Beethoven G Schirmer, Incorporated
"An ideal 'first book' on Beethoven" from
one of the world's most eminent classical

music aficionados (Booklist). Beethoven
scholar and classical radio host John
Suchet has had a lifelong, ardent interest
in the man and his music. Here, in his first
full-length biography, Suchet illuminates
the composer's difficult childhood, his
struggle to maintain friendships and
romances, his ungovernable temper, his
obsessive efforts to control his nephew's
life, and the excruciating decline of his
hearing. This absorbing narrative provides
a comprehensive account of a momentous

life, as it takes the reader on a journey from the composer's birth in Bonn to his death in Vienna. Chronicling the landmark events in Beethoven's career—from his competitive encounters with Mozart to the circumstances surrounding the creation of the well-known "Für Elise" and Moonlight Sonata—this book enhances understanding of the composer's character, inspiring a deeper appreciation for his work. Beethoven scholarship is constantly evolving, and Suchet draws on the latest research, using rare source material (some of which has never before been published in English) to paint a complete and vivid portrait of the legendary prodigy. "A gripping and thought-provoking read." —Howard Shelley, pianist and conductor "By exercising a genuine authority in identifying how Beethoven, the man, manifests himself in our appreciation of the music, Suchet brings an incisive freshness to an extraordinary life." —Jonathan Freeman-Attwood, Principal of the Royal Academy of Music

Even in Beethoven's day the 'Moonlight' Sonata was a popular favourite. This 1999 book provides an accessible introduction to the Sonatas Opp. 27 and 31 (including The 'Moonlight' and 'The Tempest'), aimed at pianists, students, and music lovers. It begins with the works' historical background - the emergence of a 'piano culture' at the end of the eighteenth century, Beethoven's aristocratic milieu in Vienna, and his oft-quoted intention to follow a new compositional path. An account of the sonatas' genesis is followed by a discussion of their reception history, including a survey of changing performing styles since the mid-nineteenth century. The concept of the Sonata quasi una Fantasia is examined in relation to the cult

of artistic sensibility in early-nineteenth-century Vienna. The study concludes with a critical introduction to each sonata.

Toccata and Fugue in D Minor Hal Leonard Corporation

How and why did the life and music of Ludwig van Beethoven (1770-1827) matter to experimental writers in the early twentieth century? Previous answers to this question have tended to focus on structural analogies between musical works and literary texts, charting the many different ways in which poetry and prose resemble Beethoven's compositions. This book takes a different approach. It focuses on how early twentieth-century writers—chief among them E. M. Forster, Aldous Huxley, Wyndham Lewis, Dorothy Richardson, Rebecca West, and Virginia Woolf—profited from the representational conventions associated in the nineteenth century and beyond with Beethovenian culture. The emphasis of *Moonlighting* falls for the most part on how modernist writers made use of Beethovenian legend. It is concerned neither with formal similarities between Beethoven's music and modernist writing nor with the music of Beethoven per se, but with certain ways of

understanding Beethoven's music which had long before 1900 taken shape as habit, myth, cliché, and fantasy, and with the influence they had on experimental writing up to 1930. *Moonlighting* suggests that the modernists drew knowingly and creatively on the conventional. It proposes that many of the most experimental works of modernist literature were shaped by a knowing reliance on Beethovenian consensus; in short, that the literary modernists knew Beethovenian legend when they saw it, and that they were eager to use it.

Beethoven in America W. W. Norton & Company

Beethoven's piano sonatas are a cornerstone of the piano repertoire and favourites of both the concert hall and recording studio. The sonatas have been the subject of much scholarship, but no

single study gives an adequate account of the processes by which these sonatas were composed and published. With source materials such as sketches and correspondence increasingly available, the time is ripe for a close study of the history of these works. Barry Cooper, who in 2007 produced a new edition of all 35 sonatas, including three that are often overlooked, examines each sonata in turn, addressing questions such as: Why were they written? Why did they turn out as they did? How did they come into being and how did they reach their final form? Drawing on the composer's sketches, autograph scores and early printed editions, as well as contextual material such as correspondence, Cooper explores the links between the notes and symbols found in the musical texts of the sonatas, and the environment that brought them about. The result is a biography not of the composer, but of the works themselves.

Beethoven Piano Sonatas, Volume 2 (Nos. 9-15) Hal Leonard Corporation

Beethoven wrote 32 sonatas for piano. The final installment, Volume 4, edited by Stewart Gordon, contains Sonatas 25-32, written between 1809 and 1822 and published shortly thereafter. Of the eight sonatas in this volume, autographs exist in whole or in part for all but Op. 106, missing since World War II. This edition is based on the existing autographs and the first editions. Dr. Gordon discusses a variety of topics including Beethoven's life; the pianos of his time and their limitations; Beethoven's use of articulation, ornamentation, tempi; and the age-old challenge of attempting to determine the definitive interpretation of Beethoven's music. Valuable performance recommendations, helpful fingering suggestions and ornament realizations are offered in this comprehensive critical body

of Beethoven's sonatas. Where performance options are open to interpretation, other editors' conclusions are noted, enabling students and teachers to make informed performance decisions.
