ROWE MIDDLETON

[Honda CBX 250 rs cold start](#) Honda Cbx 250 Rs 1986 Overall, the CBX motor is still impressive and gives a healthily frugal gas consumption of knocking on 60 miles to the gallon, ridden with its little throttle on the stop most of the time. Cruised gently, in a high gear with only one of the carbs being sick into its inlet tract, 70 or 80mpg could easily be a possibility. [Honda CBX 250RS - motorcyclespecs.co.za](#) The Honda CBX250RS is a motorcycle first sold by Honda in May 1983 in Japan as their new 250cc sports bike with a view to replacing the popular CB250RS. The

engine was based on the XR series with particular links to the XR350 bottom end, including a six-speed gearbox and the same oil pump. The stroke is also the same, but the bore reduced to bring the capacity down to 249 cc (15.2 cu in). [Honda CBX250RS - Wikipedia](#) De CBX 250 RS kreeg een nieuw dubbel wiegframe en net als de CB 250 RS spaakwielen met lichtmetalen velgen. Van 1984 tot 1986 werd de machine ook in het Verenigd Koninkrijk aangeboden, maar het werd geen succes. De CBX 250 RS was veel duurder dan de nog steeds leverbare CB 250 RS en er gingen geruchten over snel slijtende nokkenassen en tuimelaars.
