This study maps a new approach to the works of W.B. Yeats, Robert Frost, Robert Penn Warren, and Seamus Heaney. Sean Heuston combines interdisciplinary analysis, specifically ethnography, with close reading, and in so doing argues provocatively for the intersection of modern poetry studies and contemporary ethnographic theory.

The Keys of Middle-Earth uniquely introduces the reader to the world of Medieval Literature through the fiction of J.R.R. Tolkien. Using key episodes in *The Hobbit* and *The Lord of the Rings*, readers are taken back to the works of Old, Middle English and Old Norse literature that so influenced Tolkien. The original texts are presented with helpful new translations to help the reader approach the medieval poems and tales, and introductory essays draw on recent scholarship and Tolkien's own unpublished notes. Presenting a new era of Tolkien studies, this book will be of use to students (and teachers) of Medieval/Old English literature and general readers interested in the origins of Tolkien's most widely-known works.

The Politics of Literary Culture and the Case of Romantic Historicism Macmillan Children's Books

A good poetry idea should help the children feel excited about writing and enable them to think of what to write - developing their imagination, creativity and writing skills. Jumpstart! Poetry is

about involving children as creative writers through writing poems. The book contains a bank of ideas that can be drawn upon when teaching poetry but also at other times to provide a source for creative writing that children relish. There are more than 100 quick warm-ups to fire the brain into a creative mood and to 'jumpstart' reading, writing and performing poetry in any key stage 1 or 2 classroom. Practical, easy-to-do and vastly entertaining, this new 'jumpstarts' will appeal to busy teachers in any primary classroom.

The Mobster's Lament Macmillan

1819 was the annus mirabilis for many British Romantic writers, and the annus terribilis for demonstrators protesting the state of parliamentary representation. In 1819 Keats wrote what many consider his greatest poetry. This was the year of Shelley's *Prometheus Unbound*, *The Cenci*, and *Ode to the West Wind*. Wordsworth published his most widely reviewed work, *Peter Bell*, and the craze for Walter Scott's historical novels reached its zenith. Many of these writings explicitly engaged with the politics of representation in 1819, especially the great movement for reform that was fueled by threats of mass emigration to America and came to a head that August with an unprovoked attack on unarmed men, women, and children in St. Peter's Field, Manchester, a massacre that journalists dubbed "Peterloo." But the year of Peterloo in British history is notable for more than just the volume, value, and topicality of its literature. Much of the writing from 1819, argues James Chandler, was acutely aware not only of its place in history, but also of its place as history - a realization of a literary "spirit of the age" that resonates strongly with the current "return to history" in literary studies. Chandler explores the ties between Romantic and contemporary historicism, such as the shared tendency to seize a single dated event as both important on its own and as a "case" testing general principles. To animate these issues, Chandler offers a series of cases of his own built around key texts from 1819.

A stunning collection of poems from a master wordsmith.

EVIDENCE OF DRAGONS brings Pie Corbett's achingly beautiful poems together for the very first time. His poems are full of the wonder of the ordinary and introduce us to characters and topics as varied as THE LAST UNICORN, MY BROTHER'S PIG, THE DRAGON WHISTLER, STARS, SHADOW PUPPETS and THE CLOUD APPRECIATION SOCIETY. "The Dragon Whistler tucks stars into her pocket, reaches for a sunset; purses her moonlit lips and whistles..."

J. R. R. Tolkien is arguably the most influential and popular of all fantasy writers. Although his position and status have long been controversial, his popularity has not faded. His best-loved works, *The Hobbit* and *The Lord of the Rings*, have sold millions of copies around the world and continue to enthral readers young and old. This lively collection of original essays examines *The Hobbit* and *The Lord of the Rings* in the light of children's literature theory and approaches, as well as from adult and fantasy literature perspectives. Exploring issues such as gender, language, worldbuilding, and ecocriticism, the volume also places Tolkien's works in the context of a range of visual media, including Peter Jackson's film adaptations.

Nebula Award-winning author Walter Jon Williams returns to the sweeping space opera adventure of his Praxis universe with *Impersonations*, an exciting new novel featuring the hero of *Dread Empire's Fall!* Having offended her superiors by winning a

battle without permission, Caroline Sula has been posted to the planet Earth, a dismal backwater where careers go to die. But Sula has always been fascinated by Earth history, and she plans to reward herself with a long, happy vacation amid the ancient monuments of humanity's home world. Sula may be an Earth history buff, but there are aspects of her own history she doesn't want known. Exposure is threatened when an old acquaintance turns up unexpectedly. Someone seems to be forging evidence that would send her to prison. And all that is before someone tries to kill her. If she's going to survive, Sula has no choice but to make some history of her own. Reviews: "Well told with story plot, well-drawn characters, and excellent wordsmithing...It feels like Williams is having a great time with Impersonations." — Locus "Readers will savor this intriguing glimpse into the life of a woman who struggles with her own identity and the price of her action." — Publishers Weekly At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. Literature, Modernism, and Dance explores the complex reciprocal relationship between literature and dance in the modernist period

England in 1819 Houghton Mifflin Harcourt

Marie Brennan begins a thrilling new fantasy series in A Natural History of Dragons, combining adventure with the inquisitive spirit of the Victorian Age. You, dear reader, continue at your own risk. It is not for the faint of heart—no more so than the study of dragons itself. But such study offers rewards beyond compare: to stand in a dragon's presence, even for the briefest of moments—even at the risk of one's life—is a delight that, once experienced, can never be forgotten. . . . All the world, from Scirland to the farthest reaches of Eriga, know Isabella, Lady Trent, to be the world's preeminent dragon naturalist. She is the remarkable woman who brought the study of dragons out of the misty shadows of myth and misunderstanding into the clear light of modern science. But before she became the illustrious figure we know today, there was a bookish young woman whose passion for learning, natural history, and, yes, dragons defied the stifling conventions of her day. Here at last, in her own words, is the true story of a pioneering spirit who risked her reputation, her prospects, and her fragile flesh and bone to satisfy her scientific curiosity; of how she sought true love and happiness despite her lamentable eccentricities; and of her thrilling expedition to the

perilous mountains of Vystrana, where she made the first of many historic discoveries that would change the world forever.
