NICHOLSON TREVINO

Democracy and Dissent Cengage Learning

This best-selling American government text is highly acclaimed for the non-ideological framework it uses to explore three themes: freedom, order, and equality as political values; majoritarianism versus pluralism debate; and globalization's effect on American politics. Extensively updated, this edition includes new examples, figures, data, and current discussions. The authors include balanced coverage of the first two years of the Obama administration, coverage and analysis of the 2010 mid-term election, and a retrospective of the Bush presidency. THE ESSENTIALS version of the text replaces both the Seventh Edition of the Brief version and the Second Edition of the Student Choice version. The Eighth Edition can be packaged with Aplia, which offers students automatically graded homework assignments. Organized by chapter, Aplia helps provide students immediate, detailed explanations, and helps them come to class better prepared for discussion. For more on Aplia and other media available with this text, click on Supplements.

THE CHALLENGE OF DEMOCRACY: AMERICAN GOVERNMENT IN GLOBAL POLITICS, THE ESSENTIALS introduces new co-author Debra Schildkraut to this stellar author team. This best-selling American government text is highly acclaimed for the non-ideological framework it uses to explore three themes: freedom, order, and equality as political values; the majoritarianism versus pluralism debate; and globalization's effect on American politics. Using an easy to follow approach, with chapters and subheadings numbered and organized by learning outcomes, and a new end of chapter "Assessing Your Understanding" section where students can test their knowledge, the ninth edition provides a solution for teaching and assessing course learning outcomes. Extensively updated, this condensed edition includes new examples, figures, data, and current discussions. The authors include balanced coverage of Obama's historical presidency and coverage and analysis of the 2012 presidential primary campaign and election. This ninth edition of THE CHALLENGE OF DEMOCRACY, THE ESSENTIALS is an abridged version of the twelfth edition of THE CHALLENGE OF DEMOCRACY. See "Features" for details. Inventing Leadership Houghton Mifflin College Division

Schmitt's thought serves as a warning against the dangers of complacency entailed by triumphant liberalism. In this collection of essays Schmitt reminds us that the essence of politics is struggle.

The Essentials, 1999-2000 Update Princeton University Press

From a leading political thinker, this book is both an invaluable playbook for meeting our current moment and a stirring reflection on the future of democracy itself. The COVID-19 pandemic has demonstrated some of the strengths of our society, including the rapid development of vaccines. But the pandemic has also exposed its glaring weaknesses, such as the failure of our government to develop and quickly implement strategies for tracing and containing outbreaks as well as

widespread public distrust of government prompted by often confusing and conflicting choices—to mask, or not to mask. Even worse is that over half a million deaths and the extensive economic devastation could have been avoided if the government had been prepared to undertake comprehensive, contextually-sensitive policies to stop the spread of the disease. In *Democracy in the Time of Coronavirus*, leading political thinker Danielle Allen untangles the US government's COVID-19 victories and failures to offer a plan for creating a more resilient democratic polity—one that can better respond to both the present pandemic and future crises. Looking to history, Allen also identifies the challenges faced by democracies in other times that required strong government action. In an analysis spanning from ancient Greece to the Reconstruction Amendments and the present day, Allen argues for the relative effectiveness of collaborative federalism over authoritarian compulsion and for the unifying power of a common cause. But for democracy to endure, we—as participatory citizens—must commit to that cause: a just and equal social contract and support for good governance.

American Government in Global Politics Houghton Mifflin College Division

This book explores the culture of indigenous peoples in Latin America, the fundamental challenges they offer to traditional Euro-American notions of democracy, citizenship and develop the interface of these topics. It also explores the relevant themes on human rights and the environment, with questions of security and the risks implicit in the adoption of ethnonationalist dogma. Peoples of the Earth does this, using a cross-disciplinary approach that employs anthropology, history, political science, legal theory and ethno-nationalism.

The Challenge of Democracy, 2018 Election Update Wadsworth Publishing Company

A thought-provoking history of communications that challenges ideas about freedom of speech and democracy. At the heart of democracy lies a contradiction that cannot be resolved, one that has affected free societies since their advent: Though freedom of speech and media has always been a necessary condition of democracy, that very freedom is also its greatest threat. When new forms of communications arrive, they often bolster the practices of democratic politics. But the more accessible the media of a society, the more susceptible that society is to demagoguery, distraction, and spectacle. Tracing the history of media disruption and the various responses to it over time, Zac Gershberg and Sean Illing reveal how these changes have challenged democracy—often with

unsettling effects. The Paradox of Democracy captures the deep connection between communication and political culture, from the ancient art of rhetoric and the revolutionary role of newspapers to liberal broadcast media and the toxic misinformation of the digital public sphere. With clear-eyed analysis, Gershberg and Illing show that our contemporary debates over media, populism, and cancel culture are not too different from democratic cultural experiences of the past. As we grapple with a fast-changing, hyper-digital world, they prove democracy is always perched precipitously on a razor's edge, now as ever before.

The Challenge of Sustaining Democracy in Deeply Divided Societies Wadsworth Publishing Company

Blames the operation of liberal democracy for its inability to make the tough decisions necessary to stabilize climate change and provide a sustainable society.

Global Challenges to Liberal Democracy Houghton Mifflin College Division

Now part of the Advantage Series, THE CHALLENGE OF DEMOCRACY, ESSENTIALS, offers the same quality coverage at a competitive price. (The Advantage Series Essentials version replaces the second edition of the Student Choice version.) Tom Wren's book is a masterpiece of intellectual history. It explores the philosophical and historical foundations of democracy in a compelling way. Wren is a sparkling and graceful writer. He makes a potentially dry subject come alive with wit and insight. The issues Wren addresses are extremely timely, as the United States endeavors to advance democracy in the Middle East. George Goethals, University of Richmond, US In this important analysis of democratic thought and treatise on leadership, historian Tom Wren drills down to the essential intellectual paradox: that leadership and democracy are inherently hostile concepts. Wren brilliantly strips down our fictions concerning these domains in his extensive deconstruction of both classical and modern thought. What emerges is a dialectical awakening and a practical new vision of citizen participation and enlightened leadership. Georgia Sorenson, James MacGregor Burns Academy of Leadership, University of Maryland, College Park and US Army An excellent scholarly work that is well written and highly relevant within the context of contemporary politics. Although essential reading for teachers and students of political theory, it will also interest the general reader and armchair politician. First Trust Bank Economic Outlook and Business Review Wren is to be commended for attempting to lay bare the underlying assumptions and premises that inform any approach to politics. . . an important contribution to an ongoing conversation about what contemporary leadership should look like. Undergraduates will benefit from his review of important theorists, and practitioners should be challenged by Wren's own theses about leadership. Highly recommended. All readership levels. M.J. Watson, Choice The tension between ruler and ruled in democratic societies has never been satisfactorily resolved, and the competing interpretations of this relationship lie at the bottom of much modern political discourse. In this fascinating book, Thomas Wren clarifies and elevates the debates over leadership by identifying the fundamental premises and assumptions that underlie past and present understandings. The author traces the intellectual history of the central constructs: the leader, the people, and, ultimately, the relationship between them as they seek to accomplish societal objectives. He begins with a discussion of the invented notion of the classical paragon of a ruler. Next he pursues the invention of the countervailing concept of a sovereign people, and finally, the need for the invention of a new construct leadership which embodies a new relation between ruler and ruled in regimes dedicated to power in the people. In doing so, he draws upon the giants of the Western intellectual tradition as well as the insights of modern historians, political scientists, sociologists and leadership scholars. The book concludes with a proposed model of leadership for a modern democratic world. Elegantly written and masterfully argued, this comprehensive study will be essential reading for students and scholars of leadership and democracy.

The Challenge of Democracy Wadsworth Publishing Company

Frank Vibert expertly examines the fundamental issues involved in attempts to rethink international institutions and their rule making procedures. He analyses the basic problems with the existing system and the main approaches to its reform. The book rejects the idea that there are any simple institutional 'fixes' for current problems - such as relying on the G20 to coordinate global rule making and also rejects more ambitious attempts to prescribe new general organizing principles for world governance. It calls instead for specific remedies for specific problems. The author recommends new procedures for all international rule making so that both expert groups and governments are subject to much stronger external checks on what they do.

The Challenge of Democracy: American Government in Global Politics, The Essentials Cengage Learning

American Government in Global Politics Verso

Multistakeholder governance is proposed as the way forward in global governance. For some leaders in civil society and government who are frustrated with the lack of power of the UN system and

multilateralism it is seen as an attractive alternative; others, particularly in the corporate world, see multistakeholder governance as offering a more direct hand and potentially a legitimate role in national and global governance. This book examines how the development of multistakeholderism poses a challenge to multilateralism and democracy. Using a theoretical, historical perspective it describes how the debate on global governance evolved and what working principles of multilateralism are under threat. From a sociological perspective, the book identifies the organizational beliefs of multistakeholder groups and the likely change in the roles that leaders in government, civil society, and the private sector will face as they evolve into potential global governors. From a practical perspective, the book addresses the governance issues which organizations and individuals should assess before deciding to participate in or support a particular multistakeholder group. Given the current emphasis on the participation of multiple actors in the Sustainable Development Goals, this book will have wide appeal across policy-making and professional sectors involved in negotiations and governance at all levels. It will also be essential reading for students studying applied governance.

Shutdown Houghton Mifflin College Division

John Dewey was America's greatest public philosopher. A prolific and influential writer for both scholarly and general audiences, he stands out for the remarkable breadth of his contributions. Dewey was a founder of a distinctly American philosophical tradition, pragmatism, and he spoke out widely on the most important questions of his day. He was a progressive thinker whose deep commitment to democracy led him to courageous stances on issues such as war, civil liberties, and racial, class, and gender inequalities. This book gathers the clearest and most powerful of Dewey's public writings and shows how they continue to speak to the challenges we face today. An introductory essay and short introductions to each of the texts discuss the current relevance and significance of Dewey's work and legacy. The book includes forty-six essays on topics such as democracy in the United States, political power, education, economic justice, science and society, and philosophy and culture. These essays inspire optimism for the possibility of a more humane public and political culture, in which citizens share in the pursuit of lifelong education through participation in democratic life. America's Public Philosopher reveals John Dewey as a powerful example for scholars seeking to address a wider audience and a much-needed voice for all readers in search of intellectual and moral leadership.

The Challenge of Democracy Academic Internet Pub Incorporated

"Harel-Shalev's study is outstanding. Finally, a cogent and intelligent analysis of the myriad ways deeply divided societies maintain and negotiate democratic practices. This book will prove to be essential reading for anyone interested in the topics of identity politics, public policy, and democracy."---Rebecca Kook, Ben Gurion University --

Against Democracy Cengage Learning

Developed in partnership with teachers and students to meet the learning, study, and assessment goals essential to learner success, THE CHALLENGE OF DEMOCRACY, STUDENT CHOICE, 2e incorporates to-the-point coverage, eliminates extraneous material, and integrates pedagogy that reinforces key concepts. Incorporating the very latest research and events central to American politics, the text thoroughly explores freedom, order, and equality as political values; the majoritarianism vs. pluralism debate; and globalization's effect on American politics. Extensively updated, the Second Edition is packed with new examples, figures, data, and current discussions, including a balanced retrospective of the Bush presidency as well as new comparative features that place the United States in a global context. In addition, online learning environment AmericansGoverning.org engages learners in the political process through a variety of media.
