Statutes of the Province of British Columbia Emmaus Academic

Scholars have argued about U.S. state development - in particular its laggard social policy and weak institutional capacity - for generations. Neo-institutionalism has informed and enriched these debates, but, as yet, no scholar has reckoned with a very successful and sweeping social policy designed by the federal government: the Servicemen's Readjustment Act of 1944, more popularly known as the GI Bill. Kathleen J. Frydl addresses the GI Bill in the first study based on systematic and comprehensive use of the records of the Veterans Administration. Frydl's research situates the Bill squarely in debates about institutional development, social policy and citizenship, and political legitimacy. It demonstrates the multiple ways in which the GI Bill advanced federal power and social policy, and, at the very same time, limited its extent and its effects.

This collection of original articles, a sequel of sorts to the 2009 *Religion and the Implications of Radical Life Extension* (Palgrave Macmillan), is the first sustained reflection, by scholars with expertise in the faith traditions, on how the transhumanist agenda might impact the body.

The Civil Partnership Act 2004 Cambridge University Press

Retaining the position it has held since first publication, the fifth edition of this leading practitioner text on information law has been thoroughly re-worked to provide comprehensive coverage of the Data Protection Act 2018 and the GDPR. Information Rights has been cited by the Supreme Court, Court of Appeal and others, and is used by practitioners, judges and all those who practise in the field. The new edition maintains its style of succinct statements of principle, supported by case law, legislative provisions and statutory guidance. Reflecting its enlarged scope and to maintain easy referencing, the work has been arranged into two volumes. The first volume is a 1,250-page commentary, divided into six parts. The first part is an overview and introduction to overarching principles. The second part provides an authoritative treatment of the data protection regime. This covers all four forms of processing (general, applied, law enforcement and security services) under

the GDPR and DPA 2018. Each obligation and each right is comprehensively treated, with reference to all known case-law, both domestic and EU, including those dealing with analogous provisions in the previous data protection regime. The third part provides a detailed treatment of the environmental information regime. This recognises the treaty provenance of the regime and its distinct requirements. The fourth part continues to provide the most thorough analysis available of the Freedom of Information Act and its Scottish counterpart. As with earlier editions, every tribunal and court decision has been reviewed and, where required, referenced. The fifth part considers other sources of information rights, including common law rights, local government rights and subject-specific statutory information access regimes (eg health records, court records, audit information etc). The final part deals with practice and procedure, examining appeal and regulatory processes, criminal sanctions and so forth. The second volume comprises extensive annotated statutory material, including the DPA 2018, the GDPR, FOIA, subordinate legislation, international conventions and statutory guidance. The law is stated as at 1st February 2020.
