Drawdown Penguin

#1 INTERNATIONAL BESTSELLER • "A landmark manifesto" (The New York Times) that's a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential. In her famed TED talk, Sheryl Sandberg described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than eleven million times, encouraged women to "sit at the table," seek challenges, take risks, and pursue their goals with gusto. Lean In continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can't do to what they can. Sandberg, COO of Meta (previously called Facebook) from 2008-2022, provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home.

"The 2012 report recognized that expanding women's agency - their ability to make decisions and take advantage of opportunities is key to improving their lives as well as the world. This report represents a major advance in global knowledge on this critical front. The vast data and thousands of surveys distilled in this report cast important light on the nature of constraints women and girls continue to face globally. This report identifies promising opportunities and entry points for lasting transformation, such as interventions that reach across sectors and include life-skills training, sexual and reproductive health education, conditional cash transfers, and mentoring. It finds that addressing what the World Health Organization has identified as an epidemic of violence against women means sharply scaling up engagement with men and boys. The report also underlines the vital role information and communication technologies can play in amplifying women's voices, expanding their economic and learning opportunities, and broadening their views and aspirations. The World Bank Group's twin goals of ending extreme poverty and boosting shared prosperity demand no less than the full and equal participation of women and men, girls and boys, around the world." -- Publisher's description.

Winner of the 2020 Porchlight Business Book of the Year Award One of The Guardian's Best Books of 2020. Finalist for the 2020 Royal Science Society Book Prize and the 2020 Porchlight Business Book Awards. Longlisted for the 2020 Financial Times & McKinsey Business Book of the Year "Linda Scott shines a light on women's essential and often invisible contributions to our global economy—while combining insight, analysis, and interdisciplinary data to make a compelling and actionable case for unleashing women's economic power." —Melinda Gates, author of *The Moment of Lift: How Empowering Women Changes the World* A leading thinker's groundbreaking examination of women's

economic empowerment Linda Scott coined the phrase "Double X Economy" to address the systemic exclusion of women from the world financial order. In *The Double X Economy*, Scott argues on the strength of hard data and on-the-ground experience that removing those barriers to women's success is a win for everyone, regardless of gender. Scott opens our eyes to the myriad economic injustices that constrain women throughout the world: fathers buying and selling daughters against their will; husbands burning brides whose dowries have been spent; men appropriating women's earnings and widows' land; banks discriminating against women applying for loans; corporations paying women less than men; men treating women as their intellectual inferiors due to primitive notions of female brain development; governments depriving women of affordable childcare; and so much more. As Scott takes us from the streets of Accra, where sex trafficking is widespread, to American business schools, where women are routinely patronized, the pervasiveness of the Double X Economy becomes glaringly obvious. But Scott believes that this rampant problem can be solved. She proposes concrete actions and urges her readers to rise up and join the global movement for women's economic empowerment that is gaining momentum by the day.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in

developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

• New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world "At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope." —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* "There's been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom." —David Roberts, *Vox* "This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook." —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

New York Times Bestseller Edited and with an introduction by Roxane Gay, the New York Times bestselling and deeply beloved author of *Bad Feminist* and *Hunger*, this anthology of first-person essays tackles rape, assault, and harassment head-on. *Vogue*, "10 of the Most Anticipated Books of Spring 2018" \* *Harper's Bazaar*, "10 New Books to Add to Your Reading List in 2018" \* *Elle*, "21 Books We're Most Excited to Read in 2018" \* *Boston Globe*, "25 books we can't wait to read in 2018" \* *Huffington Post*, "60 Books We Can't Wait to Read in 2018" \* *Hello Giggles*, "19 Books We Can't Wait to Read in 2018" \* *Buzzfeed*, "33 Most Exciting New Books of 2018" In this valuable and revealing anthology, cultural critic and bestselling author Roxane Gay collects original and previously published pieces that address what it means to live in a world where women have to measure the harassment, violence, and aggression they face, and where they are "routinely second-guessed, blown off, discredited, denigrated, besmirched, belittled, patronized, mocked, shamed, gaslit, insulted, bullied" for speaking out. Contributions include essays from established and up-and-coming writers, performers, and critics, including actors Ally Sheedy and Gabrielle Union and writers Amy Jo Burns, Lyz Lenz, Claire Schwartz, and Bob Shacochis. Covering a wide range of topics and experiences, from an exploration of the rape epidemic embedded in the refugee crisis to first-person accounts of child molestation, this collection is often deeply personal and is always unflinchingly honest. Like Rebecca Solnit's *Men Explain Things to Me*, *Not That Bad* will resonate with every reader, saying "something in totality that we cannot say alone." Searing and heartbreakingly candid, this provocative collection both reflects the world we live in and offers a call to arms insisting that "not that bad" must no longer be good enough.

A thoughtful and "utterly mind-blowing" exploration of fatherhood and masculinity in the 21st century (*New York Times*). There are hundreds of books on parenting, and with good reason—becoming a parent is scary, difficult, and life-changing. But when it comes to books about parenting identity, rather than the nuts and bolts of raising children, nearly all are about what it's like to be a mother. Drawing on research in sociology, economics, philosophy, gender studies, and the author's own experiences, *Father Figure* sets out to fill that gap. It's an exploration of the psychology of fatherhood from an archetypal perspective as well as a cultural history that challenges familiar assumptions about the origins of so-called traditional parenting roles. What paradoxes and contradictions are inherent in our common understanding of dads? Might it be time to rethink some aspects of fatherhood? Gender norms are changing, and old economic models are facing disruption. As a result, parenthood and family life are undergoing an existential transformation. And yet, the narratives and images of dads available to us are wholly inadequate for this transition. Victorian and Industrial Age tropes about fathers not only dominate the media, but also contour most people's lived experience. *Father Figure* offers a badly needed update to our collective understanding of fatherhood—and masculinity in general. It teaches dads how to embrace the joys of fathering while guiding them toward an image of manliness for the modern world.

"What is women's empowerment, and how and why does it matter for women's health? Despite the rise of a human rights-based approach to women's health and increasing awareness of the synergies between women's health and empowerment, a lack of consensus remains as to how to measure empowerment and successfully intervene in ways that improve health. *Women's Empowerment and Global Health* provides thirteen detailed, multidisciplinary case studies from across the globe and through the course of a woman's life to show how science and advocacy can be creatively merged to enhance the agency and status of women. Accompanying short videos provide background about programs on the ground in India, the United States, Mexico, Nicaragua, Zimbabwe, and South Africa.

*Women's Empowerment and Global Health* explores the promises and limits of programmatic, scientific, and rights-based work in real-world settings and provides the next generation of researchers and practitioners, as well as students in global and public health, sociology, anthropology, women's studies, law, business, and medicine, with cutting edge and inspirational examples of programs that point the way toward achieving women's equality and fulfilling the right to health."--Provided by publisher.

The 21st-century workplace is broken, with massive, systemic problems when it comes to women. We are still backing into a workplace built for the single income, male-led household of the 1950s. And it's not working—especially for women. In *The Company of Men: How Women Can Succeed in a World Built Without Them* takes on the NFL, the world of venture capital, Hollywood, the Catholic Church, food production, and the pornography industry—just a few of the heavily male-dominated spaces in which women have had to chip away at existing structures to build a better place that works for all. The stories of the women dismantling and re-imagining these spaces will inspire you to reconsider the spaces in which you live and work, and find ways to make them work better for everyone. From *Inside Flap* When CBS Television promoted Ethel Winant to vice president, she became the first female TV executive in history. But when her office moved up to the executive floor, there was no women's restroom, and the men's room door didn't have a lock. She learned to leave her high heels outside the men's room door to indicate she was in there. It's Time for a Revolution In The Garden, woman was taken out of man to stand by his side and co-reign with him. But Satan's schemes have robbed women of their rightful identity, disempowering and defacing them. The world aches for God's original partnership to be brought into balance once more—and it can be. Join Kris Vallotton for an extraordinary journey of eye-opening insight, including • God's true plan and purpose for women • Jesus' radical teachings and care for women • men's important role in restoring women • the true meaning of difficult Bible passages about women • examples of women in leadership as God intended God fashioned women to reign alongside men. Jesus set women free to be beautiful and powerful. It's time for us, as daughters and sons of the King, to rule together in glory again. Will you join the revolution? "We have failed to realize that Jesus founded the women's liberation movement more than two thousand years ago. Isn't it high time His Church led the revolution?"--Kris Vallotton "Off the charts. Worthy to be read and studied by all. You won't be able to put it down."--Patricia King, founder, XP Ministries "Read, weigh and embrace the spirit, truth and heartbeat of this book. This biblical approach rightly addresses unright arguments of strained interpretations. Such balance and beauty make sense and offer wisdom. I say, 'Amen!'"--Pastor Jack Hayford, chancellor, The King's University, Dallas/Los Angeles "This profound work is a must-read for men and women alike; it has the potential to instill courage in the hearts of men and give women permission to dream again."--Bill Johnson, senior leader, Bethel Church, Redding, California; author, *The Essential Guide to Healing and When Heaven Invades Earth* "Finally, a biblical perspective that encourages women to remain themselves and still take their God-given places of leadership."--Stacey Campbell, author, *Praying the Bible*; co-founding pastor, New Life Church, Kelowna, British Columbia "This compelling work will elevate your awareness, challenge some presuppositions and invite you to grow in the grace of the Lord Jesus."--Dr. Mark J. It has enhanced my understanding of who I am as a woman and inspires me to instill that in the young women around me. This book is about truth and therefore would be great written by anyone. However, I realized that the fact that it was written by a man, and it is a man calling me into my divine design, brought a deeper level of healing than I'd anticipated and sent me on a journey digging deeper into God's

heart. I recommend it for all!" --Revival Magazine "Fashioned to Reign considers the everlasting deception Christians face regarding women's role and purpose: a deception fostered by evil and which is not of God's plan. The disempowerment of women was the devil's idea - and God's true plan for women is very different. Woman was, in fact, designed to stand by man's side and reign with him, not under him - and Fashioned to Reign covers God's ultimate intention for women.
