On the basis of empirical studies, this book explores nature as an integral part of the social worlds conventionally studied by anthropologists. The book

may be read as a form of scholarly "edgework," resisting institutional divisions and conceptual routines in the interest of exploring new modalities of anthropological knowledge making. The present interest in the natural world is partly a response to large-scale natural disasters and global climate change, and to a keen sense that nature matters matters to society at many levels,

ranging from the microbiological and genetic framing of reproduction, over co-species development, to macro-ecological changes of weather and climate. Given that the human footprint is now conspicuous across the entire globe, in the oceans as well as in the atmosphere, it is difficult to claim that nature is what is given and permanent, while people

and societies are ephemeral and simply derivative features. This implies that society matters to nature, and some natural scientists look towards the social sciences for an understanding of how people think and how societies work. The book thus opens up a space for new forms of reflection on how natures and societies are generated.

Suzanne Schlosberg's friends dubbed her the Cal Ripken of celibacy.

Given the common belief among single women that all the good men are either married or gay, Suzanne's predicament is hardly extraordinary, but what she does to end the streak makes for a hilarious tale. Suzanne hits bottom when her younger sister gets engaged, leaving her less than a year to find a date for the wedding. She shifts into overdrive, experimenting with Internet dating, speed dating, and other bizarre 21st century match-making rituals. But after

enduring every indignity of singlehood, she ultimately learns to ask herself: Does she really need a man to find happiness?

In 1972, a three-wheel tricycle was featured at the Seattle's World's Fair. By 1996, San Diego, CA

depicts one story following a musician who seeks aspirations utilizing the Pedicab industry as a springboard. Detail accounts of the inner-world and its customers introduces a mass amount of characters who caught Pedicab Fever along the way. From the innocent to the Freebird, the whole truth is not given. No contempt charges will be made. The only guarantee is that the pedicab industry has scatter across America for a reason - capitalism's last stand and a push toward

independent means. The Birth of the PEPOR (Professional Entertaining Pedicab Operating Rider) is a money game. The greatest hustling machine on earth.

Pedicab Hearsay (San Diego) - Birth of the PEPOR Terrace Books Islands—as well as entire continents—are reputed to have disappeared in many parts of the world. Yet there is little information on this subject concerning its largest ocean, the Pacific. Over the years, geologists have amassed data that

point to the undeniable fact of islands having disappeared in the Pacific, a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight. There are even a few instances where fragments of Pacific continents have disappeared, becoming hidden from view rather than being submerged. In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific, the author ranges

far and wide, from explanations of the region's ancient history to the meanings of island myths. Using both original and up-to-date information, he shows that there is real value in bringing together myths and the geological understanding of land movements. A description of the Pacific Basin and the "ups and downs" of the land within its vast ocean is followed by chapters explaining how—long before humans arrived in this part of the world—islands and

continents that no longer exist were once present. A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth-surface changes and their encryption in folklore. The author also addresses the persistent myths of a "sunken continent" in the Pacific, which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience

explanations of our planet and its inhabitants. Finally, he presents original data and research on island disappearances witnessed by humans, recorded in oral and written traditions, and judged by geoscience to be authentic. Examples are drawn from throughout the Pacific, showing that not only have islands collapsed, and even vanished, within the past few hundred years, but that they are also liable to do so in the future.

Ada tuned into a song while walking into the house. Instead of the excitement and pleasure that usually came with singing, a haze of vagueness and emptiness hung on her mind. What was that for? She just couldn't tell. Maybe seeing her son, Chideraa, would make her feel better. She had left him in the sitting room. But Chideraa was

not in the sitting room when she walked in. Ada searched under the bed, and table. She looked up to the ceiling and the walls, even though she knew Chideraa could not have climbed there. When she couldn't find him, she screamed, Chideraa! But there was no response. Love, suspense, intrigue, conspiracy, deceit, treachery, pain, and anguish are all here in author Stan-Collins Ubakas latest book, Chideraa: Love and Bruises. Ubaka tells a story most of us can

relate to. Ada was a young, innocent girl in love. This supposed beautiful feeling resulted in pain, then gain, then pain, and then The emotional roller coaster seemed never-ending. Chideraa: Love and Bruises educates you about the many ills in our society. You will also find there is hope despite how things look at times. *Anthropology and Nature* Ediciones Robinbook New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and

On September 11, 2001, journalist Tom Flynn set

off on his bike toward the World Trade Towers not knowing what he was riding into. Bikeman is one man's journey back to the horrors of that day and to the humanity that somehow emerged from the dust and the death. Both heartbreaking and haunting, his words will stay with you like that 'forever September morning.'" --Meredith Vieira, NBC's Today Tom Flynn brings to his subject three invaluable attributes: the eye of a seasoned journalist, the soul of a poet, and his

stunning, first-hand experience of that horrific day." --David Friend, Vanity Fair From Bikeman: The dead from here are my forever companions I am their pine box, their marble reliquary, their bronze urn, the living, breathing coffin they never had, their final resting place without a stone. I move on at peace. Modeled on Dante's *Inferno*, veteran journalist Thomas Flynn's *Bikeman* chronicles the morning of September 11, 2001 like no other published work. Flynn delivers a personal

account of his experiences beginning with the first strike on the World Trade Center when he decided to follow his journalist's instinct and point his bike's handlebars in the direction of the north tower. His story continues as he transitions from reporter to participant hoping to survive the fall of the south tower. Now Flynn, as both journalist and now survivor, must come to terms with the harrowing ordeal and somehow find peace in the very act of surviving.

Part journalist's record, part survivor's eulogy, Flynn writes: Survival is the absence of death. It is a subdued, a hushed existence. . . I live to talk about it, to relate the tale as it happens, not only its extremities and cruelty, but also the goodness that flourishes too. Reader's Digest Condensed Books University Press of Colorado This is a collection of interdisciplinary essays that examines the historical, political, and social significance of 9/11.

This collection considers 9/11 as an event situated within the much larger historical context of late late-capitalism, a paradoxical time in which American and capitalist hegemony exist as pervasive and yet under precarious circumstances. Contributors to this collection examine the ways in which 9/11 changed both everything and, at the same time, nothing at all. They likewise examine the implications of 9/11 through a variety of different media and art

forms including literature, film, television, and street art.

Escaping his ghosts, AIDS widower David Masiello accepts a one-year position at a Western medical clinic in Beijing. Lonely but excited, he sets out to explore the city—both its bustling street life and its clandestine gay subculture. David chronicles his adventures in China as he wrestles

with cultural dislocation, loneliness, and sexual and spiritual longing. After a series of both comic and poignant encounters with gay Chinese men, he meets Bosheng, a handsome young artist. Though the attraction is strong, a difficult courtship ensues, during which Bosheng returns to his ancestral village to marry the girl his parents have chosen for him. Eventually, and quite unexpectedly, David and Bosheng reconnect and share an idyllic spring together. As the year

ends, David must decide whether to say goodbye or face the uncertainties of a long-distance relationship. Gambone's novel is peopled with a host of wonderfully memorable characters: Owen, David's forthright best friend back home; Auntie Chen, the clinic's office mom, who wants to fix David up with a girlfriend; Stewart, David's Beijing roommate, a graduate student doing research on Peking opera; Jiantao and Guoyang, two lovers who lecture David on the fleeting quality of

American romance; and Tyson, the Australian doctor with a Chinese girlfriend, who hopes to teach David that love doesn't need any explanations or justifications.

author of *Nightbitch* A heart-racing fun house of uncanniness hidden in Florida's underbelly from the celebrated Laura van den Berg It's another summer in a small Florida town. After an illness that vanishes as mysteriously as it arrived, everything appears to be getting back to normal: soul-crushing heat, torrential downpours, sinkholes swallowing the earth, ominous cats, a world-bending virtual reality device being handed out by a company called ELECTRA, and an

increasing number of posters dotting the streets with the faces of missing citizens. Living in her mother's home, a ghostwriter for a famous thriller author tracks the eerie changes. On top of everything else, she's contending with family secrets, spotty memories of her troubled youth, a burgeoning cult in the living room, and the alarming expansion of her own belly button. Then, during a violent rainstorm, her sister goes missing. She returns a few days later, sprawled on their

mother's lawn and speaking of another dimension. Now the ghostwriter must investigate not only what happened to her sister and the other missing people but also the uncanny connections between ELECTRA, the famous author she works for, and reality itself. A sticky, rain-soaked reckoning with the elusive nature of selfhood and storytelling, Laura van den Berg's *State of Paradise* is an intricate and page-turning whirlwind. With inimitable

control and thrilling style, van den Berg reaches deep into the void and returns with a story far stranger than either reality or fiction.
