sublime stories, five of which have been published in *The New Yorker*, the bestselling and Pulitzer Prize-winning author of *The Known World* shows that his grasp of the human condition is firmer than ever Returning to the city that inspired his first prizewinning book, *Lost in the City*, Jones has filled this new collection with people who call Washington, D.C., home. Yet it is not the city's power brokers that most concern him but rather its ordinary citizens. All Aunt Hagar's Children turns an unflinching eye to the men, women, and children caught between the old ways of the South and the temptations that await them further north, people who in Jones's masterful hands, emerge as fully human and morally complex, whether they are country folk used to getting up with the chickens or people with centuries of education behind them. In the title story, in which Jones employs the first-person rhythms of a classic detective story, a Korean War veteran investigates the death of a family friend whose sorry destiny seems inextricable from his mother's own violent Southern childhood. In “In the Blink of God's Eye” and “Tapestry” newly married couples leave behind the familiarity of rural life to pursue lives of urban promise only to be challenged and disappointed. With the legacy of slavery just a stone's throw away and the future uncertain, Jones's cornucopia of characters will haunt readers for years to come.

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Talking at the Gates Library of America James Baldwin

A major work of American literature from a major American writer that powerfully portrays the anguish of being Black in a society that at times seems poised on the brink of total racial war. "Baldwin is one of the few genuinely indispensable American writers." —Saturday Review At the height of his theatrical career, the actor Leo Proudhammer is nearly felled by a heart attack. As he hovers between life and death, Baldwin shows the choices that have made him enviably famous and terrifyingly vulnerable. For between Leo's childhood on the streets of Harlem and his arrival into the intoxicating world of the theater lies a wilderness of desire and loss, shame and rage. An adored older brother vanishes into prison. There are love affairs with a white woman and a younger black man, each of whom will make irresistible claims on Leo's loyalty. *Tell Me How Long the Train's Been Gone* is overpowering in its vitality and extravagant in the intensity of its feeling.

Bellamy's debut novel revives the central female character from Bram Stoker's *Dracula* and imagines her as an independent woman living in San Francisco during the 1980s. Hypocrisy's not the problem, I think, it's allegory the breeding ground of paranoia. The act of reading into--how does one know when to stop? KK says that Dodie has the advantage because she's physical and I'm "only psychic." ... The truth is: everyone is adopted. My true mother wore a turtleneck and a long braid down her back, drove a Karmann Ghia, drank Chianti in dark corners, fucked Gregroy Corso ... --Dodie Bellamy, *The Letters of Mina Harker* First published in 1998, Dodie Bellamy's debut novel *The Letters of Mina Harker* sought to resuscitate the central female character from Bram Stoker's *Dracula* and reimagine her as an independent woman living in San Francisco during the 1980s--a woman not unlike Dodie Bellamy. Harker confesses the most intimate details of her relationships with four different men in a series of letters. Vampirizing Mina Harker, Bellamy turns the novel into a laboratory: a series of attempted transmutations between the two women in which the real story occurs in the gaps and the slippages. Lamprooning the intellectual theory-speak of that era, Bellamy's narrator fights to inhabit her own sexuality despite feelings of vulnerability and destruction. Stylish but ruthlessly unpretentious, *The Letters of Mina Harker* was Bellamy's first major claim to the literary space she would come to inhabit.

Right from the start, Bigger Thomas had been headed for jail. It could have been for assault or petty larceny; by chance, it was for murder and rape.

Native Son tells the story of this young black man caught in a downward spiral after he kills a young white woman in a brief moment of panic. Set in Chicago in the 1930s, Wright's powerful novel is an unsparing reflection on the poverty and feelings of hopelessness experienced by people in inner cities across the country and of what it means to be black in America.

When a company's workers are literally dying on the job, when their business model relies on preying on local businesses and even their own vendors, when their CEO is the richest person in the world while their workers make low wages with impossible quotas... wouldn't you want to resist? Danny Caine, owner of Raven Book Store in Lawrence, Kansas has been an outspoken critic of the seemingly unstoppable Goliath of the bookselling world: Amazon. In this book, he lays out the case for shifting our personal money and civic investment away from global corporate behemoths and to small, local, independent businesses. Well-researched and lively, his tale covers the history of big box stores, the big political drama of delivery, and the perils of warehouse work. He shows how Amazon's ruthless discount strategies mean authors, publishers, and even Amazon themselves can lose money on every book sold. And he spells out a clear path to resistance, in a world where consumers are struggling to get by. In-depth research is interspersed with charming personal anecdotes from bookstore life, making this a readable, fascinating, essential book for the 2020s.

From one of the most important American writers of the twentieth century—an extraordinary history of the turbulent sixties and early seventies that powerfully speaks to contemporary conversations around racism. “It contains truth that cannot be denied.” —The Atlantic Monthly In this stunningly personal document, James Baldwin remembers in vivid details the Harlem childhood that shaped his early consciousness and the later events that scored his heart with pain—the murders of Martin Luther King and Malcolm X, his sojourns in Europe and in Hollywood, and his return to the American South to confront a violent America face-to-face.

NATIONAL BOOK CRITICS CIRCLE WINNER • NATIONAL BESTSELLER • An extraordinary look at privilege, discrimination, and the fallacy of post-racial America by the renowned Pulitzer Prize-winning cultural critic Jefferson takes us into an insular and discerning society: “I call it Negroland,” she writes, “because I still find ‘Negro’ a word of wonders, glorious and terrible.” Margo Jefferson was born in 1947 into upper-crust black Chicago. Her father was head of pediatrics at Provident Hospital, while her mother was a socialite. Negroland’s pedigree dates back generations, having originated with antebellum free blacks who made their fortunes among the plantations of the South. It evolved into a world of exclusive sororities, fraternities, networks, and clubs—a world in which skin color and hair texture were relentlessly evaluated alongside scholarly and professional achievements, where the Talented Tenth positioned themselves as a third race between whites and “the masses of Negroes,” and where the motto was “Achievement. Invulnerability. Compartment.” Jefferson brilliantly charts the twists and turns of a life informed by psychological and moral contradictions, while reckoning with the strictures and demands of Negroland at crucial historical moments—the civil rights movement, the dawn of feminism, the falsehood of post-racial America.
