W. W. Norton & Company

This is the new edition of Norton's splendid anthology (the first was published in 1962); previous editions are cited in Books for College Libraries, 3rd ed. It is now packaged with two audio CDs that have on them poems read by the authors themselves, from Tennyson (made on a wax cylinder recording device in the late 1880s) to Heaney and Walcott; passages of Old English and Middle English poems; poems in Scots dialect and poems written in sprung rhythm; and performances of poems set to music.

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Western literary study flows out of eighteenth-century works by Alexander Pope, Daniel Defoe, Henry Fielding, Frances Burney, Denis Diderot, Johann Gottfried Herder, Johann Wolfgang von Goethe, and others. Experience the birth of the modern novel, or compare the development of language using dictionaries and grammar discourses. ++++ The below data was compiled from various identification fields in the bibliographic record of this title.
