[HPE 3PAR Peer Persistence Software License | HPE Store US](#)
 Peer Persistence enables HPE 3PAR StoreServ systems located at metropolitan distances to act as peers to each other, presenting a nearly continuous storage system to hosts and servers connected to them. This post details Peer Persistence..
 Introduction to Peer Persistence . All consolidation projects are essentially stacking as many eggs possible in a basket.
[HPE 3PAR Peer Persistence: Unattended Transparent Storage ...](#)
 With the 2.1 release of the HP 3PAR StoreServ Management Console, HP has enabled the creation and control of Peer Persistence configurations within the management tool. Peer Persistence is the HP branding for transparent LUN failover between storage arrays with no downtime - a concept VMware administrators will recognize is Metro Storage Clustering in the VMware vernacular.
[HP 3PAR SSMC 2.1 makes Peer Persistence configuration easy ...](#)
 Peer Persistence is a 3PAR feature that

enables your chosen flavour of hypervisor, either Hyper-V or vSphere to act as a metro cluster. A metro cluster is a geographically dispersed cluster that enables VM's to be migrated without interruption from one location to the next with zero down time.
