We argue that the Women, Peace and Security agenda reproduces a neoliberal understanding of economic empowerment

that inadequately captures the reality of women's lives in post-war settings for two reasons: first, it views formal and informal economic activities as dichotomous and separate, rather than as intertwined and constitutive of each other; and, second, it conceptualizes agency as individual, disembodied, abstract, universalizing and conforming to the requirements of the ...

Towards A Feminist Political Economy Framework for ...

Abstract This article develops a feminist political economy framework for analyzing employment-related geographical mobility. We emphasize the relevance of political economy

studies of class, neoliberalism, and globalization as well as feminist research on the interconnectedness between paid employment and social reproduction.

Feminist political ecology is a subfield that brings feminist theory, objectives, and practices to political ecology, which is an analytical framework based on the assumption that ecological issues must be understood and analyzed in relation to political economy (and vice versa). Feminist political ecologists hold that gender is a crucial variable - in relation to class, race, and other relevant dimensions of political ecological life - in constituting access to, control over, and ...
